What We French Think of You British Marcel Lucont,2015-10-26 Marcel Lucont, France's premier misanthropist and lover, introduces the reader to the British character as seen through the eyes of the French. From food and weather to television and pets, he shares his disdainful opinion on all things British and offers advice on just why the French do it so much better. The book features: Dans La Rue, an eye-spy parody set on the British high street; Tits of the Brits, a poem concerning the large British bust vs the petite French cup; Stolen French, a guide to words the British have stolen from the French; The British Joke, Marcel's take on British humour; and, The Monarchy, including why the French got rid of theirs.

Music and Culture in the Middle Ages and Beyond Benjamin Brand,David J. Rothenberg,2016-10-27 It has become widely accepted among musicologists that medieval music is most profitably studied from interdisciplinary perspectives that situate it within broad cultural contexts. The origins of this consensus lie in a decisive reorientation of the field that began approximately four decades ago. For much of the twentieth century, research on medieval music had focused on the discovery and evaluation of musical and theoretical sources. The 1970s and 1980s, by contrast, witnessed calls for broader methodologies and more fully contextual approaches that in turn anticipated the emergence of the so-called 'New Musicology'. The fifteen essays in the present collection explore three interrelated areas of inquiry that proved particularly significant: the liturgy, sources (musical and archival), and musical symbolism. In so doing, these essays not only acknowledge past achievements but also illustrate how this broad, interdisciplinary approach remains a source for scholarly innovation.

Mapping Travel Jordana Dym,2021-08-30 Drawing on a thousand years of European travel writing and mapmaking, Dym suggests that after centuries of text-based itineraries and on-the spot directions guiding travelers and constituting their reports, maps in the fifteenth century emerged as tools for Europeans to support and report the results of land and sea travel. With each succeeding generation, these linear journey maps have become increasingly common and complex, responding to changes in forms of transportation, such as air and motor car 'flight' and print technology, especially the advent of multi-color printing. This is their story.

Emergency Questions Richard Herring,2019-12-24 If you had to wear somebody's guts for garters - if you had to - who would you disembowel in order to facilitate your socks staying up? Containing 1,001 conversation starters from one of our most cherished comedians, along with plenty of answers from the many household names who've appeared on his podcast, this book is virtually guaranteed to remove any social anxiety from your life, and will raise your repartee-game to new heights.

Printed Poison Jeffrey K. Sawyer,2022-08-19 Combining a broad analysis of political culture with a particular focus on rhetoric and strategy, Jeffrey Sawyer analyzes the role of pamphlets in the political arena in seventeenth-century France. During the years 1614-1617 a series of conflicts occurred in France, resulting from the struggle for domination of Louis XIII's government. In response more than 1200 pamphlets—some printed in as many as eighteen editions—were produced and distributed. These pamphlets constituted the political press of the period, offering the only significant published source of news and commentary. Sawyer examines key aspects of the impact of pamphleteering: the composition of the targeted public and the ways in which pamphlets were designed to affect its various segments, the interaction of pamphlet printing and political action at the court and provincial levels, and the strong connection between pamphlet content and assumptions on the one hand and the evolution of the French state on the other. His analysis provides new and valuable insights into the rhetoric and practice of politics. Sawyer concludes that French political culture was shaped by the efforts of royal ministers to control political communication. The resulting distortions of public discourse facilitated a spectacular growth of royal power and monarchist ideology and influenced the subsequent history of French politics well into the Revolutionary era. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1990.

Talk to the Snail Stephen Clarke,2008-12-02 Have you ever walked into a half-empty Parisian restaurant, only to be told that it's complet? Attempted to say merci beaucoup and accidentally complimented someone's physique? Been overlooked at the boulangerie due to your adherence to the bizarre foreign custom of waiting in line? Well, you're not alone. The internationally bestselling author of A Year in the Merde and In the Merde for Love has been there too, and he is here to help. In Talk to the Snail, Stephen Clarke distills the fruits of years spent in the French trenches into a truly handy (and hilarious) book of advice. Read this book, and find out how to get good service from the grumpiest waiter; be exquisitely polite and brutally rude at the same time; and employ the language of l'amour and le sexe. Everything you need is here in this funny, informative, and seriously useful guide to getting what you really want from the French.

The Train Georges Simenon,2011-07-19 Against all expectations Marcel Féron has made a "normal" life in a bucolic French suburb in the Ardennes. But on May 10, 1940, as Nazi tanks approach, this timid, happy man must abandon his home and confront the "Fate" that he has secretly awaited. Separated from his pregnant wife and young daughter in the chaos of flight, he joins a freight car of refugees hurtling southward ahead of the pursuing invaders. There, he meets Anna, a sad-looking, dark-haired girl, whose accent is "neither Belgian nor German," and who "seemed foreign to everything around her." As the mystery of Anna's identity is gradually revealed, Marcel leaps from the heights of an exhilarating freedom to the depths of a terrifying responsibility—one that will lead him to a blood-chilling choice. When it first appeared in English in 1964, British novelist and critic Brigid Brophy declared The Train to be "the novel his admirers had been expecting all along from Simenon." Until The Train, she wrote, the dazzlingly prolific novelist had been "a master without a masterpiece."

13 Things That Don't Make Sense Michael Brooks,2010-07-09 Science starts to get interesting when things don't make sense. Even today there are experimental results that the most brilliant scientists can neither explain nor dismiss. In the past, similar anomalies have revolutionised our world: in the sixteenth century, a set of celestial irregularities led Copernicus to realise that the Earth goes around the sun and not the reverse. In 13 Things That Don't Make Sense Michael Brooks meets thirteen modern-day anomalies that may become tomorrow's breakthroughs. Is ninety six percent of the universe missing? If no study has ever been able to definitively show that the placebo effect works, why has it become a pillar of medical science? Was the 1977 signal from outer space a transmission from an alien civilization? Spanning fields from chemistry to cosmology, psychology to physics, Michael Brooks thrillingly captures the excitement and controversy of the scientific unknown.

The Royal Image Anne Dawson Hedeman,1991 A treasure trove of new and useful material, which will be invaluable to scholars working in medieval history.--Elizabeth Brown, City University of New York

Double Take Kevin Michael Connolly,2009-10-13 “Kevin Connolly has used an unusual physical circumstance to create a gripping work of art. This deeply affecting memoir will place him in the company of Jeanette Walls and Augusten Burroughs.” — Sara Gruen, author of *Water for Elephants* “Charming ... Connolly recounts growing up a scrappy Montana kid—one who happened to be born without legs... [Double Take] makes for an empowering read.” — People As featured on 20/20, NPR, and in the Washington Post: Kevin Connolly is a young man born without legs who travels the world—by skateboard, with his camera—on his “Rolling Exhibition,” snapping pictures of peoples’ reactions to him... and finds out along the way what it truly means to be human.

A Sacred People Leo Killsback,2020 (Volume 1 of 2) Killsback, a citizen of the Northern Cheyenne Nation, reconstructs and rekindles an ancient Cheyenne world--ways of living and thinking that became casualties of colonization and forced assimilation. Spanning more than a millennium of antiquity and recovering stories and ideas interpreted from a Cheyenne worldview, the works' joint purpose is rooted as much in a decolonization roadmap as it is in preservation of culture and identity for the next generations of Cheyenne people. Dividing the story of the Cheyenne Nation into pre- and post-contact, *A Sacred People* and *A Sovereign People* lay out indigenously conceived possibilities for employing traditional worldviews to replace unhealthy and dysfunctional ones bred of territorial, cultural, and psychological colonization.

Fibber in the Heat Miles Jupp,2012-04-26 ** Shortlisted for the William Hill Sports Book of the Year Award ** Fanatical about cricket since he was a boy, Miles Jupp would do anything to see his heroes play. But perhaps deciding to bluff his way into the press corps during England's Test series in India wasn't his best idea. By claiming to be the cricket correspondent for BBC Scotland and getting a job with the (Welsh) Western Mail, Miles lands the press pass that will surely be the ticket to his dreams. Soon, he finds himself in cricket heaven - drinking with David Gower and Beefy, sharing bar room banter with Nasser Hussain and swapping diarrhoea stories with the Test Match Special team. But struggling in the heat under the burden of his own fibs, reality soon catches up with Miles as he bumbles from one disaster to the next. A joyous, charming, yet cautionary tale, *Fibber in the Heat* is for anyone who's ever dreamt about doing nothing but watching cricket all day long.

Missional Leadership Nelus Niemandt,2019-12-12 The purpose and aim of this book is to develop an appropriate leadership model for missional churches. This implies a positioning of this book within the broader theology of mission and a consensus on the theology of the *Missio Dei*, originating at the 1952 conference of the International Missionary Council in Willingen, Germany. In this approach to the theology of mission, mission is understood as the work of the Trinitarian God, and the church is privileged to participate in God's mission. It is against this background that the growing consensus on missional ecclesiology challenges leadership models developed for a different time and a different kind of church (with less or no emphasis on the missional character of the church). The aim is to reflect theologically on the role of leadership in the missional church. What kind of ideas about power, authority and leadership are appropriate for a missional church? New missional challenges demand new ideas about missional leadership. Church organisation and leadership reflects a theological position — there is a strong relation between ecclesiology and church organisation. The nature of the church provides the framework to understand the character of the church. What the church is determines what the church does. The church organises what it does and agrees on rules that regulate ministries and organisation. Issues such as the way the church organises and governs what it does, and thus church leadership, need to be answered against this background and understanding. Church polity and organisation, as well as leadership, must reflect the identity, calling, life and order of the church. This book, therefore, addresses life in the Trinity, participation in the *Missio Dei* and contours of the missional church as the point of entry to develop leadership insights. It contributes towards the development of an appropriate model of leadership for missional churches, because although recent developments in the theology of mission comprehensively addressed the area of missional ecclesiology, there is a gap in the development of a leadership model based on the concept of authority in the missional church.

Birthing the West Jennifer J. Hill,2022-03 *Birthing the West: Mothers and Midwives in the Rockies and Plains* shows how women and mothers constructed citizens, and how public health entities usurped that role, with varied long-term impacts on women, men, families, community, and American identity--
