Mac Walters

War Against the Mafia Don Pendleton, 2014-12-16

The first book in the classic vigilante action series from a “writer who spawned a genre” (The New York Times). Overseas, Mack Bolan was dubbed “Sgt. Mercy” for the compassion he showed the innocent. On the home front, they’re calling him the Executioner for what he’s doing to the guilty. In the jungles of Southeast Asia, American sniper Mack Bolan honed his skills. After twelve years, with ninety-five confirmed hits, he returns home to Massachusetts. But it’s not to reunite with his family, it’s to bury them—victims in a mass murder/suicide. Even though Bolan’s own father pulled the trigger, he knows the old man was no killer. He was driven to madness by Mafia thugs who have turned his idyllic hometown into a new kind of war zone. Duty calls . . . Introducing an action hero “who would make Jack Reacher think twice,” this is the first book in the iconic series of vigilante justice that has become a publishing phenomenon (Empireonline.com). With more than two hundred million Executioner books sold since its debut, the series continues to stimulate. Gerry Conway, cocreator of Marvel Comics’ The Punisher, credits the Executioner as “my inspiration . . . that’s what gave me the idea for the lone, slightly psychotic avenger.” The series is also now in development as a major motion picture. War Against the Mafia is the 1st book in the Executioner series, but you may enjoy reading the series in any order.

Mass Effect: Revelation Drew Karpysyn, 2007-05-01 The thrilling prequel to the award-winning video game from BioWare Every advanced society in the galaxy relies on the

technology of the Protheans, an ancient species that vanished fifty thousand years ago. After discovering a cache of Prothean technology on Mars in 2148, humanity is spreading to the stars; the newest interstellar species, struggling to carve out its place in the greater galactic community. On the edge of colonized space, ship commander and Alliance war hero David Anderson investigates the remains of a top secret military research station; smoking ruins littered with bodies and unanswered questions. Who attacked this post and for what purpose? And where is Kahlee Sanders, the young scientist who mysteriously vanished from the base—hours before her colleagues were slaughtered? Sanders is now the prime suspect, but finding her creates more problems for Anderson than it solves. Partnered with a rogue alien agent he can't trust and pursued by an assassin he can't escape, Anderson battles impossible odds on uncharted worlds to uncover a sinister conspiracy . . . one he won't live to tell about. Or so the enemy thinks. **BONUS:** This edition includes an excerpt from Drew Karpysyn's *Mass Effect: Ascension*.

Songs of the West F. W. Bussell,S. Baring-Gould,H. Fleetwood Sheppard,2019-11-27 This is a collection of folk songs from the West of England, specifically Devon and Cornwall. The songs were collected from the mouths of the people by various authors, including F. W. Bussell, S. Baring-Gould, and H. Fleetwood Sheppard, and edited by Cecil J. Sharp. The book includes a wide range of songs on various themes, including love, work, and local

legends and traditions of the West of England. Some of the songs are well-known, such as John Barleycorn and Widdicombe Fair, while others are more obscure.

The World Goes Pop Elsa Coustou, Lina Dzuveroric, 2015-01-01 A global survey of Pop art that reassesses its roots, impact, and legacy This groundbreaking book surveys the concurrent engagements with the spirit of Pop throughout the world, from the frequently studied activity in the United States, England, and France to less well-known developments in Central and Eastern Europe, Latin America, Asia, Africa, and the Middle East. One of the first publications to examine Pop art with this global scope, *The World Goes Pop* explores the wide-ranging movements that developed on different continents, such as Nouveau Réalisme, Neo Dada, New Figuration, and Spiritual Pop. This unique presentation offers the opportunity to compare how Pop art around the world differed due to geography, local traditions, and different cultures' social and political underpinnings. Fascinating essays touch upon key themes that factored into various Pop movements, including feminism, political representation, sexual politics, and seriality. A bold design and 200 striking illustrations showcase pieces by more than 60 artists, many of whose works have never been exhibited outside their home nations. The book also features a combined interview with a number of the living artists featured within, giving important insight into the thoughts and processes of Pop's international practitioners.

The Short, Swift Time of Gods on Earth Donald Bahr,Juan Smith,William Smith Allison,Julian Hayden,2023-04-28 In the spring of 1935, at Snaketown, Arizona, two Pima Indians recounted and translated their entire traditional creation narrative. Juan Smith, reputedly the last tribesman with extensive knowledge of the Pima version of this story, spoke and sang while William Smith Allison translated into English and Julian Hayden, an archaeologist, recorded Allison's words verbatim. The resulting document, the Hohokam Chronicles, is the most complete natively articulated Pima creation narrative ever written and a rare example of a single-narrator myth. Now this extraordinary work, composed of thirty-six separate stories, is presented in its entirety for the first time. Beautifully expressed, the narrative constitutes a kind of scripture for a native church, beginning with the creation of the universe out of the void and ending with the establishment in the sixteenth century of present-day villages. Central to the story is the murder/resurrection of a god-man, Siuuhu, who summoned the Pimas and Papagos (Tohono O'odham) as his army of vengeance and brought about the conquest of his murderers, the ancient Hohokam. Donald Bahr extensively annotates the text and supplements it with other Pima-Papago versions of similar stories. Important as a social and historic document, this book adds immeasurably to the growing body of Native American literature

and to our knowledge of the development of Pima-Papago culture.

The Pikeman's Lament Daniel Mersey, Michael Leck, 2017-01-26 Recreate the action and drama of 17th Century warfare on your tabletop with The Pikeman's Lament. Start by creating your Officer – is he a natural leader raised from the ranks, the youngest son of a noble family, or an old veteran who has seen too many battles? As you campaign, your Officer will win honour and gain promotion, acquiring traits that may help lead his men to victory. Before each skirmish, your Officer must raise his Company from a wide range of unit options – should he lean towards hard-hitting heavy cavalry or favour solid, defensively minded infantry? Companies are typically formed from 6–8 units, each made up of either 6 or 12 figures, and quick, decisive, and dramatic games are the order of the day. With core mechanics based on Daniel Mersey's popular Lion Rampant rules, The Pikeman's Lament captures the military flavour of the 17th Century, and allows you to recreate skirmishes and raids from conflicts such as the Thirty Years' War, the English Civil Wars, and the Great Northern War.

Inequality in U.S. Social Policy Bryan Warde, 2021-09-26 In the second edition of Inequality in U.S. Social Policy: An Historic Analysis, Bryan Warde illuminates the pervasive and powerful role that social inequality based on race and ethnicity, gender, immigration status, sexual orientation, class, and disability plays and has historically played in informing social policy. Using critical race theory and other

structural oppression theoretical frameworks, this book examines social inequalities as they relate to social welfare, education, housing, employment, health care, and child welfare, immigration, and criminal justice. With fully updated statistics throughout, and an examination of the impact of the COVID-19 pandemic on the United States, this new edition addresses the mammoth political and social changes which have affected inequality in the past few years. *Inequality in U.S. Social Policy* will help social work students better understand the origins of inequalities that their clients face, as well as providing an introduction for other social science students.

Mexico at the World's Fairs Mauricio Tenorio-Trillo, 2018-06-01 This intriguing study of Mexico's participation in world's fairs from 1889 to 1929 explores Mexico's self-presentation at these fairs as a reflection of the country's drive toward nationalization and a modernized image. Mauricio Tenorio-Trillo contrasts Mexico's presence at the 1889 Paris fair—where its display was the largest and most expensive Mexico has ever mounted—with Mexico's presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929. Rather than seeing the revolution as a sharp break, Tenorio-Trillo points to important continuities between the pre- and post-revolution periods. He also discusses how, internationally, the character of world's fairs was radically transformed during this time, from the Eiffel Tower prototype, encapsulating a wondrous symbolic universe, to the Disneyland model of commodified entertainment. Drawing on

cultural, intellectual, urban, literary, social, and art histories, Tenorio-Trillo's thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930, set within the context of the origins of Western nationalism, cosmopolitanism, and modernism. The Vanishing Vision James Day, 2021-01-08 This spirited history of public television offers an insider's account of its topsy-turvy forty-year odyssey. James Day, a founder of San Francisco's KQED and a past president of New York's WNET, provides a vivid and often amusing behind-the-screens history. Day tells how a program producer, desperate to locate a family willing to live with television cameras for seven months, borrowed a dime—and a suggestion—from a blind date and telephoned the Louds of Santa Barbara. The result was the mesmerizing twelve-hour documentary *An American Family*. Day relates how Big Bird and his friends were created to spice up *Sesame Street* when test runs showed a flagging interest in the program's live-action segments. And he describes how Frieda Hennock, the first woman appointed to the FCC, overpowered the resistance of her male colleagues to lay the foundation for public

television. Day identifies the particular forces that have shaped public television and produced a Byzantine bureaucracy kept on a leash by an untrusting Congress, with a fragmented leadership that lacks a clearly defined mission in today's multimedia environment. Day calls for a bold rethinking of public television's mission, advocating a system that is adequately funded, independent of government, and capable of countering commercial television's lowest-common-denominator approach with a full range of substantive programs, comedy as well as culture, entertainment as well as information. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1995.
