First Step Nonfiction-Community Buildings Teaching Guide LernerClassroom Editors,2009-08-01 FIRST STEP NONFICTION-COMMUNITY BUILDINGS TEACHING GUIDE

All Around the Neighborhood, Grades PK - K Debra Olson Pressnall,2010-05-18 There’s a huge world for students in grades PK-K to explore, and All Around the Neighborhood provides the perfect place for them to start. Teachers use the reproducible building fronts and vehicles to create a familiar neighborhood setting, then let students' imaginations do the rest. Students add buildings from their own homes to fire stations to construction sites. This 176-page book teaches social awareness in conjunction with a variety of concepts and vocabulary words that draw upon students' interests. It includes 10 mini-books, 7 file-folder games, more than 60 reproducible patterns, more than 80 literature links, and a wealth of cross-curricular activities that reinforce each new concept. The book supports NCSS and NAEYC standards.

Experiments with Body Agent Architecture Alessandro Ayuso,2022-03-31 Experiments with Body Agent Architecture puts forward the notion of body agents: non-ideal, animate and highly specific figures integrated with design to enact particular notions of embodied subjectivity in architecture. Body agents present opportunities for architects to increase imaginative and empathic qualities in their designs, particularly amidst a posthuman condition. Beginning with narrative writing from the viewpoint of a body agent, an estranged ‘quattrocento spiritello’ who finds himself uncomfortably inhabiting a digital milieu (or, as the spiritello calls it, ‘Il Regno Digitale’), the book combines speculative historical fiction and original design experiments. It focuses on the process of creating the multi-media design experiments, moving from the design of the body itself as an original prosthetic to architectural proposals emanating from the body. A fragmented history of the figure in architecture is charted and woven into the designs, with chapters examining Michelangelo’s enigmatic figures in his drawings for the New Sacristy in the early sixteenth century, Gian Lorenzo Bernini’s physically ephemeral ‘putti’ adorning chapels and churches in the seventeenth century, and Austrian artist-architect Walter Pichler’s personal and prescient figures of the twentieth century.
