*Introduction to UAV Systems* Paul G. Fahlstrom,Thomas J. Gleason,2012-07-11 Unmanned aerial vehicles (UAVs) have been widely adopted in the military world over the last decade and the success of these military applications is increasingly driving efforts to establish unmanned aircraft in non-military roles. *Introduction to UAV Systems*, 4th edition provides a comprehensive introduction to all of the elements of a complete Unmanned Aircraft System (UAS). It addresses the air vehicle, mission planning and control, several types of mission payloads, data links and how they interact with mission performance, and launch and recovery concepts. This book provides enough information to encourage a student to learn more; to provide a specialist with a basic appreciation of the technical issues that drive other parts of the system and interact with their specialty; or to help a program manager understand system-level tradeoffs and know what questions to ask. Key features: Comprehensive overview of all elements of a UAS and of how they interact. Introduces the underlying concepts of key subsystems. Emphasizes system-integration issues and how they relate to subsystem design choices. Practical discussion of issues informed by lessons learned in UAV programs. *Introduction to UAV Systems*, 4th edition is written both for newcomers to the subject and for experienced members of the UAV community who desire a comprehensive overview at the system level. As well as being a primary text for an introductory course on UAS or a supplementary text in a course that goes into more depth in one of the individual technologies involved in a UAS, this book is a useful overview for practicing engineers, researchers, managers, and consultants interested in UAV systems.

*The Cars of American Motors* Marc Cranswick,2011-12-23 Though American Motors never approached the size of Detroit's Big Three, it produced a long series of successful cars that were distinctive, often innovative and in many cases influential. This history examines AMC's cars from the company's formation in 1954 through its absorption by Chrysler in 1987. The Gremlin, Pacer and Eagle vehicles are examined in detail, as are the AMC custom cars of George Barris and Carl Green. The text details AMC's 1980s involvement with the French firm Renault and the design legacy of that joint venture, which includes the Hummer. The evolution of Jeep is covered from the 1960s through the 2000s. Features include some 225 photographs; a listing of AMC / Rambler clubs, organizations and business entities, with contact details; tables of detailed specifications and performance data; data on technical devices, trim packages and all model variations; a comprehensive account of AMC /

**Innovation, Evolution and Economic Change** Blandine Laperche,James K. Galbraith,Dimitri Uzunidis,2006-01-01 John Kenneth Galbraith was an eminent economist and proponent of change. The contributors to the book further his analysis on the evolution of capitalism; taking into account changes to the general economic climate since the publication of J.K. Galbraith's main thesis, they outline new ideas which form fertile ground for new research. The book begins with a penetrating analysis of the main features of today's capitalism and in particular the conflict between shareholders and managers. It moves on to focus on the consequences of globalization in the decision-making processes of large corporations and represents an important step in the development of a theory of fraud and corruption within corporations. In the final part, the authors address and explore the consequences of the domination of influential groups over major social and political decisions, on the blurred boundaries between the public and the private sectors and its consequences in the fields of technological regulation and the evolution of public services. In so doing, the authors question the meaning and power of democracy in today's society. *Innovation, Evolution and Economic Change* will appeal to a wide readership and audience of economists, policy makers and political organization.

M[P]atriarchive A J Moore,2021-08-23 Inspired by 'official' family documents and by Jacques Derrida's essay 'Archive Fever: A Freudian Impression', M(P)atriarchive draws on archival materials relating to my grandmotherUniversity of Sheffield, great grandmother and great great grandmother. It aims to highlight how - far from documenting their existence - the women are in reality 'undocumented' by male-dominated bureaucratic language and archival convention. Using prose blocks, formal language and incorporating 'found' materials, it seeks to subvert these processes to 'rewrite' the archive of their lives.

American Boy S C Megale,2020-11-30 American Boy is the poignant story of a brother's fall through the eyes of a little sister. Matthew went from clashing lightsabers with Shea and scaring away bullies, to driving off into night and stumbling up to federal court podiums. Megale chronicles Matt's journey through opioid addiction with brutal truth and unimaginable love, revealing raw and shocking insight into this national and deadly epidemic. This firsthand biography seeks to help others by sharing what worked for Matthew and what didn't, and looking back on mistakes made in the heat of survival. Megale challenges families to talk without shame about their loved one's addiction, and what communities can do to change the course of this historic crisis in front of them. Written with haunting intimacy and surprising hope, Megale's account is a must-read for anyone touched by substance abuse or grief. It is the portrait of Matt-his spirit and his warmth-but the story of her, too, and her fight to return to him with both urgency and ideas of forever
