God Bless John Wayne Kinky Friedman,2005-07-01 Once again ensconced in his quaintly appointed Lower Manhattan loft, Kinky Friedman - Ace Private Eye - takes on the deceptively tame assignment of helping his pal Ratso find his true birth mother. But a job that begins with some ungenteel poking around in a dusty New York warehouse quickly leads to even untidier mayhem involving a couple of stiffness and an apparent plot to kill Ratso before he can uncover his ancestry (and possible inheritance). The trail shifts to Miami Beach, then back to Manhattan, and finally ends in the posh New York suburb of Chappaqua, where wrongs get righted, rights get read and readers get the full benefit of Kinky's irreverent wit and hilarious wisdom. It is the Kinkster at his considerable best.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Rodent Mutation Bron Fane,1962

Die Glocke "The Bell" S.E. Bolden,2020-11-09 In the last year of World War II, most of Germany realized defeat was imminent. Facing the overwhelming power and equipment of the Allies, Hitler authorized the construction of Wunderwaffe (wonder weapons). This story offers an explanation of the focus on the "Die Glocke" project. There were other Wunderwaffe projects but "The Bell" was the one most-cloaked in secrecy. If its powers could be harnessed by the Nazis, it could be the bargaining chip to bring the Allies to the negotiating table and improve the surrender terms of the Third Reich. Its powers were believed to be so staggering that at the end of World War II, all of the scientists and laborers working on "Die Glocke" were murdered. The bell, General Hans Kammler (SS general in

charge of the Die Glocke project), two Nazi U-boats, and many Nazi war criminals ended up missing. This work of fiction attempts to explain this mystery.

Strangers in the Universe Clifford D. Simak, 1956

Alien: Prototype Tim Waggoner, 2019-10-29 When an industrial spy steals a Xenomorph egg, former Colonial Marine Zula Hendricks must prevent an alien from killing everyone on an isolated colony planet. Venture, a direct rival to the Weyland-Yutani corporation, will accept any risk to crush the competition. Thus, when a corporate spy acquires a bizarre, leathery egg from a hijacked vessel, she takes it directly to the Venture testing facility on Jericho 3. Though unaware of the danger it poses, the scientists there recognize their prize's immeasurable value. Early tests reveal little, however, and they come to an inevitable conclusion. They need a human test subject... ENTER ZULA HENDRICKS A member of the Jericho 3 security staff, Colonial Marines veteran Zula Hendricks has been tasked with training personnel to deal with anything the treacherous planet can throw their way. Yet nothing can prepare them for the horror that appears--a creature more hideous than any Zula has encountered before. Unless stopped, it will kill every human being on the planet.

Mexican Cookbook Erna Fergusson, 1969-11-01 When it was first published in 1934, Erna Fergusson's Mexican Cookbook made authentic Mexican recipes accessible to cooks nationwide--including celebrated favorites such as enchiladas, chile rellenos, and carne adovada, as well as the simple, rustic foods traditionally prepared and served in New Mexican homes. Inspired by the delight and enthusiasm with which visitors to the Southwest partook of the region's cuisine, this popular cookbook remains an enduring tribute to the ambience and spirit of territorial New Mexico.

Majic Eyes Only Ryan S. Wood, 2005 MAJIC EYES ONLY is the most authoritative and comprehensive chronicle ever published on the subject of worldwide UFO crashes and subsequent

military retrievals from 1897 to the present. The author guides the reader through 74 UFO crash incidents supported by compelling evidence in the form of official documents, eyewitnesses and in some cases physical evidence. Since 1984, multiple sources have leaked, revealed or discovered some 3,500 pages of UFO documents, hundreds classified Top Secret and linked to Majestic-12. These MJ-12 documents, coupled with the Leonard Stringfield data and strong investigations by other case experts, provide a powerful core of UFO crash incidents.

The Long Night of Centauri Prime Peter David, 1999 The beginning of an exciting new adventure that continues the Babylon 5 legacy . . . Bombed to the brink of oblivion, the planet Centauri Prime is starting the slow and painful process of rebuilding, under the watchful eye of Emperor Londo Mollari. But Londo is in turn being watched--and manipulated--by the conquest-hungry Drakh. The malevolent

beings are reshaping the Centauri Republic into a secret seat of power from which to strike out at their enemies--especially the Interstellar Alliance. All but helpless to resist, Londo watches as his beloved Homeworld is transformed into a ruthless police state. And the Drakh have willing allies, including one of Londo's own countrymen--Durla, a powerful official with his own sinister agenda. As the abuses of the repressive new Republic escalate, the double-edged Drakh master plan begins to unfold. Their goal is to smash the Interstellar Alliance by assassinating its president, John Sheridan, and to obliterate Earth, using a fabled, monstrous Shadow weapon known as a Planet Killer . . .

Castle of the Eagles Mark Felton,2017-07-18 Vincigliata Castle, a menacing medieval fortress set in the beautiful Tuscan hills, has become a very special prisoner of war camp on Benito Mussolini's personal order. Within are some of the most senior officers of the Allied army, guarded by almost two hundred Italian soldiers and a vicious fascist commando who answers directly to "Il Duce" Mussolini himself. Their unbelievable escape, told by Mark Felton in *Castle of the Eagles*, is a little-known marvel of World War II. By March 1943, the plan is ready: this extraordinary assemblage of middle-aged POWs has crafted civilian clothes, forged identity papers, gathered rations, and even constructed dummies to place in their beds, all in preparation for the moment they step into the tunnel they have been digging for six months. How they got to this point and what happens after is a story that reads like fiction, supported by an eccentric cast of characters, but is nonetheless true to its core.

Corn, Brian Horrigan, 1996-05-15 From Jules Verne to the Jetsons, from a 500-passenger flying wing to an anti-aircraft flying buzz-saw, the vision of the future as seen through the eyes of the past demonstrates the play of the American imagination on the canvas of the future.
