Publishing as Artistic Practice Hannes Bajohr,2016 What does it mean to publish today? In the face of a changing media landscape, institutional upheavals, and discursive shifts in the legal, artistic, and political fields, concepts of ownership, authorship, work, accessibility, and publicity are being renegotiated. The field of publishing not only stands at the intersection of these developments but is also introducing new ruptures. How the traditional publishing framework has been cast adrift, and which opportunities are surfacing in its stead, is discussed here by artists, publishers, and scholars through the examination of recent publishing concepts emerging from the experimental literature and art scene, where publishing is often part of an encompassing artistic practice. The number and diversity of projects among the artists, writers, and publishers concerned with these matters show that it is time to move the question of publishing from the margin to the center of aesthetic and academic discourse. Contributors Hannes Bajohr, Paul Benzon, K. Antranik Cassem, Bernhard Cella, Annette Gilbert, Hanna Kuusela, Antoine Lefebvre, Matt Longabucco, Alessandro Ludovico, Lucas W. Travels in Siberia Ian Frazier,2010-10-12 A Dazzling Russian travelogue from the bestselling author of Great Plains In his astonishing new work, Ian Frazier, one of our greatest and most entertaining storytellers, trains his perceptive, generous eye on Siberia, the storied expanse of Asiatic Russia whose grim renown is but one explanation among hundreds for the region's fascinating, enduring appeal. In *Travels in Siberia*, Frazier reveals Siberia's role in history—its science, economics, and politics—with great passion and enthusiasm, ensuring that we'll never think about it in the same way again. With great empathy and epic sweep, Frazier tells the stories of Siberia's most famous exiles, from the well-known—Dostoyevsky, Lenin (twice), Stalin (numerous times)—to the lesser known (like Natalie Lopukhin, banished by the empress for copying her dresses) to those who experienced unimaginable suffering in Siberian camps under the Soviet regime, forever immortalized by Aleksandr Solzhenitsyn in *The Gulag Archipelago*. *Travels in Siberia* is also a unique chronicle of Russia since the end of the Soviet Union, a personal account of adventures among Russian friends and acquaintances, and, above all, a unique, captivating, totally Frazierian take on what he calls the amazingness of Russia—a country that, for all its tragic history, somehow still manages to be funny. *Travels in Siberia* will undoubtedly take its place as one of the twenty-first century's indispensable contributions to the travel-writing genre.

March of the Lemmings Stewart Lee, 2019-09-03 As a Metropolitan Elitist Snowflake, Stewart Lee was disappointed by the Brexit referendum result of 2016. But he knew how to weaponise his inconvenience. He would treat all his subsequent writing, until we left the EU, as interrelated episodes of a complete work. The cast of characters include Lemming-obsessed Michael Gove, violent tanning-salon entrepreneur Tommy Robinson and Boris Piccaninny Watermelon Bumboys Letterbox Cake Disaster Weightloss Haircut Bullshit Johnson. A dramatic chorus is made up of online commenters and Kremlin bots. And Lee himself would play the defeated, unreliable narrator-hero, whose resolve and tolerance would gradually unravel as the horror show dragged on. Until the 29 March, 2019, when it would all definitely be over Drawing on three years of newspaper columns, a complete transcript of the Content Provider stand-up show, and Lee's caustic footnote commentary, *March of the Lemmings* is the scathing, riotous record the Brexit era deserves.

Subcultural Karate Turtles Adam Green, 2022-01-04 A satirical graphic novel by artist, musician, creative polymath and Moldy Peaches founder Adam Green (born 1981), *Subcultural Karate Turtles* is a parody of the popular Teenage Mutant Ninja Turtles cartoon. Green reimagines the turtles as subcultural artists who must battle the mainstream to determine the future of art. Set in an intergalactic Kabuki theater, the book is a play inside of a comic book. Against the backdrop of childhood iconography, the psychedelic dialogue functions as a critique of cultural theory. In 2019, Green published *War and Paradise*, a graphic novel about the clash of humans with machines, the meeting of spirituality with singularity and the bidirectional relationship between life and the afterlife. *Subcultural Karate Turtles* continues Green's brilliant elaborations of the psychedelic and the satirical, the political and the spiritual.

The Twittering Machine Richard Seymour, 2020-09-22 A brilliant probe into the political and psychological effects of our changing relationship with social media Former social media executives tell us that the system is an addiction-machine. We are users, waiting for our next hit as we like, comment and share. We write to the machine as individuals, but it responds by aggregating our fantasies, desires and frailties into data, and returning them to us as a commodity experience. *The Twittering Machine* is an unflinching view into the calamities of digital life: the circus of online trolling, flourishing alt-right subcultures, pervasive corporate surveillance, and the virtual data mines of Facebook and Google where we spend considerable portions of our free time. In this polemical tour de force, Richard Seymour shows how the digital world is changing the ways we speak, write, and think. Through journalism, psychoanalytic reflection and insights from users, developers, security experts and others, Seymour probes the human side of the machine, asking what we're getting out of it, and what we're getting into. Social media held out the promise that we could make our own history—to what extent did we choose the nightmare that it has become?

The Atlas of Economic Complexity Ricardo Hausmann, Cesar A. Hidalgo, Sebastian Bustos, Michele Coscia, Alexander Simoes, 2014-01-17 Maps capture data expressing the economic complexity of countries from Albania to Zimbabwe, offering current economic measures and as well as a guide to achieving prosperity Why do some countries grow and others do not? The authors of *The Atlas of Economic Complexity* offer readers an explanation based on Economic Complexity, a measure of a society's productive knowledge. Prosperous societies are those that have the knowledge to make a larger variety of more complex products. *The Atlas of Economic Complexity* attempts to measure the amount of productive knowledge countries hold and how they can move to accumulate more of it by making more complex products. Through the graphical representation of the Product Space, the authors are able to

identify each country's adjacent possible, or potential new products, making it easier to find paths to economic diversification and growth. In addition, they argue that a country's economic complexity and its position in the product space are better predictors of economic growth than many other well-known development indicators, including measures of competitiveness, governance, finance, and schooling. Using innovative visualizations, the book locates each country in the product space, provides complexity and growth potential rankings for 128 countries, and offers individual country pages with detailed information about a country's current capabilities and its diversification options. The maps and visualizations included in the Atlas can be used to find more viable paths to greater productive knowledge and prosperity.

The Great Greene Heist Varian Johnson, 2014-05-27 Saving the school -- one con at a time. A political heist page-turner set in middle school? Is that even possible? Varian Johnson shows us how it's done. - Gordon Korman, author of *SWINDLE* Do yourself a favor and start reading immediately. - Rebecca Stead, author of *WHEN YOU REACH ME* Jackson Greene swears he's given up scheming. Then school bully Keith Sinclair announces he's running for Student Council president, against Jackson's former friend Gaby de la Cruz. Gaby wants Jackson to stay out of it -- but he knows Keith has connections to the principal, which could win him the presidency no matter the vote count. So Jackson assembles a crack team: Hashemi Larijani, tech genius. Victor Cho, bankroll. Megan Feldman, science goddess. Charlie de la Cruz, reporter. Together they devise a plan that will take down Keith, win Gaby's respect, and make sure the election is done right. If they can pull it off, it will be remembered as the school's greatest con ever -- one worthy of the name *THE GREAT GREENE HEIST*.

Our Dumb World The Onion, Inc., 2008-10-27 *OUR DUMB WORLD* is the world's most comprehensive fake atlas: a repository of all known information about the planet Earth (except where covered by clouds). In late 2007 the hardcover edition became one of the hottest books of the holiday season, entertaining and offending hundreds of thousands of readers around the globe. This new, easy-to-carry paperback edition is perfect for the intrepid traveler to any of the world's exotic locales--from Afghanistan, Allah's Cat Box, to Ukraine, the Bridebasket of Europe, to the USA's own Nevada, Where Everyone's a Loser. Packed with beautiful full-color maps and framed with inaccurate essays about all the world's peoples and places, *OUR DUMB WORLD* is a gut-busting send-up in which no nation escapes unscathed. Bottom line: laughed my head off. --Deirdre Donahue, *USA Today*

Seeing Like a State James C. Scott, 2020-03-17 "One of the most profound and illuminating studies of this century to have been published in recent decades."—John Gray, *New York Times Book Review* Hailed as "a magisterial critique of top-down social planning" by the *New York Times*, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. "Beautifully written, this book calls into sharp relief the nature of the world we now inhabit."—*New Yorker* "A tour de force."—Charles Tilly, *Columbia University*

Ordinary Citizens David King, 2003 The book consists of 166 photographs taken from the interrogation files of the secret police in Moscow of those arrested on falsified charges, found guilty and shot during Stalin's reign of terror from the late 1920s until his death

in 1953 - engineers, artists, factory workers, teachers, housewives, heroes of the Soviet Union, even secret policemen themselves. Each photograph is accompanied by the basic details of that person's life and the charges brought against them. - abstract from Francis Boutle Publishers website.

All Joy and No Fun Jennifer Senior, 2014-01-28 Thousands of books have examined the effects of parents on their children. In *All Joy and No Fun*, award-winning journalist Jennifer Senior now asks: what are the effects of children on their parents? In *All Joy and No Fun*, award-winning journalist Jennifer Senior tries to tackle this question, isolating and analyzing the many ways in which children reshape their parents' lives, whether it's their marriages, their jobs, their habits, their hobbies, their friendships, or their internal senses of self. She argues that changes in the last half century have radically altered the roles of today's mothers and fathers, making their mandates at once more complex and far less clear. Recruiting from a wide variety of sources—in history, sociology, economics, psychology, philosophy, and anthropology—she dissects both the timeless strains of parenting and the ones that are brand new, and then brings her research to life in the homes of ordinary parents around the country. The result is an unforgettable series of family portraits, starting with parents of young children and progressing to parents of teens. Through lively and accessible storytelling, Senior follows these mothers and fathers as they wrestle with some of parenthood's deepest vexations—and luxuriate in some of its finest rewards. Meticulously researched yet imbued with emotional intelligence, *All Joy and No Fun* makes us reconsider some of our culture's most basic beliefs about parenthood, all while illuminating the profound ways children deepen and add purpose to our lives. By focusing on parenthood, rather than parenting, the book is original and essential reading for mothers and fathers of today—and tomorrow.

The Institute Stephen King, 2021-06-29 In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis' parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there's no window. And outside his door are other doors, behind which are other kids with special talents--telekinesis and telepathy--who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and 10-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, like the roach motel, Kalisha says. You check in, but you don't check out. In this most sinister of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from The Institute.
