If Anything Happens I Love You Will McCormack,Michael Govier,2022-09-27 Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, If Anything Happens I Love You is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from "above" as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose's soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. If Anything Happens I Love You may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

András Szántó. The Future of the Museum András Szántó,2020-11-18 As museums worldwide shuttered in 2020 because of the coronavirus, New York-based cultural strategist András Szántó conducted a series of interviews with an international group of museum leaders. In a moment when economic, political, and cultural shifts are signaling the start of a new era, the directors speak candidly about the historical limitations and untapped potential of art museums. Each of the twenty-eight conversations in this book explores a particular topic of relevance to art institutions today and tomorrow. What emerges from the series of in-depth conversations is a composite portrait of a generation of museum leaders working to make institutions more open, democratic, inclusive, experimental and experiential, technologically savvy, culturally polyphonic, attuned to the needs of their visitors and communities, and concerned with addressing the defining issues of the societies around them. The dialogues offer glimpses of how museums around the globe are undergoing an accelerated phase of reappraisal and reinvention. Conversation Partners: Marion Ackermann, Cecilia Alemani, Anton Belov, Meriem Berrada, Daniel Birnbaum, Thomas P. Campbell, Tania Coen-Uzzielli, Rhana Devenport, María Mercedes González, Max Hollein, Sandra Jackson-Dumont, Mami Kataoka, Brian Kennedy, Koyo Kouoh, Sonia Lawson, Adam Levine, Victoria Noorthoorn, Hans Ulrich Obrist, Anne Pasternak, Adriano Pedrosa, Suhanya Raffel, Axel Rüger, Katrina Sedgwick, Franklin Sirmans, Eugene Tan, Philip Tinari, Marc-Olivier Wahler, Marie-Cécile Zinsou

ABC Etymological Dictionary of Old Chinese Axel Schuessler,2006-12-31 This is the first genuine etymological dictionary of Old Chinese written in any language. As such, it constitutes a milestone in research on the evolution of the Sinitic language group. Whereas previous studies have emphasized the structure of the Chinese characters, this pathbreaking dictionary places primary emphasis on the sounds and meanings of Sinitic roots. Based on more than three decades of intensive investigation in primary and secondary sources, this completely new dictionary places Old Chinese squarely within the Sino-Tibetan language family (including close consideration of numerous Tibeto-Burman languages), while paying due regard to other language families such as Austroasiatic, Miao-Yao (Hmong-Mien), and Kam-Tai. Designed for use by nonspecialists and specialists alike, the dictionary is highly accessible, being arranged in alphabetical order and possessed of numerous innovative lexicographical features. Each entry offers one or more possible etymologies as well as reconstructed pronunciations and other relevant data. Words that are morphologically related are grouped together into word families that attempt to make explicit the derivational or other etymological processes that relate them. The dictionary is preceded by a substantive and significant introduction that outlines the author's views on the linguistic position of Chinese within Asia and details the phonological and morphological properties, to the degree they are known, of the earliest stages of the Chinese language and its ancestor. This introduction, because it both summarizes and synthesizes earlier work and makes several original contributions, functions as a useful reference work all on its own.

Shamanhood Juha Pentikäinen,Hanna Saressalo,2001 Presumably people who were involved in it discuss the philosophy behind the exhibition Shamans--The Secret World of Siberia's Peoples, on display at the Vapriiki Museum Centre in Tampere, Finland, between May 1998 and January 1999. It was the most extensive display so far of the shamanic collections of Kunstkamera, Museum of Anthropology and Ethnography, founded in the 1720s by Peter the Great. In addition to exploring aspects of Siberian shamanhood, the 19 essays also show links to similar traditions elsewhere in the world. There are a few monochrome illustrations. No index is provided. Curating Under Pressure Janet Marstine,Svetlana Mintcheva,2020-07-14 Curating Under Pressure breaks the silence surrounding curatorial self-censorship and shows that it is both endemic to the practice and ubiquitous. Contributors map the diverse forms such self-censorship takes and offer creative strategies for negotiating curatorial integrity. This is the first book to look at pressures to self-censor and the curatorial responses to these pressures from a wide range of international perspectives. The book offers examples of the many creative strategies that curators deploy to negotiate pressures to self-censor and gives evidence of curators’ political acumen, ethical sagacity and resilience over the long term. It also challenges the assumption that self-censorship is something to be avoided at all costs and suggests that a decision to self-censor may sometimes be politically and ethically imperative. Curating Under Pressure serves as a corrective to the assumption that censorship pressures render practitioners impotent. It demonstrates that curatorial practice under pressure offers inspiring models of agency, ingenuity and empowerment. Curating Under Pressure is a highly original and intellectually ambitious volume and as such will be of great interest to students and academics in the areas of museum studies, curatorial and gallery studies, art history, studio art and arts administration. The book will also be an essential tool for museum practitioners.

Closed on Mondays Dinah Casson,2021-02 The transformation of museums from the 'dreary, dusty places' they used to be to places that people want to be in, alongside objects they want to be near and ideas they want to understand and then share has been extraordinary. During the last twenty-five years, millions of pounds have been poured into our national museums in the UK: as a result, they are certainly brighter and fuller. It is against this background that Dinah Casson has opened the service entrance of the museum a little.0This book is not an explanation of what an exhibition designer does or how to do it. Instead, by means of a series of essays punctuated with comments from collaborators and visitors, it explores exhibition design and alerts the visitor's eye to this invisible craft. It explores questions such as: why are most paintings in carved, gilded frames, regardless of artist, period or subject matter? Why do so few contemporary art galleries have windows? If a label text irritates us, what should it say instead? Why do facsimiles make some people so uncomfortable? Why do we keep all this stuff? What is it that visitors want from our museums? In doing so, it offers enjoyable insights, which will add depth to our future visits through the front door (which is usually closed on Mondays) and will make us question what is shown, why it's shown where (and how) it is, what's written about it and how the interaction between museums and their designers has encouraged each to change.

The Art Museum in Modern Times Charles Saumarez Smith,2021-04-13 A compelling examination of the art museum from a renowned director, this sweeping book explores how architecture, vision, and funding have transformed art museums around the world over the past eighty years. How have art museums changed in the past century? Where are they headed in the future? Charles Saumarez Smith is uniquely qualified to answer these questions, having been at the helm of three major institutions over the course of his distinguished career. For *The Art Museum in Modern Times*, Saumarez Smith has undertaken an odyssey, visiting art museums across the globe and examining how the experience of art is shaped by the buildings that house it. His story starts with the Museum of Modern Art in New York, one of the first museums to focus squarely on the art of the present rather than the past. When it opened in 1939, MoMA’s boldly modernist building represented a stark riposte to the neoclassicism of most earlier art museums. From there, Saumarez Smith investigates dozens of other museums, including the Tate Modern in London, the Getty Center in Los Angeles, the West Bund Museum in Shanghai, and the Centre Pompidou in Paris. He explores our shifting reasons for visiting museums, changes to the way exhibits are organized and displayed, and the spectacular new architectural landmarks that have become destinations in their own right. Global in scope yet full of personal insight, this fully illustrated celebration of the modern art museum will appeal to art lovers, museum professionals, and museum goers alike.
