North American T-6 Texan Pere Redón,2015 At the beginning of the 1930s, North American Aviation designed one of the most popular aircraft of all time, the T-6 Texan. Over 24,404 planes in 260 versions and variants were produced. This WWII vintage, propeller-driven aircraft is covered in its various forms and uses, including combat and training. Detailed specifications, unit insignia, and historical and present-day photographs are provided.

East Texas in World War II Bill O'Neal,2010 Texas made a remarkable contribution to the American war effort during World War II . Almost 830,000 Texans, including 12,000 women, donned uniforms, and more than 23,000 Texas fighting men died for their country. America's most decorated soldier, Lt. Audie Murphy, and most decorated sailor, submarine commander Sam Dealey, both were Texans. Texas A&M, an all-male military college, placed 20,000 men in the armed forces, of which 14,000 were officers--more than any other school in the nation, including the U.S. Military Academy at West Point. Gen. Dwight D. Eisenhower, the supreme commander of Allied Forces in Europe, was born in Denison in northeast Texas. Adm. Chester Nimitz, commander in chief of the Pacific Fleet, was born and raised in Texas. Almost 1.5 million soldiers, sailors, and fliers trained at scores of Texas bases. Texas oil fueled the Allied war effort, while Texas shipyards and defense plants provided a flood of war machines and munitions during the war effort.

Lost Austin John H. Slate,2012 Known to some as Capitol City, River City, and Groover's Paradise, Austin is a diverse mix of university professors, students, politicians, musicians, state employees, artists, and

both blue-collar and white-collar workers. The city is also home to the main campus of the University of Texas and several other universities. As Austin has grown to become more cosmopolitan, remnants of its small-town heritage have faded away. Austin's uniqueness--both past and present --is reflected in its food, architecture, historic places, music, and businesses. Many of these beloved institutions have moved on into history. While some are far removed in the mists of time, others are more recent and generate fond memories of good times and vivid experiences. Images of America: Lost Austin explores, through the collections of the Austin History Center and others, where Austinites once shopped, ate, drank, and played.

**The Incredible T-6 Pilot Maker** Walt Ohlrich, Jeffrey L. Ethell, 1982-11-01 The photos in this edition are black and white. Harvard, Texan, J-Bird, T-6, whatever name you gave the aircraft, it was the right plane, in the right place, at the right time. One of the most important aircraft to emerge from the 1930s, it proved to be an excellent training machine for fledgling pilots throughout the world. So adaptable was the design that it was used to teach carrier landings, aerial fixed gunnery, glide bombing, flexible hand-held gunnery, aerial photography, instrument flying & advanced military flying. It was safe, reliable, challenging and a perfect machine for transition from elementary trainers to the front-line P-40s, P-51s & similar hot ships of the period. For more than twenty years it taught American military pilots to fly & it still serves today with the air forces of several nations. Pilot Maker by Jeff Ethell & Walt Ohlrich documents for the first time, the fascinating story of this important aircraft. 144 pages, paperback, 7x10, 220 photos and includes all models produced.

Foley's Lasker M. Meyer, 2011 The story of Foley's began in Ireland in the late 1800s when William L.

Foley set sail for America. Ambition led him to Houston, where he opened a store and hired his two nephews, Pat C. and James. The nephews quickly felt an entrepreneurial urge to run their own store, so their uncle gave them \$2,000 to get started. On February 12, 1900, the Foley Brothers Dry Goods Company at 507 Main Street opened for business. Approximately 44,000 residents visited the store that day, and sales of \$128.29 were tabulated. Soon after Spindletop was discovered, Robert I. Cohen of Galveston bought the Foley Brothers company for his son George S. Cohen to operate. Cohen, along with the aid of six of the eight Meyer brothers from Galveston, built it into the largest store in Texas. In 1945, Fred Lazarus, from the department store clan in Ohio, came to Houston to visit his son at Ellington Field. He saw Houston's potential, and in 1946, Foley Brothers became Foley's, owned by Federated Department Stores.

Building Modern Houston Anna Mod,2011 Founded in 1836, Houston is now the country's fourth-largest city. In the early 20th century, Houston's economy shifted from agriculture to oil, fueling the city's explosive growth in the following decades. Houston grabbed the reins and saw a building boom in commercial, residential, and civic architecture redefine the city and skyline. Modernism was a new and fresh architectural expression and the perfect complement to the city's can-do entrepreneurial spirit. **The Texas Rangers** Chuck Parsons,2011-05-02 The Texas Rangers. The words evoke exciting images of daring, courage, high adventure. The Rangers began as a handful of men protecting their homes from savage raiding parties; now in their third century of existence, they are a highly sophisticated crime-fighting organization. Yet at times even today the Texas Ranger mounts his horse to track fugitives through dense chaparral, depending on his wits more than technology. The iconic image of the Texas Ranger is of a man who is tall, unflinching, and dedicated to doing a difficult job no matter what the odds.

The Rangers of the 21st century are different sizes, colors, and genders, but remain as vital and real today as when they were created in the horseback days of 1823, when what is today Texas was part of Mexico, a wild and untamed land.

**What Did Jesus Look Like?** Joan E. Taylor, 2018-02-08 Jesus Christ is arguably the most famous man who ever lived. His image adorns countless churches, icons, and paintings. He is the subject of millions of statues, sculptures, devotional objects and works of art. Everyone can conjure an image of Jesus: usually as a handsome, white man with flowing locks and pristine linen robes. But what did Jesus really look like? Is our popular image of Jesus overly westernized and untrue to historical reality? This question continues to fascinate. Leading Christian Origins scholar Joan E. Taylor surveys the historical evidence, and the prevalent image of Jesus in art and culture, to suggest an entirely different vision of this most famous of men. He may even have had short hair.

**Iraqi Air Force Reborn** Arnaud Delalande, 2016 Iraqi Air Power Reborn provides the most authoritative account of the Iraqi air arms in the years following Operation Iraqi Freedom. In the space of over a decade since Harpia Publishing presented its groundbreaking and ever-popular Iraqi Fighters, the Iraqi Air Force has undergone an unprecedented transformation. Having been almost entirely decimated by coalition air strikes in 2003, and during the insurgency that followed, Baghdad has set about rebuilding its air power from scratch. This book summarizes the history of the Iraqi Air Force and its various incarnations until 2003 before detailing the efforts to establish a new-look Air Force, which began with training formations, before adding transport and reconnaissance squadrons, and finally attack and fighter squadrons - the latter now equipped with the Lockheed Martin F-16 Fighting Falcon. Coverage also extends to Iraqi Army Aviation, and its various transport, special operations, armed reconnaissance and

attack squadrons. Iraqi Army Aviation in particular has been blooded in the fighting that has plagued Iraq since the coalition invasion, and, using pilot testimonies and other sources, author Arnaud Delalande provides exhaustive coverage of successive campaigns waged by Iraqi air power against local and foreign insurgents, including the so-called Islamic State. As well as an overview of Iraq's air arsenal, therefore, this work also serves as a primer of the ongoing conflict within the country. A map of all current Iraqi air bases complements the comprehensive photographic coverage and a detailed order of battle is included, together with squadron patches. A full list is provided of aircraft serial numbers and attrition to all causes since 2004. *Iraqi Air Power Reborn* is one of the first books in an all-new format from Harpia Publishing. Those readers familiar with Harpia's previous titles will recognize the format, layout, and high-quality production standards. Compared to earlier Harpia titles, however, the new series are altogether more compact, running to a total of 80 pages, and enabling coverage of 'smaller' themes. Of course, these books also retain the now-familiar in-depth coverage, painstaking research and lavish illustrations of their 'bigger brothers'.

**Big Red** Red McCombs, 2010-11-15 Red McCombs has, in his words, dabbled in automobiles, cattle, oil and gas, broadcasting, insurance, racehorses, motion pictures, real estate, politics, minor league baseball, and pro football. The successful businessman is also the cofounder of Clear Channel Communications, the former owner of two professional basketball teams, and a noted philanthropist. Published by the Dolph Briscoe Center for American History, *Big Red* is a candid first-person account of the life and times of this extraordinary Texan. Based on a series of oral history interviews with Dr. Don Carleton, the book begins with an account of McCombs's childhood in the West Texas town of Spur, where he first went into

business for himself at the age of ten by selling peanuts to farmworkers. McCombs started selling cars in Corpus Christi in 1950, and before long he was one of the most successful Ford dealers in the country. He moved to San Antonio in 1958 and built a business empire, always looking for his next great deal. Through all of his wheeling and dealing, however, McCombs says he's signed only one lifetime contract--with his wife, Charline. McCombs's candid views on why U.S. automakers floundered, as well as his insights on the development of the highly successful Clear Channel Communications, are among the many behind-the-scenes accounts he relates about his remarkable life.
