Narrative Strategies in Television Series G. Allrath, M. Gymnich, 2005-08-10 In the context of a systematic overview of the possibilities of applying narratological concepts to a study of TV series, ten case studies are explored in depth, demonstrating how series such as 24, Buffy, Twin Peaks, Star Trek, Blackadder, and Sex and the City make use of innovative audiovisual means of storytelling. Transgressing the traditional confines of narrative theory, the chapter authors address the question of how form, content, and function intersect in these series.

Visual Character Development in Film and Television Michael Hanly, Elisabeth Rowney, 2019-07-26 This book takes a unique look at visual character development in motion pictures and television by using famous works of art combined with modern works of film and television to demonstrate how to weave a visual tale. In a single shot or scene, what should we reveal about a character? What should we conceal? How can we show a character's progression over time? In *Visual Character Development in Film and Television*, authors Michael Hanly and Elisabeth Rowney explain how to create compelling visual characters for the screen by analyzing fine art aesthetics and combining them with modern cinematic techniques. Full-color chapters cover character-driven approaches to costume design and makeup application, production design, cinematography and lighting, plot development, editing considerations, and more. By exploring how surroundings, habits, lifestyles – even the color of a sweater – can tell us more about a character on the screen than what can be said in dialogue alone, this book will prove a valuable resource for anyone wanting to take their filmmaking to the next level.

Teaching Languages with Screen Media Carmen Herrero, Marta F. Suarez, 2023-06-29 In recent years, the expansion of screen media, including film, TV, music videos, and computer games, has inspired new tools for both educators and learners. This book illustrates how screen media can be exploited to support foreign language (L2) teaching and learning. Drawing on a range of theories and approaches from second language acquisition, audio-visual translation, multimodality, and new media and film studies, this book provides both best practices and in-depth research on this interdisciplinary field. Areas of screen media-enhanced learning and teaching are covered across 4 sections: film and broadcast media, in-depth case studies, translation and screen media, and interactive media. With a focus on pedagogical approaches to teaching and learning Spanish, French, German, and English as a Foreign Language, *Teaching Languages with Screen Media* presents innovative insights in this new interdisciplinary field.

There Are Save Two Churches Only, Volume II D. Christian Markham, 2015-11-09 A journey through disturbing yet crucial matters that must be considered prior to End Times and Christ's return. This second volume takes a different approach from the first. It is a journey, not a pick-and-choose buffet. It begins by taking the reader where the first volume left off, down the rabbit hole. The journey concludes in confronting the LDS reader with a crucible, wherewith one's faith and trust in Christ (and in Christ alone) will be put to the ultimate test. There are save two churches only: Which one does your everyday mindset, and your personal and professional choices, testify that you are a member of? What is the foundation upon which you anchor your sacred testimony? How close, how intimate, how cherished is your relationship with Jesus Christ? If you are not prepared to answer these questions with full conviction of heart, then you are not ready to contemplate the contents of this book.

Prose Fiction: An Introduction to the Semiotics of Narrative Ignasi Ribó, 2019-12-13 This concise and highly accessible textbook outlines the principles and techniques of storytelling. It is intended as a high-school and college-level introduction to the central concepts of narrative theory – concepts that will aid students in developing their competence not only in analysing and interpreting short stories and novels, but also in writing them. This textbook prioritises clarity over intricacy of theory, equipping its readers with the necessary tools to embark on further study of literature, literary theory and creative writing. Building on a ‘semiotic model of narrative,’ it is structured around the key elements of narratological theory, with chapters on plot, setting, characterisation, and narration, as well as on language and theme – elements which are underrepresented in existing textbooks on narrative theory. The chapter on language constitutes essential reading for those students unfamiliar with rhetoric, while the chapter on theme draws together significant perspectives from contemporary critical theory (including feminism and postcolonialism). This textbook is engaging and easily navigable, with key concepts highlighted and clearly explained, both in the text and in a full glossary located at the end of the book. Throughout the textbook the reader is aided by diagrams, images, quotes from prominent theorists, and instructive examples from classical and popular short stories and novels (such as Jane Austen’s *Pride and Prejudice*, Franz Kafka’s ‘*The Metamorphosis*,’ J. K. Rowling’s *Harry Potter*, or Dostoyevsky’s *The Brothers Karamazov*, amongst many others). *Prose Fiction: An Introduction to the Semiotics of Narrative* can either be incorporated as the main textbook into a wider syllabus on narrative theory and creative writing, or it can be used as a supplementary reference book for readers interested in narrative fiction. The textbook is a must-read for beginning students of narratology, especially those with no or limited prior experience in this area. It is of especial relevance to English and Humanities major students in Asia, for whom it was conceived and written.
