**The Todd Glass Situation** Todd Glass,2014-06-03 The headline standup comic and frequent talk-show guest traces his youth as a gay Jewish boy with ADD and dyslexia in 1970s Philadelphia, describing his early achievements as an opening act for comedic stars, his struggles to accept his sexual orientation and his work in podcasting.

*Everything Is Horrible and Wonderful* Stephanie Wittels Wachs,2018-02-26 The space between life and death is a moment. But it will remain alive in me for hundreds of thousands of future moments. One phone call. That's all it took to change Stephanie Wittels Wachs' life forever.. Her younger brother Harris, a star in the comedy world known for his work on shows like Parks and Recreation, had died of a heroin overdose. How do you make sense of such a tragic end to a life of so much hilarious brilliance? In beautiful, unsentimental, and surprisingly funny prose, Stephanie Wittels Wachs alternates between her brother's struggle with addiction, which she learned about three days before her wedding, and the first year after his death, in all its emotional devastation. This compelling portrait of a comedic genius and a profound exploration of the love between siblings is A Year of Magical Thinking for a new generation of readers. A heartbreaking but hopeful memoir of addiction, grief, and family, Everything is Horrible and Wonderful will make you laugh, cry, and wonder if that possum on the fence is really your brother's spirit animal.

*Edible Selby* Todd Selby,2012-10-01 DIVPhotographer Todd Selby is back, this time focusing his lens on the kitchens, gardens, homes, and restaurants of more than 40 of the most creative and dynamic figures working in the culinary world today. He takes us behind the scenes with Noma chef René Redzepi in Copenhagen; to Tokyo to have a slice with pizza maker Susumu Kakinuma; and up a hilltop to dine at an inn without an innkeeper in Valdobbiadene. Each profile is accompanied by watercolor illustrations and a handwritten questionnaire, which includes a signature recipe. Reveling in the pleasures of a taco at the beach, foraging for wild herbs, and the art of the perfectly cured olive, Selby captures the food we love to eat and the people who passionately grow, cook, pour, and serve these incredible edibles every day. Praise for Edible Selby: "Todd Selby has turned his curious eye to the kitchens of some of the world's most imaginative cooks, artisans, and foragers. Far too often, food and the people who produce it are hidden behind closed doors or lost in an industrial food system, so it's heartening to see this book champion those who have nothing to hide. With Todd's trademark good humor and disarmingly quirky style, Edible Selby is a pure celebration of the creativity and authenticity of the wonderful individuals who are bringing real food to the table." - Alice Waters, owner of Chez Panisse Restaurant "Todd Selby's foray into the world of food is every bit as intriguing as his eccentric take on the world of interiors. Long live Signor Selby!" - Simon Doonan, Barneys New York creative ambassador "Edible Selby captures the energy and excitement of today's food world. This book is pure Selby." - Thomas Keller, The French Laundry "Books On My Gifts List...Photographer Todd Selby's scrapbook reportage on passionate cooks and famous chefs around the world. Messy, magnificent, inspiring." —Food & Wine magazine "Exploring the world for food, that's what Edible Selby is all about...and hopefully, you get really hungry when you read it." —New York Daily News "Photographer Todd Selby has an uncanny eye for the beauty of the unconventional kitchen; in his second book, he features cooks, chefs, and other culinary creative types in their workspaces—complete with recipes and witty hand-drawn illustrations." —Saveur "This is a book to read on the couch and leave there. Next you'll want to go to the kitchen and get crazy and make a mess. You will let your hair down, and the meal will be infused with life." —TheKitchn.com /div

**From Jars to the Stars** Todd Neff,2016-01-01 How did a company best known for its glass jars hit a comet 83 million miles away? The answer involves technical expertise, heroic dedication, an industrial giant's push to modernize, Hitler's V-2 rocket, speakers destined for a Hall & Oates summer concert tour, and the search for life's origins. In "From

Jars to the Stars: How Ball Came to Build a Comet-Hunting Machine,” award-winning science journalist Todd Neff presents an inside look at the backgrounds and motivations of the men and women who actually create the spacecraft on which the American space program rides. A timeless story of science, engineering, politics and business strategy intertwining to bring success in the brutal business of space, “From Jars to the Stars” is a lively account of one of mankind’s great modern achievements. It is a story about people, foremost those on the Deep Impact mission, which smashed a spacecraft into the comet Tempel 1. “From Jars to the Stars” explores the improbable beginnings of Ball Aerospace & Technologies Corp., which built the comet hunter, and the evolution of the American space agency that funded it. The book begins with the story of a group of University of Colorado students who built a “sun seeker” for the noses of sounding rockets studying the home star. The pathbreaking device sparked the creation and development of both Ball Aerospace and the University of Colorado’s formidable Laboratory for Atmospheric and Space Physics. “From Jars to the Stars” describes how Ed Ball, president of the Ball Brothers Company of Muncie, Indiana, ended up owning a space business in Boulder, Colorado, through a combination of strategic intent and serendipity. Neff explores the personalities and the technologies behind Ball’s pioneering spacecraft, the Orbiting Solar Observatory launched in 1962. The Ball orbiter prepares the ground for Deep Impact, showing readers how much—and how little—changed across four decades of American space exploration. Neff goes on to show how Ball Aerospace evolved into an organization capable of building seven Hubble Space Telescope instruments as well as the comet hunter at the center of the story. The author describes the development of the American space enterprise as it went from emphasizing big-budget “gigabuck” missions to “faster, better, cheaper” spacecraft of the sort Ball specialized in. Neff pays special mind to NASA’s Jet Propulsion Laboratory, the world leader in interplanetary space exploration and Ball’s partner on Deep Impact. It was often a rocky marriage. Throughout, Neff makes clear that robotic space missions are indeed manned: the people just happen to stay on the ground.

Practice resisting distractions and building focus by doing the things you already do—like reading, sleeping, eating, and listening—with renewed attention. Reyner Banham and the Paradoxes of High Tech Todd Gannon, 2017-09-05 Reyner Banham and the Paradoxes of High Tech reassesses one of the most influential voices in twentieth-century architectural history through a detailed examination of Banham’s writing on High Tech architecture and its immediate antecedents. Taking as a guide Banham’s habit of structuring his writings around dialectical tensions, Todd Gannon sheds new light on Banham’s early engagement with the New Brutalism of Alison and Peter Smithson, his measured enthusiasm for the “clip-on” approach developed by Cedric Price and the

Archigram group, his advocacy of “well-tempered environments” fostered by integrated mechanical and electrical systems, and his late-career assessments of High Tech practitioners such as Norman Foster, Richard Rogers, and Renzo Piano. Gannon devotes significant attention to Banham’s late work, including fresh archival materials related to *Making Architecture: The Paradoxes of High Tech*, the manuscript he left unfinished at his death in 1988. For the first time, readers will have access to Banham’s previously unpublished draft introduction to that book.

The Death of Edith Todd Anne L. Walsh, 2023-04-06 When Edith Todd is struck down in a hit-and-run incident on a stormy November evening in 1999, police assume her death is an accident. But her neighbour Beth Langille knows better. As captain of the local Block Watch, Edith was straightlaced and nosy, making many enemies while she attempted to thwart local criminals. Now, Beth must start her own investigation after police write her off as just another busybody. Beth’s suspicions grow when she learns about an old locket found under Edith’s garage just before she died—a locket that belonged to a woman who went missing in the sixties. Could Edith’s death have something to do with the missing Emma Mahoney? Or was she perhaps targeted by a former-neighbour’s con-artist nephew intent on stealing his uncle’s fortune? Though her work as an infection control nurse requires sleuth-like abilities, Beth recognizes she needs help and enlists the services of a former policeman, Cameron Ross. But with his mind fixed on solving Emma Mahoney’s cold case, will Beth be able to find justice for Edith?

When Norm Macdonald, one of the greatest stand-up comics of all time, was approached to write a celebrity memoir, he flatly refused, calling the genre “one step below instruction manuals.” Norm then promptly took a two-year hiatus from stand-up comedy to live on a farm in northern Canada. When he emerged he had under his arm a manuscript, a genre-smashing book about comedy, tragedy, love, loss, war, and redemption. When asked if this was the celebrity memoir, Norm replied, “Call it anything you damn like.”

With this remarkable debut, Charles Todd breaks new ground in the historical crime novel.” —Peter Lovesey, author of *The Circle* “You're going to love Todd.” —Stephen King, *Entertainment Weekly* The first novel to feature war-damaged Scotland Yard inspector Ian Rutledge, *A Test of Wills* is the book that brought author Charles Todd into the spotlight. A native of Detroit, Webb studied photography in the 1930s under the guidance of Ansel Adams at the Detroit Camera Club, served as a navy photographer during World War II, and went on to become a successful postwar photographer. His work is in many museum collections, including the Museum of Modern Art in New York and the National Gallery of Art in Washington.
