Dingo Claire Saxby, 2020-12-01 Poetic language and glorious illustrations follow a dingo from the comfort of her pack into the darkening landscape in search of food for her family. Can you see her? There – deep in the stretching shadows – a dingo. Her pointed ears twitch. Her tawny eyes flash in the low-slung sun. Dingo leaves her sleeping pups with her mate and lifts her head to smell the air. Dusk is a busy time – the time for hunting. Softly and fleetly she runs through the forest, past a possum, a wombat, and kangaroos in the gully below. Now she climbs to the highest point and sniffs again, locating the scent of rabbits in the wind. Interspersed with text offering facts for curious readers, Dingo is a lyrical foray into the life of these fascinating wild dogs.

Wandi Favel Parrett, 2021-09-29 SHORTLISTED FOR THE CHILDREN'S AWARD, INDIE BOOK AWARDS 2022
LONGLISTED FOR BOOK OF THE YEAR FOR YOUNGER CHILDREN, ABIA AWARDS 2022 A young cub is snatched from his family and home by a giant eagle, then dropped, injured and alone, in a suburban garden. This is where he meets his first Human, and begins his long journey to becoming the most famous dingo in the world. He will never see his mountain home again, or his family. But it is his destiny to save alpine dingoes from extinction, and he dreams of a time when all cubs like him can live in the wild in safety, instead of facing poison and bullets and hatred. A children's literary classic in-the-making from one of Australia's most-loved authors.

A Dingo Ate My Math Book: Mathematics from Down Under Burkard Polster, Marty Ross, 2017-12-27 A Dingo Ate My Math Book presents ingenious, unusual, and beautiful nuggets of mathematics with a distinctly Australian flavor. It focuses, for example, on Australians' love of sports and gambling, and on Melbourne's iconic,

mathematically inspired architecture. Written in a playful and humorous style, the book offers mathematical entertainment as well as a glimpse of Australian culture for the mathematically curious of all ages. This collection of engaging stories was extracted from the Maths Masters column that ran from 2007 to 2014 in Australia's Age newspaper. The maths masters in question are Burkard Polster and Marty Ross, two (immigrant) Aussie mathematicians, who each week would write about math in the news, providing a new look at old favorites, mathematical history, quirks of school mathematics—whatever took their fancy. All articles were written for a very general audience, with the intention of being as inviting as possible and assuming a minimum of mathematical background.

A Dingo in the Family Gill Ryhorchuk, 1980

The Dingo Debate Bradley Smith, 2015-08-03 The Dingo Debate explores the intriguing and relatively unknown story of Australia's most controversial animal - the dingo. Throughout its existence, the dingo has been shaped by its interactions with human societies. With this as a central theme, the book traces the story of the dingo from its beginnings as a semi-domesticated wild dog in South-east Asia, to its current status as a wild Australian native animal under threat of extinction. It describes how dingoes made their way to Australia, their subsequent relationship with Indigenous Australians, their successful adaption to the Australian landscape and their constant battle against the agricultural industry. During these events, the dingo has demonstrated an unparalleled intelligence and adaptable nature seen in few species. The book concludes with a discussion of what the future of the dingo in Australia might look like, what we can learn from our past relationship with dingoes and how this can help to allow a peaceful co-existence. The

Dingo Debate reveals the real dingo beneath the popular stereotypes, providing an account of the dingo's behaviour, ecology, impacts and management according to scientific and scholarly evidence rather than hearsay. This book will appeal to anyone with an interest in Australian natural history, wild canids, and the relationship between humans and carnivores.

Look Out for the Dingo! Amy Austen, 2015-07-15
This fun and fact-filled book about Australia's great predator, the dingo, is sure to thrill readers. This volume introduces readers to a dingo's anatomy, habitat, and diet, as well as their pack behavior and hunting techniques. The book also covers the dangers of encountering a dingo and the danger that dingoes face because of humans—complete extinction. Amazing color photographs bring this Outback animal to life while exciting and accessible text gives readers a well-rounded reading experience. Fact boxes will fascinate readers and deepen their understanding of the topic.

Mo the Daring Dingo Diane Evans, 2022-03-02 An entertaining story with a positive message about having fun AND being responsible. Mo is a daring little dingo with an adventurous spirit that is always getting him into trouble. His friends think he is funny. His mother is more exasperated than entertained! One day, instead of bunking down for a rest, he sneaks off on an adventure that will find him in the biggest trouble yet!
