Hacienda Style Karen Witynski, 2008-02-25 Invite the rich colors, natural textures, and romantic beauty of Mexico into your home. With a vast architectural legacy spanning four centuries, Mexican haciendas express a rugged romantic beauty and compelling sense of history. Today, the hacienda's graceful arcaded silhouette, grand-scale proportions, carved-stone ornament, rich colors and natural textures have become an ever-increasing influence for architects and designers worldwide. Hacienda Style invites you into Mexico's artful, hacienda havens resplendent with private collections of colonial and contemporary art, antiques and found relics. Witynski and Carr's antiques and accents have appeared in national magazines, television programs and feature films, including Architectural Digest, Western Interiors, HGTV's Takeover My Makeover, The Oprah Winfrey Show, and The Alamo. Other books by the same authors: Mexican Country Style, The New Hacienda, Casa Adobe, Adobe Details, Casa Yucatan, and Mexican Details.

Casa Adobe Karen Witynski, Joe P. Carr, 2001 In their third book, the authors forge through the mountains of Mexico and the deserts of the American Southwest in celebration of the strength and wonder of adobe design style. 195 photos, 175 in color.

Mexican Country Style, Pb Karen Witynski, 2009-09 \$19.95 gatefold paper * 1-58685-255-8 * April 8 1/2 x 10 in, 160 pp, 140 Color Photographs, 30 Black & White Photographs, Rights: W, DesignNow in paperback, Mexican Country Style is the classic that helped launch the popular Mexican design revival. Authors Karen Witynski and Joe P. Carr navigated coastal villages and old colonial mining towns by bus and burro, bumping down narrow cobblestone streets in search of simple and utilitarian elements like country tables, workbenches, storage trunks, corral gates, and heavy old doors. Intrigued by the diversity they encountered, the authors documented the wide variety in style, design, and shape of each object they encountered. Weathered coffee mortars, milking stools shaped like animals, and sculptured sugar molds reflect a rich local history as well as the ingenuity of the hands that crafted them. Mexican Country Style is the result of those fascinating journeys and boundless discoveries, a celebration of a rugged, romantic beauty and magical antiquity that continues to make its way into the contemporary interiors, gardens, and commercial settings across the country. Award-winning authors Karen Witynski and Joe P. Carr have been at the forefront of the Mexican design movement for over twenty-five years as interior designers and antiques dealers. Their Mexican design book series includes six titles: Mexican Country Style, The New Hacienda, Casa Adobe, Adobe Details, Casa Yucatán, and Mexican Details. Based in Austin, Texas, Carr and Witynski are the owners of Texture

Antiques, an interior design firm and gallery specializing in hacienda style, Mexican colonial furniture, and architectural elements. Their design work has been featured in Architectural Digest, House Beautiful, and dozens of other magazines and newspapers. Individually, Witynski photographs homes and gardens for national publications and Carr is a hacienda consultant and furniture designer.

Vintage Tomorrows James H. Carrott, Brian David Johnson, 2013-02-11 What would today's technology look like with Victorian-era design and materials? That's the world steampunk envisions: a mad-inventor collection of 21st century-inspired contraptions powered by steam and driven by gears. In this book, futurist Brian David Johnson and cultural historian James Carrott explore steampunk, a cultural movement that's captivated thousands of artists, designers, makers, hackers, and writers throughout the world. Just like today, the late 19th century was an age of rapid technological change, and writers such as Jules Verne and H.G. Wells commented on their time with fantastic stories that jumpstarted science fiction. Through interviews with experts such as William Gibson, Cory Doctorow, Bruce Sterling, James Gleick, and Margaret Atwood, this book looks into steampunk's vision of old-world craftsmen making beautiful hand-tooled gadgets, and what it says about our age of disposable technology. Steampunk is everywhere—as gadget prototypes at Maker Faire, novels and comic books, paintings and photography, sculptures, fashion design, and music. Discover how this elaborate view of a history that never existed can help us reimagine our future.

A Formula for Night Tamar Yoseloff, 2015 A striking new and selected collection from Tamar Yoseloff, spanning 20 years. It includes selections from her previous published collection. The new poems are haunting and evocative, concerned with heavenly presences, as well as evil spirits, explorations of light and dark.

The Black Place Tamar Yoseloff, 2019-09-30 The Black Place is dark and gorgeously multi-faceted artwork, like a black diamond. Tamar Yoseloff is a gifted contrarian: she eschews the sentimental,

embraces alternatives, and offers us antidotes to cheery capitalist hype. But there is a dark grandeur to her view of mortality, one that matches the sublime desert painting of the same name by Georgia O'Keeffe which inspires the title poem. The book's central sequence is 'Cuts', which is a characteristically tough look at the poet's cancer diagnosis and treatment: The consultant says 'carcinoma' – the word a missile.... The diagnosis arrives at the same time as the Grenfell Tower disaster, a public trauma overshadowing a private one. These poems focus on the strangeness of the illness, they refuse to offer panaceas or consolations. Also included are some formally inventive 'redacted' poems that are blacked-out except for key words that float ominously within their depths. Tamar Yoseloff has moved the horror poem into the twenty-first century mainstream. These poems are tough but not mere gore; the first step towards a humane society is to visit its back alleys at midnight. While *The Black Place* is rain-drenched and concrete bunkered, a filmic urban vision stripped down to its inner grit, no one lyricises mean streets with such compassion as Tamar Yoseloff. – Claire Crowther

Adobe Details Karen Witynski,2009-09 In their fourth book, authors/designers Karen Witynski and Joe Carr forage through the American Southwest and mountains of Mexico in search of the furnishings, accents and architectural elements that reveal its time-honored beauty and character. From rugged Arizona ranches and haciendas to contemporary Santa Fe homes, *Adobe Details* celebrates the natural materials--earth, wood and stone--that proudly bear evidence of the human hand. From adobe walls textured with agave fibers to hand-adzed vigas and gleaming Saltillo-tile floors, the adobe home is alive with rich surfaces that evoke a casual, timeless context. *Adobe Details* will show you how to achieve the look.

Mexican Details Karen Witynski,Joe P. Carr,2006-03 In *Mexican Details* designers Karen Witynski and Joe P. Carr travel throughout Mexico and the Southwest in celebration of the character-rich details of Mexican furniture, architectural elements and handcrafted accents, such as intricately textiles, glazed ceramics, wooden masks and folk art objects. A design resource section is included.

Hacienda Courtyards Karen Witynski,2009-09 Explore the architectural elements and water havens that will inspire your own courtyard paradise.

The Maxwellians Bruce J. Hunt, 1994-09-15 James Clerk Maxwell published the Treatise on Electricity and Magnetism in 1873. At his death, six years later, his theory of the electromagnetic field was neither well understood nor widely accepted. By the mid-1890s, however, it was regarded as one of the most fundamental and fruitful of all physical theories. Bruce J. Hunt examines the joint work of a group of young British physicists—G. F. FitzGerald, Oliver Heaviside, and Oliver Lodge—along with a key German contributor, Heinrich Hertz. It was these Maxwellians who transformed the fertile but half-finished ideas presented in the Treatise into the concise and powerful system now known as Maxwell's theory.
