Colossal Paper Machines Phil Conigliaro,2015-04-21 What a big idea! And what big fun: A whopping oversize book of interactive paper models to appeal to every kid who loves big machines—which pretty much covers all of them. These are the coolest big machines that kids love—each re-created in an oversize paper model that, once built, really moves. The book has everything the reader needs to pop out, fold, and create a full-color model of ten big machines: a dump truck, space shuttle, excavator, ladder truck, front loader, concrete mixer, steam locomotive, steamboat, dirigible, Chinook helicopter. Created by Phil Conigliaro, a gifted paper engineer and artist, the models are printed on sturdy card stock; perforated to pop out and fold; require only gluing (no tape or pins); and come with complete, easy-to-follow step-by-step instructions. And, worth repeating, each one moves: Wheels roll and the mixer turns, helicopter blades spin, and the excavator's boom and bucket raises and lowers. Additionally there's the story of each machine—how it works, who invented it, what it's used for. Kids will learn the history of the steam shovel—the smoking, hissing monster that dug the Panama Canal, the largest engineering feat of the 20th century; how astronauts in a space shuttle could withstand the 3,000 degrees of heat created when it returned to Earth; how the world's largest dump truck can haul a million pounds. It's big stuff!

Paper Models That Move Walter Ruffler,2011-02-01 Enter the world of animated paper engineering with these 14 whimsical projects for making automata out of cardstock. Full step-by-step instructions plus precise cut-and-assemble components suitable for papercrafters ages 12 and up.

The Long Haul: A Trucker's Tales of Life on the Road Finn Murphy,2017-06-06 “There's nothing

semi about Finn Murphy's trucking tales of *The Long Haul*.”—Sloane Crosley, *Vanity Fair* More than thirty years ago, Finn Murphy dropped out of college to become a long-haul trucker. Since then he's covered more than a million miles as a mover, packing, loading, hauling people's belongings all over America. In *The Long Haul*, Murphy recounts with wit, candor, and charm the America he has seen change over the decades and the poignant, funny, and often haunting stories of the people he encounters on the job.

The Fourth Turning William Strauss, Neil Howe, 1997-12-29 NATIONAL BESTSELLER • Discover the game-changing theory of the cycles of history and what past generations can teach us about living through times of upheaval—with deep insights into the roles that Boomers, Generation X, and Millennials have to play. First comes a High, a period of confident expansion. Next comes an Awakening, a time of spiritual exploration and rebellion. Then comes an Unraveling, in which individualism triumphs over crumbling institutions. Last comes a Crisis—the Fourth Turning—when society passes through a great and perilous gate in history. William Strauss and Neil Howe will change the way you see the world—and your place in it. With blazing originality, *The Fourth Turning* illuminates the past, explains the present, and reimagines the future. Most remarkably, it offers an utterly persuasive prophecy about how America's past will predict what comes next. Strauss and Howe base this vision on a provocative theory of American history. The authors look back five hundred years and uncover a distinct pattern: Modern history moves in cycles, each one lasting about the length of a long human life, each composed of four twenty-year eras—or “turnings”—that comprise history's seasonal rhythm of growth, maturation, entropy, and rebirth. Illustrating this cycle through a brilliant analysis of the post-World War II period, *The Fourth Turning* offers bold predictions about how all of us can prepare, individually and collectively, for this rendezvous with destiny.

Little Taco Truck Tanya Valentine, 2019-04-02 *Dragons Love Tacos* meets *Goodnight, Goodnight, Construction Site* in this irresistibly kid-friendly read-aloud about a little taco truck that is having trouble finding a place to park. Little Taco Truck serves up tasty treats to the hungry workers on Union Street . . . until one day, Miss Falafel shows up with her baked pita bread and crunchy chickpea fritters--and parks in his space. The next day, Miss Falafel is there again, and this time she's brought Gumbo Jumbo and Annie Arepas with her. Little Taco Truck's headlights dim. What if people like Gumbo Jumbo's spicy stew and Annie Arepas's warm cornbread cakes more than they like his tacos? When more trucks arrive the following day and there's no space left for Little Taco Truck, he swishes his wipers to hide his tears and heads home. At last, with some ingenuity and help from new friends, Little

Taco Truck wins back his coveted parking spot. And guess what? There is room enough for everyone! Packed with flavor and savory smells, this irresistible read-aloud about friendship and determination is perfect for even the youngest truck and taco fans.

Nomadland: Surviving America in the Twenty-First Century Jessica Bruder, 2017-09-19 The inspiration for Chloé Zhao's 2020 Golden Lion award-winning film starring Frances McDormand. People who thought the 2008 financial collapse was over a long time ago need to meet the people Jessica Bruder got to know in this scorching, beautifully written, vivid, disturbing (and occasionally wryly funny) book. —Rebecca Solnit From the beet fields of North Dakota to the campgrounds of California to Amazon's CamperForce program in Texas, employers have discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the Great Recession have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads. *Nomadland* tells a revelatory tale of the dark underbelly of the American economy—one which foreshadows the precarious future that may await many more of us. At the same time, it celebrates the exceptional resilience and creativity of these Americans who have given up ordinary rootedness to survive, but have not given up hope.

Karakuri Keisuke Saka, 2010-03-16 Japanese paper engineer Hosaka presents instructions for constructing four models: Tea-serving robot, Ready to fly, Peek-a-bear -- Wild Wild West.

Origami City Taro Yaguchi, 2020-06-23 Introducing fold-by-number, a revolutionary origami new concept in paper folding. Created by the founder of Taro's Origami Studio, *Origami City* marries the joy of paper folding with the foolproof appeal of paint-by-number with the imaginative play of LEGO or Playmobils. This ingenious book is an all-in-one kit for a complete origami metropolis: 75 realistic pieces to fold with step-by-step instructions; an illustrated paper play mat; and over 100 sheets of preprinted origami paper with numbers and lines for folding. The models—houses, office buildings, cars, emergency and construction vehicles, an airport, even dogs and squirrels to run in the parks—are meticulously detailed, illustrated by Brooklyn-based artist Simon Arizpe. For ages 7 and up.
