The Stationery Shop Marjan Kamali, 2019-06-18 A poignant, heartfelt new novel by the award-nominated author of *Together Tea*—extolled by the Wall Street Journal as a “moving tale of lost love” and by Shelf Awareness as “a powerful, heartbreaking story”—explores loss, reconciliation, and the quirks of fate. Roya, a dreamy, idealistic teenager living amid the political upheaval of 1953 Tehran, finds a literary oasis in kindly Mr. Fakhri’s neighborhood stationery shop, stocked with books and pens and bottles of jewel-colored ink. Then Mr. Fakhri, with a keen instinct for a budding romance, introduces Roya to his other favorite customer—handsome Bahman, who has a burning passion for justice and a love for Rumi’s poetry—and she loses her heart at once. Their romance blossoms, and the little stationery shop remains their favorite place in all of Tehran. A few short months later, on the eve of their marriage, Roya agrees to meet Bahman at the town square when violence erupts—a result of the coup d’état that forever changes their country’s future. In the chaos, Bahman never shows. For weeks, Roya tries desperately to contact him, but her efforts are fruitless. With a sorrowful heart, she moves on—to college in California, to another man, to a life in New England—until, more than sixty years later, an accident of fate leads her back to Bahman and offers her a chance to ask him the questions that have haunted her for more than half a century: Why did you leave? Where did you go? How is it that you were able to forget me?

Caste Isabel Wilkerson, 2020-08-04 #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, *The New York Times* The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. #1 NONFICTION BOOK OF THE YEAR: *Time* ONE OF THE BEST BOOKS OF THE YEAR: *The Washington Post*, *The New York Times*, *Los Angeles Times*, *The Boston Globe*, *O: The Oprah Magazine*, *NPR*, *Bloomberg*, *The Christian Science Monitor*, *New York Post*, *The New York Public Library*, *Fortune*, *Smithsonian Magazine*, *Marie Claire*, *Slate*, *Library Journal*, *Kirkus Reviews* Winner of the Carl Sandberg Literary Award • Winner of the Los Angeles Times Book Prize • National Book Award Longlist • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist • *Kirkus* Prize Finalist "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched, and beautifully written narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and

Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball’s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Original and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

Discard Studies Max Liboiron, Josh Lepawsky, 2022-05-24 An argument that social, political, and economic systems maintain power by discarding certain people, places, and things. Discard studies is an emerging field that looks at waste and wasting broadly construed. Rather than focusing on waste and trash as the primary objects of study, discard studies looks at wider systems of waste and wasting to explore how some materials, practices, regions, and people are valued or devalued, becoming dominant or disposable. In this book, Max Liboiron and Josh Lepawsky argue that social, political, and economic systems maintain power by discarding certain people, places, and things. They show how the theories and methods of discard studies can be applied in a variety of cases, many of which do not involve waste, trash, or pollution. Liboiron and Lepawsky consider the partiality of knowledge and offer a theory of scale, exploring the myth that most waste is municipal

solid waste produced by consumers; discuss peripheries, centers, and power, using content moderation as an example of how dominant systems find ways to discard; and use theories of difference to show that universalism, stereotypes, and inclusion all have politics of discard and even purification—as exemplified in “inclusive” efforts to broaden the Black Lives Matter movement. Finally, they develop a theory of change by considering “wasting well,” outlining techniques, methods, and propositions for a justice-oriented discard studies that keeps power in view.

The Zero-Waste Chef Anne-Marie Bonneau, 2021-04-13 *SHORTLISTED for the 2021 Gourmand World Cookbook Award* *SHORTLISTED for the 2022 Taste Canada Award for Single-Subject Cookbooks* A sustainable lifestyle starts in the kitchen with these use-what-you-have, spend-less-money recipes and tips, from the friendly voice behind @ZeroWasteChef. In her decade of living with as little plastic, food waste, and stuff as possible, Anne-Marie Bonneau, who blogs under the moniker Zero-Waste Chef, has preached that zero-waste is above all an intention, not a hard-and-fast rule. Because, sure, one person eliminating all their waste is great, but thousands of people doing 20 percent better will have a much bigger impact. And you likely already have all the tools you need to begin. In her debut book, Bonneau gives readers the facts to motivate them to do better, the simple (and usually free) fixes to ease them into wasting less, and finally, the recipes and strategies to turn them into self-reliant, money-saving cooks and makers. Rescue a hunk of bread from being sent to the landfill by making Mexican Hot Chocolate Bread Pudding, or revive some sad greens to make a pesto. Save 10 dollars (and the plastic tub) at the supermarket with Yes Whey, You Can Make Ricotta Cheese, then use the cheese in a galette and the leftover whey to make sourdough tortillas. With 75 vegan and vegetarian recipes for cooking with scraps, creating fermented staples, and using up all your groceries before they go bad—including end-of-recipe notes on what to do with your

ingredients next--Bonneau lays out an attainable vision for a zero-waste kitchen.

Lean Thinking James P. Womack, Daniel T. Jones, 2013-09-26 Lean Thinking was launched in the fall of 1996, just in time for the recession of 1997. It told the story of how American, European, and Japanese firms applied a simple set of principles called 'lean thinking' to survive the recession of 1991 and grow steadily in sales and profits through 1996. Even though the recession of 1997 never happened, companies were starving for information on how to make themselves leaner and more efficient. Now we are dealing with the recession of 2001 and the financial meltdown of 2002. So what happened to the exemplar firms profiled in Lean Thinking? In the new fully revised edition of this bestselling book those pioneering lean thinkers are brought up to date. Authors James Womack and Daniel Jones offer new guidelines for lean thinking firms and bring their groundbreaking practices to a brand new generation of companies that are looking to stay one step ahead of the competition.

Please Join Us Catherine McKenzie, 2022-08-23 Named one of 2022's best and most-anticipated thrillers by Goodreads, CrimeReads, Motherly, Westport Magazine, and more! A "propulsive thriller about secret organizations, hidden agendas, and the lengths one woman will go to reclaim her life" (Laura Dave, author of Reese's Book Club Pick *The Last Thing He Told Me*) from USA TODAY bestselling author Catherine McKenzie. At thirty-nine, Nicole Mueller's life is on the rocks. Her once brilliant law career is falling apart. She and her husband, Dan, are soon to be forced out of the apartment they love. After a warning from her firm's senior partners, she receives an invitation from an exclusive women's networking group, Panthera Leo. Membership is anonymous, but every member is a successful professional. It sounds like the perfect solution to help Nicole revive her career. So, despite Dan's concerns that the group might be a cult, Nicole signs up for their retreat in

Colorado. Once there, she meets the other women who will make up her Pride. A CEO, an actress, a finance whiz, a congresswoman: Nicole can't believe her luck. The founders of Panthera Leo are equally as impressive. They explain the group's core philosophy: they're a girl's club in a boy's club world. Nicole is all in. And when she gets home, she soon sees dividends. Her new network quickly provides her with clients that help her relaunch her career, and a great new apartment too. The favors she has to provide in return seem benign. But then she's called to the congresswoman's apartment late at night where she's pressed into helping her cover up a crime. And suddenly, Dan's concerns that something more sinister is at play seem all too relevant. Can Nicole extricate herself from the group before it's too late? Or will joining Panthera Leo be the biggest mistake of her life?

Building from Waste Dirk E. Hebel, Marta H. Wisniewska, Felix Heisel, 2014-09-25 “Reduce, Reuse, Recycle, and Recover” is the sustainable guideline that has replaced the “Take, Make, Waste” attitude of the industrial age. Based on their background at the ETH Zurich and the Future Cities

Laboratory in Singapore, the authors provide both a conceptual and practical look into materials and products which use waste as a renewable resource. This book introduces an inventory of current projects and building elements, ranging from marketed products, among them façade panels made of straw and self-healing concrete, to advanced research and development like newspaper, wood or jeans denim used as isolating fibres. Going beyond the mere recycling aspect of reused materials, it looks into innovative concepts of how materials usually regarded as waste can be processed into new construction elements. The products are organized along the manufacturing processes: densified, reconfigured, transformed, designed and cultivated materials. A product directory presents all materials and projects in this book according to their functional uses in construction: load-bearing, self-supporting, insulating, waterproofing and finishing products.

Here's how to spit-roast beer-brined cauliflower on the rotisserie. Blowtorch a rosemary veal chop. Grill mussels in blazing hay, peppery chicken under a salt brick, and herb-crusted salmon steaks on a shovel. From Seven Steps to Grilling Nirvana to recipes for grilled cocktails and desserts, Project Fire proves that live-fire, and understanding how to master it, makes everything taste better. "Once again, Steven Raichlen shows off his formidable fire power and tempting recipes." —Francis Mallmann

Fundamentals of Space Systems Vincent L. Pisacane, 2005 Fundamentals of Space Systems was developed to satisfy two objectives: the first is to provide a text suitable for use in an advanced undergraduate or beginning graduate course in both space systems engineering and space system design. It includes a chapter on each of the relevant major disciplines and subsystems including space systems engineering, space environment, astrodynamics, propulsion and flight mechanics, attitude determination and control, power systems, thermal control, configuration management and structures, communications, command and telemetry, data processing, embedded flight software, survivability and reliability, integration and test, mission operations, and the initial

conceptual design of a typical small spacecraft mission.

Conserving Bogs Rob E. Stoneman, Stuart Brooks, 1997 Bogs are fascinating landscapes for ecologists, climatologists, archaeologists, environmental historians and water managers.
