Drawing on first-hand accounts of the weapons in combat and primary sources regarding their mechanical performance, this fully illustrated study charts the Mauser's origins, combat record and lasting influence. It explores the full range of Mauser rifles, beginning with the hugely successful Gew 98, which entered service in the time of the Kaiser, provided the basis for the US Springfield M1903 and equipped combatants such as the South African Boers. It also investigates the Kar 98k, which was still in front-line use with Wehrmacht troops in 1945, saw use with Mexican and Yugoslavian forces, and even played a role in the 1990s Balkan conflicts in the hands of snipers. Featuring expert analysis, specially commissioned artwork and gripping first-hand accounts, this volume is ideal for anyone seeking an understanding of these sturdy and accurate rifles' unique place in the history of small-unit tactics in the 20th century.

*Modern African Wars (5)* Philip Jowett,2016-09-22 With decades of research to draw from Philip Jowett explores this extraordinary David-and-Goliath conflict, where the rag-tag Igbo tribal army of secessionist Biafra faced off against the Nigerian Federal forces. It was an African war that captured the attention of the western media, with individual commanders such as Biafran leader Colonel Ojukwu and Federal Colonel Adekunle becoming familiar figures across the globe. The Nigerian forces easily outnumbered their opponents and benefitted from British and Soviet equipment, yet against all the odds the Biafrans held out for two and a half years, inflicting many setbacks on the Federal forces before their eventual surrender in 1970. Specially commissioned artwork and historical photos, including some from respected Italian war photographer Romano Ganoni, reflect the diverse array of uniforms and equipment on both sides, with images ranging from Sandhurst-educated officers in immaculate uniform to ragged militiamen armed with World War II kit.

It addresses the making of Soviet institutions, economy, and society while also looking at mass violence and relations between the state, workers, and peasants. It introduces crucial communist experiences in Germany, China, and Central Asia. At the same time, it also explores international and transnational communist practices concerning key issues such as gender, subjectivity, generations, intellectuals, nationalism, and the cult of personality.

*The Political Development of the Kurds in Iran* F. Koohi-Kamali,2003-09-30 This book looks at Kurdish Nationalism in Iran and examines the links between the structural changes in the Kurdish economy and its political demands. Farideh Koohi-Kamali argues that the transition of the nomadic, tribal society of Kurdistan to an agrarian village society was the beginning of a process by which Kurds saw themselves as a community of homogenous ethnic identity. The political movements of Kurds in Iran are discussed to illustrate that the different phases of economic development of Kurdish society played a great role in determining the way in which Kurds expressed their political demands for independence.

*How Intelligent Are You?? B* Victor Serebriakoff,2015-05-10 Know thyself, said the sage - and this may be the most difficult advice of all. The scientific basis of psychology is often debated, with some arguing that it is a branch of philosophy rather than a true science. But psychometrics, the field of mental measurement, is an area which has been of particular interest to business, educationalists and those interested in personal development alike. Have you ever wondered how intelligent you are compared to your friends and colleagues? Do you know whether you are a numbers person or a words person? How creative are you REALLY? The answers to all these questions and more can be found in this fascinating book. You can scientifically test your verbal or numerical skill, your emotional stability, your assertiveness and, of course, your intelligence.
