Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own backstory. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Van Gogh Starry Night Vincent van Gogh, Federico Castelli Gattinara, 2004 This title is one in a series presenting four masterpieces by four immortal nineteenth-century French painters. Each miniature book faithfully reproduces its title painting on the front cover, and is packaged in a

handsome slipcase that doubles as a picture frame. The frame can stand up on a desk or tabletop or be hung on the wall to display the book cover's striking painting. Each book's interior discusses its title painting, describing the artist's approach to his work, analyzing the picture's fine points, and showing close-up details from the painting. A final two-page spread presents a timeline capsule biography that lists significant events in the painter's life. Van Gogh--Starry Night shows and discusses Vincent Van Gogh's masterpiece, which is a mystically glowing nighttime landscape, and ranks today as one of the artist's most popular and beloved paintings.

Cosmoe, Princess Dagger, Humphree, and the gang are back for another swashbuckling space adventure in this third book in the Galactic Hot Dog series. It's like déjà vu all over again (and again and again) when Cosmoe is taken hostage by a space pirate with links to the hot dog seller's early days in space. Humphree's past also comes to light as the events of two friends' first days on the Neon Wiener are revealed. And the farther they go down memory lane, the more apparent it becomes that this pirate has landed them in a galaxy of danger.

Artabet / First Steps in Drawing Ron Mulvey, 2013-11-18 Twenty-five years ago, after teaching hundreds of art classes to thousands of students, I discovered a secret about drawing. Every shape in the world - from penguins to space ships - can be drawn with 6 elemental lines. I call my method the ARTABET, as it really is a basic language of art that children learn to master. The ARTABET shows that once you learn the 6 elemental lines of drawing, the possibilities are endless. The ARTABET is designed for home use and is perfect for elementary school teachers in the classroom. Everything you will need to know to set a firm foundation for your child's or student's drawing is available in the ARTABET / First Steps In Drawing. Great for all ages and fully supported at our Free

Featuring delicious text from author Abby Denson, and bright, colorful illustrations by Utomaru. There's just one thing Kitty Sweet Tooth loves more than going to movies, and that's eating delicious desserts. Now that Pop-Pop's movie theater has fallen on hard times, Kitty decides that only dessert can keep it from closing its doors. With a coat of paint, a tasty new menu, and a lot of hard work, Kitty and her friends transform this ramshackle theater into the Taste-O-Rama, a combination movie house restaurant. At the Taste-O-Rama, special film screenings are paired with custom-made dishes. But when you have a mad scientist and a witch working in the kitchen, recipes can go awry! Dog Man: World Book Day 2020 Dav Pilkey,2020-02-27 A BRILLIANT new DOG MAN book for World Book Day 2020 packed with three hilarious stories.

The Rise and Fall of Dank Memes Fabian Mosele,2018-06-15 Dystopia is now. Dystopia can be seen in many aspects of our lives. But one of the biggest one is the creation of the internet. Thirty years ago we couldn't have imagined such a platform, and now it radically changed our lives. The web is part of our everyday lives, and thereby it developed a global internet culture. Memes, funny videos and pictures, haven't been studied too much, even if a big portion of internet users watch them every day. This book, which is set in a near future, is an illustrated book with two characters that go through the history and functionality of memes, by also showing how the immense amount of data that the internet offers has also negative sides. That's achieved through hypothesizing an extinction of qualitative memes caused by too many of them being created, which lead to an overall staleness. For the first time in human history we have access to an immense amount of information, and we are not prepared yet to manage it. We are starting to realize that such an open platform can create new sorts of problems that we have never seen before. We already witnessed the impact of too much information with fake news during the 2016 US presidential election. This isn't just virtual, it is a problem that is affecting all of us right now.

Damien Hirst: Cherry Blossoms ,2021-04-07 Incandescent and celebratory paintings of cherry blossoms from Damien Hirst, in a glorious oversize volume With 107 new works, Cherry Blossoms marks a new chapter in Damien Hirst's career-long exploration of the physical relationship between

artist and canvas that began with his Spot Paintings in 1986. Hirst describes his cherry blossoms as garish and messy and fragile; the series signals a shift in Hirst's career away from minimalism and the imagined mechanical painter toward a painting that delights in the potential haphazardness of the medium, as well as the artist's own fallibility as a creator. Rich in color and striking in number, Hirst's Cherry Blossoms are both an appropriation and a tribute to the pictorial art of the 19th and 20th centuries. Damien Hirst (born 1965) rose to prominence in the 1990s as one of the Young British Artists, garnering attention for his controversial site-specific pieces. A 1989 graduate of Goldsmiths College, Hirst was awarded the Turner Prize in 1995. Now one of the contemporary art world's most famous figures, Hirst continues to surprise audiences with a staggering diversity of work, ranging from sculpture and painting to installation and performance art. In 2012, a retrospective of his nearly 30-year career was staged at Tate Modern. Hirst is represented by Gagosian.
