Scalextric Roger Gillham,2009-02-15 First published in 1981, this book has long been recognized as the 'bible of Scalextric', providing a complete catalogue of the cars and equipment produced. Now, for this seventh edition, the book has undergone a transformation, with a complete redesign and masses of new information about cars, sets and accessories produced around the world. As well as extra detail about earlier periods, there is full coverage of all the new Scalextric products launched in the four years that have elapsed since the previous edition. The Jack Brabham Story Jack Brabham,Doug Nye,2004-02-26 This title covers the career of Jack Brabham, which saw him win three Formula 1 Driver's World Championship titles, multiple F2 Championships, become the world's first dominant manufacturer of single-seater racing cars and the first driver to win a World Title in a car bearing his own name.

Goodwood Remembered Peter Redman,2007 Goodwood Remembered is a unique collection of previously unpublished photographs, sketches and recollections of Peter Redman, an enthusiastic spectator. As well as over 150 of his photographs from the late 1940s and 1950s, Peter Redman has included more than 50 sketches of cars and drivers of the period and 13 of his cartoons that help bring motor racing at Goodwood between 1948 and 1960 to life. The book is full of interesting snippets. Bernie Ecclestone's second place in a 500 cc race, and World Champion Juan Manuel Fangio nursing an "off-song" Cooper-Bristol into sixth place in a Formula Libre race, are just two examples. It is a fascinating insight into the range of racing cars and drivers at Goodwood in that period: from World Champions such as Fangio, Farina and Hawthorn to handicap races for lady drivers. Goodwood Remembered will be of great interest to anyone who remembers those times and for the huge number who follow historic motor racing or want to know more of the roots of modern motor sport.

Grand Prix Cars Denis Jenkinson,2015-10-02 " In compiling this brief

history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties – such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes – the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)

Formula One John Smailes, 2021-11-02 Since 1950, fifteen Australians and nine New Zealanders have raced in world championship Formula One, the pinnacle of motor racing. Three - Jack Brabham, Denny Hulme and Alan Jones - have won the world title. Two have died in the attempt without ever facing the world championship starters' lights. So few drivers make it to Formula One. Ever fewer succeed in the fastest and most challenging four-wheeled sport of all. Now John Smailes, author of the bestselling *Climbing the Mountain*, *Race Across the World*, *Mount Panorama* and *Speed Kings*, gives us the definitive story of our involvement with Formula One, from the pioneer days in the aftermath of World War II, to the championship glory of Brabham, Hulme and Jones, the grit and determination of Mark Webber, and Australia's current Formula One star, the irrepressible Daniel Ricciardo, all the way to potential champions of the future like Oscar Piastri. With over 150 stunning photographs, and interviews with drivers past and present, as well as the

engineers, managers and team owners behind the scenes, this is the must-have book for every Australian and New Zealand fan of Formula One.
