The Book with No Pictures B. J. Novak,2014-09-30 A #1 New York Times bestseller, this innovative and wildly funny read-aloud by award-winning humorist/actor B.J. Novak will turn any reader into a comedian—a perfect gift for any special occasion! You might think a book with no pictures seems boring and serious. Except . . . here's how books work. Everything written on the page has to be said by the person reading it aloud. Even if the words say . . . BLORK. Or BLUURF. Even if the words are a preposterous song about eating ants for breakfast, or just a list of astonishingly goofy sounds like BLAGGITY BLAGGITY and GLIBBITY GLOBBITY. Cleverly irreverent and irresistibly silly, *The Book with No Pictures* is one that kids will beg to hear again and again. (And parents will be happy to oblige.)

Papertoy Monsters Brian Castleforte,2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that’s hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Exciting Entertainment Inventions Ryan Jacobson,2017-08-01 Can you believe that the first tennis balls didn't bounce? Or that the world's first basketball hoop was a peach crate? Innovators Marcia Amidon Lusted,2017-07-17 Most people have heard of Thomas Edison, Steve Jobs, and Mark Zuckerberg, but how about Daniel Hale Williams, Mae Jemison, and Mary Anderson? The world owes a lot to the unsung heroes of innovation, names that many people don’t know, though we use their inventions and improvements on a daily basis. These are people who turned their ideas into ways to make the world a better place through advances in health, technology, food science, and discovery! In Innovators: The Stories Behind the People Who Shaped the World with 25 Projects, readers ages 9 to 12 learn about the products, processes, and improvements people have made to create the reality in which we live. For example, in 1938, Ruth Wakefield got the idea to add bits of chocolate to her cookies and invented Toll House chocolate chip cookies. Innovators also tackle many serious problems, such as Virginia Apgar who designed a test for newborns to determine how healthy they were. The Apgar test is still being used in hospitals today. And in 2012, at the age of just 15, Jack Andraka developed a speedy and cheap method to detect pancreatic cancer early, which has the potential to save thousands of people from several deadly cancers. Being innovative means thinking creatively and critically to solve problems and find improvements. People of any age can be innovators—all it takes is an open mind, curiosity, and a desire to come up with ideas! Hands-on activities provide practical applications for learning the engineering design process and include learning how to send messages in Morse Code, creating a homemade version of Silly Putty, and figuring out how to make a solar-powered oven. Innovators incorporates a digital learning experience by providing links to primary sources, videos, and relevant websites for deeper, independent learning and inspiration.
