A Paper Mask John COLLEE,1989

First, Wear a Face Mask Dr. Philip M. Tierno, Jr.,2020-09-01 Stay safe and stay calm. A New York University microbiologist gives you the knowledge you need to protect yourself from COVID-19 and other common infectious diseases. With the spread of COVID-19, the world has never felt less safe. And with so much advice out there, it's hard to know whether you're taking the right precautions to stay safe. Don't panic: there are simple steps you can take to best protect yourself from infection. Professor of microbiology and pathology at NYU School of Medicine Dr. Philip M. Tierno Jr. cuts through the noise with to-the-point explanations, checklists, and best practices in this brief yet authoritative guide to protecting yourself from infectious diseases. First walking you through what germs are and how every infection happens, *First, Wear a Face Mask* offers calming, straightforward advice to address the ongoing spread of COVID-19 as well as the germs that imperil us every year. This practical approach will give you peace of mind as it helps you learn how to protect yourself in a variety of scenarios, from cooking at home to eating out, from your everyday commute to air travel. With tips and tidbits of history, he guides you through taking care of your home, kids, and pets. Dr. Tierno has more than 40 years of experience in the clinical and medical microbiology fields and recently appeared as an expert during the pandemic on CNN in conversation with Chris Cuomo and on Doctor Radio. And in this book, he distills his wide-ranging knowledge into actionable, digestible steps. Although there is no impenetrable shield to infection, there's a lot you can do to increase your odds of staying safe. Arm yourself with knowledge, keep calm and carry hand sanitizer.

The Man in the Velvet Mask Daniel O'Mahony,1996 After arriving in a warped version of 19th-century Paris, the Doctor is arrested. Something is very wrong with this Paris - not least the fact that the sinister figure holding the city in his power is the son of the infamous Marquis de Sade. '

A Paper Mask John Collee,1989-01-01 In a chilling tale of medical treachery, Matthew Harris, a bored hospital orderly, assumes the identity of a recently killed doctor and uses her brains, cunning, and depravity to carry out his own brand of diagnostics and healing

Marvelous Masks Nicole Billick,2020-09-19 Do you know any little ones who are wary of wearing masks or do not want to keep them on? Do you have an upcoming event or travel and you are not sure your child will wear a mask when required? Have you been trying to find a way to help your child feel comfortable wearing a mask? Then *Marvelous Masks* is for you! A fun and beautifully hand-drawn story that explains how masks have been part of our world for a long time - not just because of the COVID-19 pandemic. In this charming story, a group of animal friends looks at all different kinds of masks, and shows just how fun and normal wearing masks can be. Parents, grandparents and teachers can use this book to help explain to their children why we all need to wear masks sometimes - from cowboys, doctors, and baseball catchers to superheroes and more! There is no specific mention of germs or COVID-19, leaving room for adults to have that conversation with their children as they desire. Inspired by her own children, the author hopes that this story helps take children's stress out of needing to wear masks during the COVID-19 pandemic. Let's make masks less scary and more relatable for young children!

Black Skin, White Masks Frantz Fanon, 2017 *Black Skin, White Masks* is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

Doctor Dyslexia Dude Shawn Robinson, Inshirah Robinson, 2020-03-02 *Doctor Dyslexia Dude* is a compelling story of an African-American boy who is also a colorful superhero with dyslexia.

Golem Girl Riva Lehrer, 2021-10-26 The vividly told, gloriously illustrated memoir of an artist born with disabilities who searches for freedom and connection in a society afraid of strange bodies “*Golem Girl* is luminous; a profound portrait of the artist as a young—and mature—woman; an unflinching social history of disability over the last six decades; and a hymn to life, love, family, and spirit.”—David Mitchell, author of *Cloud Atlas* WINNER OF THE BARBELLION PRIZE • FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE AWARD FOR

AUTOBIOGRAPHY • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY KIRKUS REVIEWS

What do we sacrifice in the pursuit of normalcy? And what becomes possible when we embrace monstrosity? Can we envision a world that sees impossible creatures? In 1958, amongst the children born with spina bifida is Riva Lehrer. At the time, most such children are not expected to survive. Her parents and doctors are determined to fix her, sending the message over and over again that she is broken. That she will never have a job, a romantic relationship, or an independent life. Enduring countless medical interventions, Riva tries her best to be a good girl and a good patient in the quest to be cured. Everything changes when, as an adult, Riva is invited to join a group of artists, writers, and performers who are building Disability Culture. Their work is daring, edgy, funny, and dark—it rejects tropes that define disabled people as pathetic, frightening, or worthless. They insist that disability is an opportunity for creativity and resistance. Emboldened, Riva asks if she can paint their portraits—inventing an intimate and collaborative process that will transform the way she sees herself, others, and the world. Each portrait story begins to transform the myths she’s been told her whole life about her body, her sexuality, and other measures of normal. Written with the vivid, cinematic prose of a visual artist, and the love and playfulness that defines all of Riva’s work, *Golem Girl* is an extraordinary story of tenacity and creativity. With the author’s magnificent portraits featured throughout, this memoir invites us to stretch ourselves toward a world where bodies flow between all possible forms of what it is to be human. “Not your typical memoir about ‘what it’s like to be disabled in a non-disabled world’ . . . Lehrer tells her stories about becoming the monster she was always meant to be: glorious, defiant, unbound, and voracious. Read it!”—Alice Wong, founder and director,

Masks!: a Lift-The-Flap Book A. H. Hill, 2022-03-15 Prepare your little readers for the new normal with this interactive lift-the-flap book that reveals the familiar and friendly faces behind personal protection masks. In the morning I pick out a mask to wear. Today is a perfect day to be a dragon. What sound do dragons make under their masks? Roar! This lift-the-flap book combines imaginative play and health safety, and leads you and your child through a busy day wearing masks. Follow the life of a mask from when you pick out a mask in the morning; to school where your teacher wears a mask; and to the end of the day when you wash your mask clean. Each page features colorful and exciting masks that you can lift to discover a familiar face! Who's behind that unicorn mask? Your best friend! And who's behind the mask with teddy bears on it? Your doctor, of course! This interactive book, paired with illustrator Junissa Bianda's bright, comforting art, will alleviate little ones' anxieties and fears of masks. Help kids get used to masks at their own pace, and in the safety of their own space.

Dr. Fauci Kate Messner, 2021-06-29 The definitive picture book biography of Dr. Anthony Fauci, the director of the National Institute of Allergy and Infectious Diseases and one of the most crucial figures in the COVID-19 pandemic. Before he was Dr. Fauci, director of the National Institute of Allergy and Infectious Diseases, Anthony Fauci was a curious boy in Brooklyn, delivering prescriptions from his father's pharmacy on his blue Schwinn bicycle. His father and immigrant grandfather taught Anthony to ask questions, consider all the data, and never give up—and Anthony's ability to stay curious and to communicate with

people would serve him his entire life. This engaging narrative, which draws from interviews the author did with Dr. Fauci himself, follows Anthony from his Brooklyn beginnings through medical school and his challenging role working with seven US presidents to tackle some of the biggest public health challenges of the past fifty years, including the COVID-19 pandemic. Extensive backmatter rounds out Dr. Fauci's story with a timeline, recommended reading, a full spread of facts about vaccines and how they work, and Dr. Fauci's own tips for future scientists.

The Great Influenza John M. Barry, 2005-10-04 #1 New York Times bestseller "Barry will teach you almost everything you need to know about one of the deadliest outbreaks in human history."—Bill Gates Monumental... an authoritative and disturbing morality tale.—Chicago Tribune The strongest weapon against pandemic is the truth. Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, *The Great Influenza* provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart. At the height of World War I, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-

four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease.

Designing Babies Robert Klitzman, 2019 Since the first test tube baby was born over 40 years ago, In Vitro Fertilization and other Assisted Reproductive Technologies (ARTs) have advanced in extraordinary ways, producing millions of babies. An estimated 20% of American couples use infertility services to help them conceive, and that number is growing. Such technologies permit thousands of people, including gay and lesbian couples and single parents, to have offspring. Couples can now transmit or avoid passing on certain genes to their children, including those for chronic disease and, probably sometime soon, height and eye color as well. Prospective parents routinely choose even the sex of their future child and whether or not to have twins. The possibilities of this rapidly developing technology are astounding-especially in the United States, where the procedures are practically unregulated and a large commercial market for buying and selling human eggs is swiftly growing. New gene-editing technology, known as CRISPR, allows for even more direct manipulation of embryos' genes. As these possibilities are increasingly realized, potential parents, doctors, and policy-makers face complex and critical questions about the use-or possible misuse-of ARTs. *Designing Babies* confronts these questions, examining the ethical, social, and policy concerns surrounding reproductive technology. Based on in-depth interviews with providers and patients, Robert Klitzman explores how individuals and couples are facing quandaries of whether, when, and how to use ARTs. He articulates the full range of these crucial issues, from the economic pressures patients face to the moral and social challenges they encounter as they make decisions which will profoundly shape

the life of their offspring. In doing so, he reveals the broader social and biological implications of controlling genetics, ultimately arguing for closer regulation of procedures which affect the lives of generations to come and the future of our species as a whole.

The Truth About COVID-19 Joseph Mercola, Ronnie Cummins, 2021-04-29 USA Today, Wall Street Journal, and Publishers Weekly National Bestseller “An eloquent, charismatic, and knowledgeable [critique] of a corrupt system.”—Robert F. Kennedy, Jr., from the foreword “Dr. Mercola is a visionary, pioneer, and leader.”—Del Bigtree, host of The Highwire Multiple New York Times best-selling author Dr. Joseph Mercola and Ronnie Cummins, founder and director of the Organic Consumers Association, team up to expose the truth—and end the madness—about COVID-19. Through vigorous research, over 500 references to peer-reviewed scientific journal articles, official government statistics, and public health research findings from around the world, the authors lay bare the urgent need for a global awakening. It is time to come together, demand the truth, and take control of our health. *The Truth About COVID-19* is your invitation to join Dr. Mercola and Cummins as they educate and organize for a healthy, equitable, democratic, and regenerative future. *The Paperback Edition is Updated with a New Preface by Dr. Mercola* Phenomenal . . . required reading for this time in our lives.—Shawn Stevenson, host of The Model Health Show “Dr. Merola has changed the way we think about health.”—Dave Asprey, New York Times bestselling author and host of Bulletproof Radio

The Transgender Phenomenon Richard Ekins, Dave King, 2006-10-23 Dave King and Richard Ekins are the leading world sociologists in this field. The book brings together a brilliant synthesis of history, case studies, ideas and positions as they have emerged over

the past thirty years, and brings together a rich but always grounded account of this field, providing a state of the art of critical concepts and ideas to take this field further during the twenty first century. - Ken Plummer, University of Essex An outstanding survey of the evolution of trans phenomena, splendidly written, highly informative, scholarly at its best, yet easy to read even for those neither trans nor sociologist. Ekins and King, experts in the field, unroll the panoramas of sex, gender, and transgending that have evolved during the last decades. For everyone wanting to understand the interaction of women and men and of those who cannot or will not identify with either of these two categories, reading this book is a must, and a real pleasure. - Friedmann Pfaefflin, University of ULM This groundbreaking study sets out a framework for exploring transgender diversity for the new millennium. It sets forth an original and comprehensive research and provides a wealth of vivid illustrative material. Based on two decades of fieldwork, life history work, qualitative analysis, archival work and contact with several thousand cross-dressers and sex-changers around the world, the authors distinguish a number of contemporary transgending 'stories' to illustrate: The binary male/female divide The interrelations between sex, sexuality and gender The interrelations between the main sub-processes of transgending. Wonderfully insightful, The Transgender Phenomenon develops an original and innovative conceptual framework for understanding the full range of the transgender experience.

Healthy Living in Late Renaissance Italy Sandra Cavallo, Tessa Storey, 2013-11 Explores in detail the efforts made by men and women in late Renaissance Italy to stay healthy and prolong their lives.

Venice Incognito James H. Johnson, 2017-01-10 The entire town is disguised, declared

a French tourist of eighteenth-century Venice. And, indeed, maskers of all ranks—nobles, clergy, imposters, seducers, con men—could be found mixing at every level of Venetian society. Even a pious nun donned a mask and male attire for her liaison with the libertine Casanova. In *Venice Incognito*, James H. Johnson offers a spirited analysis of masking in this carnival-loving city. He draws on a wealth of material to explore the world view of maskers, both during and outside of carnival, and reconstructs their logic: covering the face in public was a uniquely Venetian response to one of the most rigid class hierarchies in European history. This vivid account goes beyond common views that masking was about forgetting the past and minding the muse of pleasure to offer fresh insight into the historical construction of identity.
