Inspiration Dormant Silvia González Guirado, Recommended Age: From 12 to 99 years old. A journey to imagination to believe in reality once again. Discover the illustrated novel that has brought inspiration back to youth and adults. There are times in life when sadness takes over, our smile vanishes and melancholy turns our face pale and, somehow, our looks are overcome by a dark gray cloud. Carmesina, the girl who woke up to the forgotten colours, is now a little older if also somewhat less eager, and fading a little. Why so? What can she do pluck up courage and pick up the paintbrushes again? More importantly, what can she do to live a full life? Someone's watching her -and all of us- and is about to visit her and invite her along to the realm of tales and imagination. Ready for the journey? *Inspiration dormant: forgotten colours revisited*, is an illustrated novel that picks up where *The Forgotten Colours* left off. If you read the latter, you'll enjoy meeting some of the characters again and getting to know them better. On the other hand, if this is your first journey into the realm of tales and imagination, do not worry, just let yourself be taken by this universal story in search of inspiration, in order to dream, to imagine and, in one word, to live. _____ Lina Bo Bardi, the Rome-born architect, emigrated after World War Two to Brazil, a country where she undertook her professional career. The outcome of her personal experience and of a wish to get closer to the culture and ways of life of the people, Bo Bardi's creativity moved in the direction of an architecture that prized simplicity, spontaneity, the residual and the ephemeral; an architecture understood as 'an organism suitable for life' which incorporated everydayness and the energy of the people who use it. As a result she used the word 'substances', rather than 'materials', to explain what her architecture was made of. These substances are air, light, nature and art, to which the author, Olivia de Oliveira, adds time. The work of Lina Bo Bardi, then, is presented here via a huge array of previously unpublished drawings, images, writings and projects that enable the reader to grasp in a kaleidoscopic way the power and current importance of her architecture as a critical confrontation with established reality.

A Star to Remember Mal Stevens, 2020-06-11 'The only thing that masked the silent pause in the somewhat loud, hearty chatter of his work mates was the music blaring from 'The Finny' jukebox. Christina Aguilera's 'Candy Man' in full swing as one hundred and fifty pairs of eyes were now focused solely on her.' Indianna Waters is a country girl at heart just trying to survive in the City. So when she announces to her friends one day that she will be heading to Outback WA to work as a Remote Area Nurse, no-one bats an eyelid. Indianna's new home will be a remote Indigenous community of 400 people, about ten hours drive from Port Hedland, out past Karijini National Park and near the Western Australian border. A short-term, single-post nursing opportunity, where the food truck comes once a fortnight, and the Doctor, once a month! Fortunately, Indianna is made of the tough stuff, on the outside that is. On the inside, regrets of her past are eating her up inside. She needs to do something to right the wrongs and to prove herself. Nursing a Western Australian remote Indigenous community could have been just what the Doctor ordered, if only tall, dark and intense Big Russ hadn't thrown a spanner in the works.

Earth Sound Earth Signal Douglas Kahn, 2013-08-30 *Earth Sound Earth Signal* is a study of energies in aesthetics and the arts, from the birth of modern communications in the nineteenth century to the global transmissions of the present day. Grounded in the Aeolian sphere music that Henry David Thoreau heard blowing in telegraph lines and in the Aelectrosonic sounds of natural radio that Thomas Watson heard in telephone lines, the book moves through the histories of science, media, music, and the arts to the 1960s, when the composer Alvin Lucier worked with the natural electromagnetic sounds present from brainwaves to outer.

The Orient Under the Caliphs Alfred Freiherr von Kremer, 1920 Von Kremer's culture and history of the Orient will be welcome to all English-knowing lovers of Islamic history and culture. Von Kremer still stands unsurpassed. He has had no competitors; he alone occupies the field. His researches patient, laborious, thorough have illumined every aspect of Muslim life. He is the most trustworthy interpreter of the social, political, economic, literary, and legal problems of Islam. The volume before us opens with an account of the death of the Prophet, and the trouble that arose over the question of succession. Faction fought faction. Heavy banks of cloud loomed up menacingly on the political horizon of Arabia. The spirit of tribal faction theretofore checked and kept in restraint asserted itself; and, in its very infancy, Islam was threatened with division, disunion, ruin and disruption. Omar saw the danger, and felt the need of prompt and vigorous action. He did as a practical and sagacious statesman would do. He settled the question of succession at a stroke; and with that the clouds rolled away, and the danger which had confronted Islam was at once averted. -- From <https://www.amazon.co.uk> (Sep. 21, 2016).
