**Mr. Emerson's Revolution** Jean McClure Mudge, 2015-09-11 This volume traces the life, thought and work of Ralph Waldo Emerson, a giant of American intellectual history, whose transforming ideas greatly strengthened the two leading reform issues of his day: abolition and women's rights. A broad and deep, yet cautious revolutionary, he spoke about a spectrum of inner and outer realities—personal, philosophical, theological and cultural—all of which gave his mid-career turn to political and social issues their immediate and lasting power. This multi-authored study frankly explores Emerson's private prejudices against blacks and women while he also publicly championed their causes. Such a juxtaposition freshly charts the evolution of Emerson's slow but steady application of his early neo-idealism to emancipating blacks and freeing women from social bondage. His shift from philosopher to active reformer had lasting effects not only in America but also abroad. In the U.S. Emerson influenced such diverse figures as Thoreau, Whitman, Dickinson and William James, and in Europe Mickiewicz, Wilde, Kipling, Nietzsche, and Camus, as well as many leading followers in India and Japan. The book includes over 170 illustrations, among them eight custom-made maps of Emerson's haunts and wide-ranging lecture itineraries as well as a new four-part chronology of his life placed alongside both national and international events as well as major inventions. **Mr. Emerson's Revolution** provides essential reading for students and teachers of American intellectual history, the abolitionist and women's rights movement—and for anyone interested in the nineteenth-century roots of these seismic social changes.

**Cooper Cars** Doug Nye, 2003 No stone was left unturned in researching this book. This incredibly comprehensive work includes many items from John Cooper's personal records and photo albums, the company's chassis books, as well as 300-plus black-and-white photos and 16 color images. Further unique archival material comes from many of those involved in building the cars and the cars' subsequent owners. Unquestionably regarded as the benchmark work on Cooper, the cars so significant in the development of postwar racing car design. Jim Clark David Tremayne, 2018-07-10 Jim Clark was a genuine sporting hero. He won 25 of his 72 Grands Prix and in the sixties was the yardstick by which every other driver on the starting grid was judged, and by which they judged themselves. Quite simply, Clark was peerless. Stubborn and notoriously indecisive outside the car, he would nervously chew his fingernails, but he was a genius when he got behind the wheel. To many he remains the greatest racing driver of all time, not just because of his fearsome strike rate and the magnitude and manner of his achievements, but also because he remained humble and unspoiled throughout. Published on the 50th anniversary of Clark's death, this book, 20 years in the making, is a deeply detailed look at a complex and compelling character.

*Lost in Wonderland* Augustus Mayhew,2012-11-01 Lost in Wonderland's collection of essays explore

the myths, social climate and architectural tableaux that make Palm Beach like no other place in the world. The island's uncommon melange of English gardens, Tuscan loggias, Venetian staircases, Spanish patios, Bermuda roofs, and Georgian doorways, makes for an incomparable mirage-like grandeur attractive to both Old Money and the latest Kings of Wall Street. Author and lecturer Augustus Mayhew, one of Palm Beach's most popular columnists, offers twenty-one informative and insightful essays, previously published in the Palm Beach Daily News and the New York Social Diary, combined with more than two hundred historical and contemporary photographs, which chronicle the places and personalities that make Palm Beach a quirky blend of fantasy and reality. He presents a unique perspective on the shifting ground between Palm Beach's past as a seasonal resort destination, to its present status as an exclusive residential enclave with a social prism focused on mansions, condominiums and charity balls.

**Angel in Goggles** Randall A. Wells, 2017-10-19 Angels earthly scriptures regard the earth from personal, secular perspectives. Like the Christian Bible, its canon admits a surprising variety of forms and lengths: There are Stories: a fateful lapse of weather-ethics; the conflict between private and public property, the latter including humans drafted into the military. Essays: the endless multiplicity of windows (not to be found in the non-physical, mystical unity of heaven); the problematic relationship between two species (humans and dogs); proprioception (the unappreciated, vital sensation of dueling with gravity); a children's book as an example of earthly art, even to its media. A raffish Travelogue, intermittent, confirms

the world's shape as a sphere. Its counterpoint, also an intermittent series, is a Treasury about the Wells retirement Estate on a ridge of the Blue Ridge Arboretum, cloudatorium, weather- observation-post, lookout vista, and habitat for plants and creatures that include visiting grandson. A concluding Fantasy like a two-person play except that one character can fly with the help of protective eyewear explores the relationship between human and the supposedly divine.

**Fairness** Nissim Francez, 2012-12-06 The main purpose of this book is to bring together much of the research conducted in recent years in a subject I find both fascinating and important, namely fairness. Much of the reported research is still in the form of technical reports, theses and conference papers, and only a small part has already appeared in the formal scientific journal literature. Fairness is one of those concepts that can intuitively be explained very briefly, but bear a lot of consequences, both in theory and the practicality of programming languages. Scientists have traditionally been attracted to studying such concepts. However, a rigorous study of the concept needs a lot of detailed development, evoking much machinery of both mathematics and computer science. I am fully aware of the fact that this field of research still lacks maturity, as does the whole subject of theoretical studies of concurrency and nondeterminism. One symptom of this lack of maturity is the proliferation of models used by the research community to discuss these issues, a variety lacking the invariance property present, for example, in universal formalisms for sequential computing.

**How to be a Victorian** Ruth Goodman, 2013-06-27 TRAVEL BACK IN TIME WITH THE BBC'S RUTH GOODMAN We know what life was like for Victoria and Albert. But what was it like for a commoner - like you or me? How did it feel to cook with coal and wash with tea leaves? Drink beer for breakfast and clean your teeth with cuttlefish? Catch the omnibus to work and do the laundry in your corset? How to be a Victorian is a radical new approach to history; a journey back in time more personal than anything before, illuminating the overlapping worlds of health, sex, fashion, food, school, work and play. Surviving everyday life came down to the gritty details, the small necessities and tricks of living and this book will show you how. \_\_\_\_\_ 'Goodman skilfully creates a portrait of daily Victorian life with accessible, compelling, and deeply sensory prose' Erin Entrada Kelly 'We're lucky to have such a knowledgeable cicerone as Ruth Goodman . . . **My Speed King** Tonia Bern-Campbell, 2002 The love affair between British speed king Donald Campbell and vivacious singer Tonia Bern was one of the great romances of the 20th century. But passion turned to tragedy with the dramatic death of Campbell on Lake Coniston in January 1967, as he attempted to break the world water speed record in his famous jet boat, Bluebird. In this portrait of her love affair and marriage to Campbell, Tonia tells the inside story of her heady lifestyle with Britain's national land and water speed hero. The collision between the two worlds of 1960s jet-set and show-biz promised a fast and furious ride, but their volcanic marriage and the pressures of trying to combine two high-profile careers sometimes took their toll on the relationship. Writing soon after Donald's death, Tonia turned her tremendous sense of personal loss into a vivid evocation of what it was really like to be married to a man with a great lust for love-making and high-speed record-breaking. But it has taken her until now to choose to tell the whole story.

**Formula One** John Smailes, 2021-11-02 Since 1950, fifteen Australians and nine New Zealanders have raced in world championship Formula One, the pinnacle of motor racing. So few drivers make it to Formula One. Ever fewer succeed in the fastest and most challenging four-wheeled sport of all. Now John Smailes, author of the bestselling *Climbing the Mountain*, *Race Across the World*, *Mount Panorama* and *Speed Kings*, gives us the definitive story of our involvement with Formula One, from the pioneer days in the aftermath of World War II, to the championship glory of Brabham, Hulme and Jones, the grit and determination of Mark Webber, and
