**The Yellow Wall-Paper** Charlotte Perkins Gilman,2024-03-21 She has just given birth to their child. He labels her postpartum depression as »hysteria.« He rents the attic in an old country house. Here, she is to rest alone – forbidden to leave her room. Instead of improving, she starts hallucinating, imagining herself crawling with other women behind the room's yellow wallpaper. And secretly, she records her experiences. The Yellow Wall-Paper [1892] is the short but intense, Gothic horror story, written as a diary, about a woman in an attic – imprisoned in her gender; by the story. Charlotte Perkins Gilman's feminist novella was long overlooked in American literary history. Nowadays, it is counted among the classics. CHARLOTTE PERKINS GILMAN (1860-1935), born in Hartford, Connecticut, was an American feminist theorist, sociologist, novelist, short story writer, poet, and playwright. Her writings are precursors to many later feminist theories. With her radical life attitude, Perkins Gilman has been an inspiration for many generations of feminists in the USA. Her most famous work is the short story The Yellow Wall-Paper [1892], written when she suffered from postpartum psychosis.

**Herland Illustrated** Charlotte Perkins Gilman,2018-10-13 Herland is a utopian novel from 1915, written by feminist Charlotte Perkins Gilman. The book describes an isolated society composed entirely of women, who reproduce via parthenogenesis (asexual reproduction). The result is an ideal social order: free of war, conflict, and domination. It was first published in monthly installments as a serial in 1915 in The Forerunner, a magazine edited and written by Gilman between 1909 and 1916, with its sequel, With Her in Ourland beginning immediately thereafter in the January 1916 issue. The book is often considered to be the middle volume in her utopian trilogy; preceded by Moving the Mountain (1911), and followed by, With Her in Ourland (1916). It was not published in book form until 1979.

**Virtue Hoarders** Catherine Liu,2021-01-26 A denunciation of the credentialed elite class that serves capitalism while insisting on its own progressive heroism Professional Managerial Class (PMC) elite workers labor in a world of performative identity and virtue signaling, publicizing an ability to do ordinary things in fundamentally superior ways. Author Catherine Liu shows how the PMC stands in the way of social justice and economic redistribution by promoting meritocracy, philanthropy, and other self-serving operations to abet an individualist path to a better world. Virtue Hoarders is an unapologetically polemical call to reject making a virtue out of taste and consumption habits. Forerunners: Ideas First is a thought-in-process series of breakthrough digital publications. Written between fresh ideas and finished books, Forerunners draws on scholarly work initiated in notable blogs, social media, conference plenaries, journal articles, and the synergy of academic exchange. This is gray literature publishing: where intense thinking, change, and speculation take place in scholarship.

*The Thriving Adolescent* Louise L. Hayes,Joseph V. Ciarrochi,2015-11-01 Adolescents face unique pressures and worries. Will they pass high school? Should they go to college? Will they find love? And what ways do they want to act in the world? The uncertainty surrounding the future can be overwhelming. Sadly, and all too often, if things don't go smoothly, adolescents will begin labeling themselves as losers, unpopular, unattractive, weird, or dumb. And, let's not forget the ubiquitous 'not good enough' story that often begins during these formative years. These labels are often carried forward throughout life. So what can you do, now, to help lighten this lifelong burden? The Thriving Adolescent offers teachers, counselors, and mental health professionals powerful techniques for working with adolescents. Based in proven- effective acceptance and commitment therapy (ACT), the skills and tips outlined in this book will help adolescents and teens manage difficult emotions, connect with their values, achieve mindfulness and vitality, and develop positive relationships with friends and family. The evidence-based practices in this book focus on developing a strong sense of self, and will give adolescents the confidence they need to make that difficult transition into adulthood. Whether it's school, family, or friend related, adolescents experience a profound level of stress, and often they lack the psychological tools to deal with stress in productive ways. The skills we impart to them now will help set the stage for a happy, healthy adulthood. If you work with adolescents or teens, this is a must-have addition to your professional library.

**The Art of the Fold** Hedi Kyle,Ulla Warchol,2018-10-02 The influential artist Hedi Kyle and renowned architecture graduate Ulla Warchol shows you how to create their unique designs using folding techniques. From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all – Sew magazine A wonderful insight into the work of a truly skilled artist – PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in The Art of the Fold. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, The Art of the Fold is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of The Art of the Fold attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

*Peepshows* Richard Balzer,1998 Long before the movies were created, peepshows were appealing to a public eager for entertainment and enlightenment. The peepshowman and his box were a common sight on bustling city streets and quiet village greens. He attracted a crowd with music, animals, puppets, and clever patter and then might offer a view of a famous battle scene or a glimpse of a storied landscape, a stroll through the public squares of distant capitals or a peek at a fabled monument. Such views could challenge the boundaries of ordinary life, and satisfy a growing hunger for information. Peepshows: A Visual History offers the reader a rich sense of the history of this mysterious and magical box. The book includes nearly 200 annotated images, many never before published.

*Psycho-Cybernetics (Updated and Expanded)* Maxwell Maltz,2022-09-08 The landmark self-help bestseller that has inspired and enhanced the lives of more than 30 million readers. In this updated edition, with a new introduction and editorial commentary by Matt Furey, president of the Psycho-Cybernetics Foundation, the original 1960 text has been annotated and amplified to make Maxwell Maltz's message even more relevant for the contemporary reader. Maltz was the first researcher and author to explain how the self-image (a term he popularized) has complete control over an individual's ability to achieve, or fail to achieve, any goal. He developed techniques for improving and managing self-image visualization, mental rehearsal and relaxation which have informed and inspired countless motivational gurus, sports psychologists, and self-help practitioners for more than sixty years. Rooted in solid science, the classic teachings in Psycho-Cybernetics continue to provide a prescription for thinking and acting that lead to life-enhancing, quantifiable results.

**Lunar Outfitters** Bill Ayrey,2023-11-14 A fascinating behind-the-scenes history of a vital component of the space program, this book goes inside the suit that made it possible for human beings to set foot on the Moon. Bill Ayrey, longtime space suit test engineer at ILC Dover, draws on original files and photographs to tell the dramatic story of the company's role in the Apollo Program.

*The Secret of Running* Hans van Dijk,Ron van Megan,2017-05-01 How much power does your human engine have? How much power do you need for running in different conditions? How can you optimize your training and racing performance? How can you use power meters to improve your results? What are the ultimate limits of human performance? The Secret of Running answers all of these questions. All factors determining the performance in running (from 800-meter race to marathon) are explained step by step: training, nutrition, body weight, running form, wind, hills, temperature, running gear, power meters and much more. Written in a crystal-clear and lively style, this book is a wealth of information for every ambitious runner. This title also contains brand new insights on how the balance of the power of your human engine and the power requirement for running in different conditions determines your performance. It shows how power meters can be used to optimize your training, running economy and race result. This book is lavishly illustrated and packed with useful data. Being already a bestseller in the Netherlands and Belgium, The Secret of Running can be considered the ultimate textbook for all serious runners and their coaches.

**Manifest Injustice** Barry Siegel,2013-01-22 In this remarkable legal page-turner, Pulitzer Prize-winning journalist Barry Siegel recounts the dramatic, decades-long saga of Bill Macumber, imprisoned for thirty-eight years for a double homicide he denies committing. In the spring of 1962, a school bus full of students stumbled across a mysterious crime scene on an isolated stretch of Arizona desert: an abandoned car and two bodies. This brutal murder of a young couple bewildered the sheriff 's department of Maricopa County for years. Despite a few promising leads—including several chilling confessions from Ernest Valenzuela, a violent repeat offender—the case went cold. More than a decade later, a clerk in the sheriff 's department, Carol Macumber, came forward to tell police that her estranged husband had confessed to the murders. Though the evidence linking Bill Macumber to the incident was questionable, he was arrested and charged with the crime. During his trial, the judge refused to allow the confession of now-deceased Ernest Valenzuela to be admitted as evidence in part because of the attorney-client privilege. Bill Macumber was found guilty and sentenced to life in prison. The case, rife with extraordinary irregularities, attracted the sustained involvement of the Arizona Justice Project, one of the first and most respected of the non-profit groups that represent victims of manifest injustice across the country. With more twists and turns than a Hollywood movie, Macumber's story illuminates startling, upsetting truths about our justice system, which kept a possibly innocent man locked up for almost forty years, and introduces readers to the generations of dedicated lawyers who never stopped working on his behalf, lawyers who ultimately achieved stunning results. With precise journalistic detail, intimate access and masterly storytelling, Barry Siegel will change your understanding of American jurisprudence, police procedure, and what constitutes justice in our country today.

**The Negro Motorist Green Book** Victor H. Green, The idea of The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Change Agility Jason Little,2020-10-14 Changing our organizations is hard, and changing how we think about change is even harder. We all fall in love with the first successful approach for change that we use, and once it stops working for us, it's tough to change how we approach change.While we love chasing the next big change method, framework, or playbook, history has shown those flash-in-the-pan ideas render themselves obsolete as the world of business evolves leaving us chasing our tails for the next set of best practices.Who you are and the attitude you bring towards changing your organization is vastly more important than the method, framework, or playbook you pick. This book will help you with three things: -How you can transform how you manage change work.-How you can transform how you think about change.-How you can transform how you work with agile teams.Sounds like magic, doesn't it? Unfortunately, it's not, it's hard work, and it's up to you. Traditional change management has focused on making other people change their behaviour to ensure successful change. Maybe the problem is that we're looking at change through the wrong lens. This book will help you look at change through the lens of true agility. True agility is timeless and based on the values and principles of the agile manifesto. You'll be sorely disappointed if you expect to see a fancy looping diagram or a set of recipes that tell you they'll ensure maximum ROI and change success. Oh, and you won't see any bullshit statements like that in the book either.What you will find is plenty of stories, insightful tips, and practical actions based on my 20 years of experience working as a product owner, scrum master, agile team member, change manager, internal and external agile coach, and organizational change agent. Above that, you'll get connected to a global community of change agents sharing their ideas and stories about how they facilitated meaningful change.Being more agile in change management is about you. It's about you taking the time to challenge your assumptions and beliefs. The day I learned how to change my views on change was the day my happiness level being a change agent skyrocketed and I hope this book inspires you down the path of facilitating meaningful change.

**Understanding Media** Marshall McLuhan,2016-09-04 When first published, Marshall McLuhan's Understanding Media made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

**Moving the Mountain** Charlotte Perkins Gilman,2023-06-06 ‘Moving the Mountain’ (1911) is a novel by American feminist and writer, Charlotte Gilman. It is the first book of her classic utopian feminist trilogy that includes ‘Herland’ (1915) and ‘With Her in Our Land’ (1916). After suffering from memory loss due to an accident during his trip to Tibet at the age of 25, John Robertson is eventually found by his sister Nellie thirty years later. She helps him recover his memory, but on returning home to America, John is shocked to discover that much has changed and women are now emancipated. Can he learn to accept equality of the sexes and

that the misogynist views of his youth no longer exist? Readers looking for a utopian twist on Margaret Atwood's 'The Handmaid's Tale' will love 'Moving the Mountain'! Charlotte Perkins Gilman, also known as Charlotte Perkins Stetson (1860-1935), was an American feminist, writer, publisher and advocate for social reform. She wrote novels, short stories, poetry, and nonfiction, and has served as a role model for future generations of feminists. She is best remembered for her semi-autobiographical short story, 'The Yellow Wallpaper' (1899), which she wrote after suffering a severe bout of post-childbirth depression. Other notable works include her feminist utopian trilogy, 'Moving the Mountain' (1911), 'Herland' (1915), and 'With Her in Our Land' (1916). Gilman also published a collection of poems addressing women's issues, called 'In This Our World' (1993).

Performing the Gospels in Byzantium Roland Betancourt,2021-05-13 Tracing the Gospel text from script to illustration to recitation, this study looks at how illuminated manuscripts operated within ritual and architecture. Focusing on a group of richly illuminated lectionaries from the late eleventh century, the book articulates how the process of textual recitation produced marginalia and miniatures that reflected and subverted the manner in which the Gospel was read and simultaneously imagined by readers and listeners alike. This unique approach to manuscript illumination points to images that slowly unfolded in the mind of its listeners as they imagined the text being recited, as meaning carefully changed and built as the text proceeded. By examining this process within specific acoustic architectural spaces and the sonic conditions of medieval chant, the volume brings together the concerns of sound studies, liturgical studies, and art history to demonstrate how images, texts, and recitations played with the environment of the Middle Byzantine church.

**Sustainable Urban Agriculture in Cuba** Sinan Koont,2016-12-07 "Pushed by necessity but enabled by its existing social and educational policies, Cuba in the 1990s launched the most extensive program of urban sustainable agriculture in the world. This study is to date the only book-length investigation in either English or Spanish of this important national experiment in transforming the environmental, economic, and social nature of today's dominant system of producing food."—Al Campbell, University of Utah As large-scale industrial agriculture comes under increasing scrutiny because of its petroleum- and petrochemical-based input costs and environmentally objectionable consequences, increasing attention has been focused on sustainable, local, and agro-ecological techniques in food production. Cuba was forced by historical circumstances to be one of the pioneers in the massive application of these techniques. After the demise of the Soviet Union in the early 1990s, Cuba was left without access to external support needed to carry on with industrial agriculture. The economic crisis led the country to reconsider their former models of resource management. Cuba retooled its agricultural programs to focus on urban agriculture—sustainable, ecologically sound farming close to densely populated areas. Food now takes far less time to get to the people, who are now better nourished because they have easier access to whole foods. Moreover, urban farming has become a source of national pride—Cuba has one of the best urban agriculture programs in the world, with a thousand-fold increase in urban agricultural output since 1994. Sinan Koont has spent the last several years researching urban agriculture in Cuba, including field work at many sustainable farms on the island. He tells the story of why and how Cuba was able to turn to urban food production on a large scale with minimal use of chemicals, petroleum, and machinery, and of the successes it achieved—along with the continuing difficulties it still faces in reducing its need for food imports. Sinan Koont is associate professor of economics at Dickinson College. A volume in the series Contemporary Cuba, edited by John M. Kirk
