Frank Lloyd Wright's Fallingwater Donald Hoffmann,1993-01-01 Traces the complicated development of Frank Lloyd Wright's Fallingwater, including planning, site selection, and construction

Frank Lloyd Wright's Forgotten House Nicholas D. Hayes,2021-04-27 Frank Lloyd Wright's foray into affordable housing--the American System-Built Homes--is frequently overlooked. When Nicholas and Angela Hayes became stewards of one of them, they began to unearth evidence that revealed a one-hundred-year-old fiasco fueled by competing ambitions and conflicting visions that eventually gave way to Wright's most creative period.

Frank Lloyd Wright's Dana House Donald Hoffmann,2013-10-01 Handsome pictorial essay documents creation of residential masterpiece with more than 160 interior and exterior photos, plans, elevations, sketches, and studies. Informative text recounts the house's history, including its site, plans, and construction.

Frank Lloyd Wright Alan Hess,2007 The mid-twentieth century was one of the most productive and inventive periods in Frank Lloyd Wright's career, producing such masterworks as the Guggenheim Museum, Price Tower, Fallingwater, the Usonian Houses, and the Lovness House, as well as a vast array of innovative furniture and object design. With a wide variety of shapes and forms-ranging from honeycombs to spirals-this period defies simplistic definition. Simplicity, democratic designs, and organic forms

characterize Mid-Century Modern, and, mentoring such mid-century talents as Richard Neutra and Rudolph Schindler among others, Wright was one of its most influential proponents. Frank Lloyd Wright: Mid-Century Modern is a comprehensive examination of an under-explored period in Wright's career, a time dating from roughly 1935 to 1958, during which this master architect was at his most daring and innovative.--Jacket

Frank Lloyd Wright's Hollyhock House Donald Hoffmann, 2011-10-14 Lavishly illustrated study recounts the turbulent history of one of Wright's most imaginative and controversial residential designs. More than 120 black-and-white images complement this perceptive account of the building's design and construction.

Growing Up in a Frank Lloyd Wright House Kim Bixler, 2012-10-18 Kim Bixler's family owned Frank Lloyd Wright's 1908 Edward E. Boynton House in Rochester, New York from 1977-1994. Growing Up in a Frank Lloyd Wright House recounts the joys and pitfalls of owning a Wright-designed home. The tumultuous history of the house is recounted through interviews with former and current owners. Living with the public's curiosity, playing hide-and-seek, coping with the habitually leaky roof, and managing constant renovations make this an unforgettable story.

Frank Lloyd Wright Home and Studio, Oak Park Elaine Harrington, Frank Lloyd Wright, 1996 It was in his home in Oak Park that Frank Lloyd Wright made his first contributions to the Modern movement. In 1889 he designed the first

part of the house, in 1895 he added to it for his wife, Catherine, and their family, and in 1898 for his architectural practice. The entire building was a learning laboratory of modern architecture. While not a Prairie School house, it led to the development of the Prairie School. Wrights constant changes to this complex paralleled the evolution of his early architectural work and career. There, with his young assistants, he rethought the plan, spaces, materials, proportions, and lines of American residential architecture, creating a revolution on the Prairie. His home and studio provided the architectural environment in which to experiment with his ideas in three dimensions. The house featured contemporary art work, oriental tribal rugs, and Japanese decorative arts chosen by Wright and his wife. The studio was decorated with classical plaster sculpture, Teco ceramics and selections from Wrights large collection of Japanese prints. Wright completed the interiors, toned in natures hues, with furniture and built-in furnishings of his own design, harmonious to the whole. The colour photographs of Jon Miller of Hedrich-Blessing show a glimpse into Wrights first haven, where he challenged prevailing notions about the countrys architecture, and which he then left, to continue as one of Americas most significant architects. Included in the book is a portfolio of historic black and white photographs of the building, a number of them taken by Wright himself.

Frank Lloyd Wright's Fifty Views of Japan Melanie Birk, Frank Lloyd Wright Home and Studio Foundation, 1996 This book is filled with rare images showing

Frank Lloyd Wright the photographer as well as Wright the tourist, the architect, and the collector.

"*At Taliesin*" Frank Lloyd Wright, 1992 Collects newspaper columns written by Wright and his assistants on their work and their ideas.

The House Beautiful William Channing Gannett, 1895

Frank Lloyd Wright's House Beautiful Diane Maddex, 2000 Illustrates features that have become Wright's signatures, from open plans to sheltering roofs.

Frank Lloyd Wright's Taliesin West Ezra Stoller, 2000-01-01 The Building Blocks series presents icons of modern architecture as interpreted by Ezra Stoller, whose photography has defined the way postwar architecture has been viewed by architects, historians, and the public at large. Taken just after the completion of each project, these photographs provide a unique historical record of the buildings in use, documenting people, fashions, and furnishings of the period.

Wright in Racine, 2004 Racine, Wisconsin, which celebrates its role as invention city, welcomed the architectural innovations of Frank Lloyd Wright and is now the site of many examples of Wright's designs of private homes and public structures. Hertzberg, photography director at the Racine Journal Times, has created a history of Wright's work in Racine using photograph

The Decorative Designs of Frank Lloyd Wright David A. Hanks, Frank Lloyd Wright, Renwick Gallery, 1999-01-01 Determined to create a completely

integrated environment, Wright designed not only buildings, but furnishings, fixtures, appliances, decorative items and more. Noted architectural and design authority David Hanks has provided an informative, insightful text, along with over 200 line drawings and photos. 219 black-and-white illus. 24 in full color. New preface by the author.

Frank Lloyd Wright's Hardy House, 2006 Built on a bluff near Racine, Wisconsin in 1906, the Thomas P. Hardy House is one of architect Frank Lloyd Wright's most admired residential buildings. In this volume, photojournalist Hertzberg combines text and pictures in a tour of this unusual home, which has come to be regarded as an icon of modern design. Hertzberg is also the author of *Wright*

"Ausgeführte Bauten" of 1911 Frank Lloyd Wright, 1982-01-01 207 rare photos of Oak Park period, first great buildings: Unity Temple, Dana house, Larkin factory, more. Complete photos of Wasmuth edition. New Introduction.

This American House Jason Loper, Michael Schreiber, 2021 Long before designing his signature Usonian houses, Frank Lloyd Wright envisioned an earlier series of affordable models for the middle class: The American System-Built Homes. He developed seven floorplans of varying size and layout, standardized so that materials could be precut at the factory to reduce costs. Only a few years after the project began, the United States entered World War I, and all home construction was stalled due to lumber shortages. Wright then turned his attention to other projects, and with fewer than

twenty built, the American System-Built Homes were all but forgotten. In 2011, Jason Loper and Michael Schreiber purchased the only American System-Built Home constructed in Iowa, the Meier House, which set them on a course of refurbishing and researching their new residence. In *This American House*, Loper and Schreiber trace the history of the Meier House through its previous owners, and shed light on this underexplored period of Wright's oeuvre. With a preface by John H. Waters, the Preservation Programs Manager of the Frank Lloyd Wright Building Conservancy, *This American House* addresses what it means to be the stewards of a piece of history.

Frank Lloyd Wright: The Houses, 2005-11-01 Frank Lloyd Wright is not only synonymous with architecture, his name is also synonymous with the American house in the twentieth century. In particular, his residential work has been the subject of continuing interest and controversy. Wright's Fallingwater (1935), the seminal masterpiece perched over a waterfall deep in the Pennsylvania highlands, is perhaps the best-known private house in the history of the world. In fact, Wright's houses—from his Prairie style Robie House (1906) in Chicago, to the Storer (1923) and Freeman (1923) houses in Los Angeles, and Taliesin West (1937) in the Arizona desert—are all touchstones of modern architecture. For the first time, all 289 extant houses are shown here in exquisite color photographs. Along with Weintraub's stunning photos and a selection of floor plans and archival images, the book includes text and essays by several leading Wright scholars. Frank Lloyd

Wright: The Houses is an event of great importance and a major contribution to the literature on this titan of modern architecture.
