Atomic Bomb Cinema Jerome F. Shapiro, 2013-05-13 Unfathomably merciless and powerful, the atomic bomb has left its indelible mark on film. In *Atomic Bomb Cinema*, Jerome F. Shapiro unearths the unspoken legacy of the bombing of Nagasaki and Hiroshima and its complex aftermath in American and Japanese cinema. According to Shapiro, a Bomb film is never simply an exercise in ideology or paranoia. He examines hundreds of films like *Godzilla*, *Dr. Strangelove*, and *The Terminator* as a body of work held together by ancient narrative and symbolic traditions that extol survival under devastating conditions. Drawing extensively on both English-language and Japanese-language sources, Shapiro argues that such films not only grapple with our nuclear anxieties, but also offer signs of hope that humanity is capable of repairing a damaged and divided world.

Vintage Tomorrows James H. Carrott, Brian David Johnson, 2013-02-11 What would today's technology look like with Victorian-era design and materials? That's the world steampunk envisions: a mad-inventor collection of 21st century-inspired contraptions powered by steam and driven by gears. In this book, futurist Brian David Johnson and cultural historian James Carrott explore steampunk, a cultural movement that's captivated thousands of artists, designers, makers, hackers, and writers throughout the world. Just like today, the late 19th century was an age of rapid

technological change, and writers such as Jules Verne and H.G. Wells commented on their time with fantastic stories that jumpstarted science fiction. Through interviews with experts such as William Gibson, Cory Doctorow, Bruce Sterling, James Gleick, and Margaret Atwood, this book looks into steampunk's vision of old-world craftsmen making beautiful hand-tooled gadgets, and what it says about our age of disposable technology. Steampunk is everywhere—as gadget prototypes at Maker Faire, novels and comic books, paintings and photography, sculptures, fashion design, and music. Discover how this elaborate view of a history that never existed can help us reimagine our future.

The Strain Guillermo Del Toro, Chuck Hogan, 2010-06-29 In one week, Manhattan will be gone. In one month, the country. In two months . . . the world. At New York's JFK Airport an arriving Boeing 777 taxiing along a runway suddenly stops dead. All the shades have been drawn, all communication channels have mysteriously gone quiet. Dr. Eph Goodweather, head of a CDC rapid-response team investigating biological threats, boards the darkened plane . . . and what he finds

makes his blood run cold. A terrifying contagion has come to the unsuspecting city, an unstoppable plague that will spread like an all-consuming wildfire—lethal, merciless, hungry . . . vampiric. And in a pawnshop in Spanish Harlem an aged Holocaust survivor knows that the war he has been dreading his entire life is finally here . . .

A Night in the Lonesome October Roger Zelazny, 2017-09-21 One of Zelazny's most delightful books: Jack the Ripper's dog Snuff narrates a mad game of teams to cause or prevent armageddon. NEIL GAIMAN All is not what it seems. In the murky London gloom, a knife-wielding gentleman named Jack prowls the midnight streets with his faithful watchdog Snuff - gathering together the grisly ingredients they will need for an upcoming ancient and unearthly rite. For soon after the death of the moon, black magic will summon the Elder Gods back into the world. And all manner of Players, both human and undead, are preparing to participate. Some have come to open the gates. Some have come to slam them shut. And now the dread night approaches - so let the Game begin. Praise for *A Night in the Lonesome October*: “. . . this book is unique; the premise, Zelazny's writing and the atmosphere conjured up are something very special indeed.” “A geek fest extraordinaire with huge wit, warmth and intelligence.” “An absolute gem - how can you not to like something written from the perspective of Jack the Ripper's super-intelligent dog?! An outstanding example of truly original fiction.” “This is pure brilliance . . . Highly recommended.” Editorial reviews: “The last great novel by one of the giants of the genre.” George R.R. Martin “A madcap blend of horror tropes and fantasy. . . There aren't many authors who would set out to write a novel in which the Wolfman and Jack the Ripper were the two heroes . . . And I'm not sure anyone else could have made it work.” *Science Fiction Chronicle* “Sparkling, witty, delightful. Zelazny's best for ages, perhaps his best ever.” *Kirkus Reviews* “A cheerful, witty, well-crafted fantasy . . . Its deft, understated good humor

and spare, poetic prose reaffirm Zelazny as one of fantasy's most skilled practitioners." Publishers Weekly

Double Dead Chuck Wendig, 2011-11-15 In the Zombie apocalypse the last vampire on Earth has a hell of time keeping his food alive... A Vampire In Zombieland Coburn's been dead now for close to a century, but seeing as how he's a vampire and all, it doesn't much bother him. Or at least it didn't, not until he awoke from a forced five-year slumber to discover that most of human civilization was now dead - but not dead like him, oh no. See, Coburn likes blood. The rest of the walking dead, they

like flesh. He's smart. Them, not so much. But they outnumber him by about a million to one. And the clotted blood of the walking dead cannot sustain him. Now he's starving. And on the run. And more pissed-off than a beestung rattlesnake. The vampire not only has to find human survivors (with their sweet, sweet blood), but now he has to transition from predator to protector - after all, a man has to look after his food supply.
