The Bad Tempered Gardener Anne Wareham, 2011-05-01

Seeing gardening as a serious and even outrageous art form has placed Anne Wareham well outside of what usually passes for discussion of gardens. Impatient with received ideas, eager to provoke, *The Bad-Tempered Gardener* is the story of her development as a thinking gardener and the creation with her husband, Charles Hawes, of their acclaimed garden in the Welsh borders, the Veddws. From the strange (plant obsessives, a bizarre debut as a television presenter) to the everyday (deadheading, sharing a garden), with frequent paeans to favourite plants and thoughtful pieces on show gardens and status, this is an intelligent, pugnacious and engaging book. It also unflinchingly conveys the challenges, the hard work, triumphs and failures behind the creation and development of a substantial contemporary garden.

Herbal Adventures Rachel Jepson Wolf, 2018-10-23 Discover the flavors and uses of common wild plants with this herbalist guide featuring recipes and tips on foraging right outside your door. When we think of wild plants with medicinal or culinary benefits, we typically think of something exotic and obscure. But many of the plants growing in our own neighborhoods can be just as useful and tasty as anything sold in a health food store. In *Herbal Adventures*, herbalist Rachel Wolf reveals the properties and uses of ten common plants—including chickweeds, dandelions, catnip and others. With the tips and recipes in this book, you can enjoy delicious homemade soda, flower petal pancakes, chickweed pesto, or your own herbal tea. Plus you'll be able to make a soothing balm for cuts and scrapes, syrup to quiet your cough, a rejuvenating herbal hair rinse, and much more! A real gem . . . a perfect beginners' book no matter your age.

essential vegetables and herbs, ecological tips, and fun and creative projects Growing food in your backyard (or even on a porch or windowsill!) is one of the simplest and most rewarding ways to nourish yourself, be self-sufficient, and connect with nature in a hands-on way. Here sustainability expert Julia Watkins shares everything you need to know to grow your own vegetables, fruits, and herbs (as well as wildflowers and other beneficial companion plants). The book covers all the nuts and bolts of creating and caring for your garden—planning, building, planting, tending, and harvesting—followed by a deeper dive into the plants themselves: demystifying annuals vs. perennials, cold-weather vs. warm-weather veggies, and profiles of favorite crops. Throughout, Julia offers tips for creating an eco-friendly and sustainable garden (such as vermicomposting, no-till “lasagna” gardening, and attracting pollinators), plus some fun and unexpected hands-on projects like how to build a bean teepee, make wildflower seed paper, and enjoy refreshing herbal lemonade ice pops.

And if you have a Cricut Maker, you can easily cut out the shapes from templates you download for free on Lia Griffith's website using a code.
