Phil Hill Phil Hill,2010 America's first World Champion Phil Hill drove an astonishing variety of cars and gave his firsthand impressions in his work for Road & Track magazine. This book gathers some of the best material Hill produced with his great friend and colleague, photographer John Lamm. In addition to providing the lush photography Lamm edited the book and introduces each story to provide context. Beginning with the world's first car-the 1886 three-wheel Benz-Hill reviews road cars such as the 1915 Packard and Jaguar XK120, and a great range of race cars, from a Bugatti Type 51 and Auto Union D type, to the ill-fated ATS Grand Prix car and Dale Earnhardt's NASCAR Chevrolet Monte Carlo. Equally gifted as a mechanic as well as a driver, Hill's experience combines to provide insights

that only he could offer into each car's particular technical innovations and driving characteristics. The book also features examples of Hill's tributes to men in racing, with reminiscences of Juan Fangio and Olivier Gendebien on the occasions of their deaths, and penetrating character sketches of Dan Gurney, Stirling Moss, and Jim Hall. Hill knew and raced with them all. Through the humor and intelligence of Hill's writing we not only learn great deal about cars and drivers, we also learn a lot about Hill himself-what he valued and how he thought- which adds enormously to our enjoyment.

Formula One John Smailes,2021-11-02 Since 1950, fifteen Australians and nine New Zealanders have raced in world championship Formula One, the pinnacle of motor racing. Three - Jack Brabham, Denny Hulme and Alan Jones - have won the world title. Two have died in the attempt without ever

facing the world championship starters' lights. So few drivers make it to Formula One. Ever fewer succeed in the fastest and most challenging four-wheeled sport of all. Now John Smailes, author of the bestselling *Climbing the Mountain*, *Race Across the World*, *Mount Panorama* and *Speed Kings*, gives us the definitive story of our involvement with Formula One, from the pioneer days in the aftermath of World War II, to the championship glory of Brabham, Hulme and Jones, the grit and determination of Mark Webber, and Australia's current Formula One star, the irrepressible Daniel Ricciardo, all the way to potential champions of the future like Oscar Piastri. With over 150 stunning photographs, and interviews with drivers past and present, as well as the engineers, managers and team owners behind the scenes, this is the must-have book for every Australian and New Zealand fan of Formula One.

Motor Racing – Reflections of a Lost Era Anthony Carter, 2015-02-13 The British motorsport scene has always been renowned for brave innovation and this was certainly the case during the exciting time described by this book. An enthusiast's reflective pot-pourri, in words and intimate paddock scenes, photographed in black and white and color beginning from the mid-1950s and through the

1960s, when motor racing was still accessible to all, and, finally the 1970s when overt sponsorship and television changed the sport forever, a defining era. Illustrated with 300 extensively captioned photos, many previously unpublished. Including continental race circuits, the cars and the personalities.

Team Lotus Andrew Ferguson,2008 Team Lotus took the Indianapolis 500 race by storm between 1963 and 1969. In a race previously dominated by home-grown American cars and drivers, double Formula 1 World Champion Jim Clark scored a stunning victory in 1965, and twice finished second in his Lotus cars powered by Ford engines. Here is the definitive inside story of how – encouraged by the great Dan Gurney – the tiny British Lotus team, headed by Colin Chapman, took aim at an icon of American sporting life and rewrote motor racing history. First published in 1996 and out of print for years.

to chic supercars: discover the most prized possessions of a colorful cast of dedicated collectors, owners, and drivers. This is the tome for any auto enthusiast and it promises to pique curiosities with a tasteful set of wheels and a tantalizing strip of open road.

Grand Prix Cars Denis Jenkinson,2015-10-02 “ In compiling this brief history of Grand Prix racing, along with descriptions of the more successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties – such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes – the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather

than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)
