A Nomadic Art Museum Black Cube, 2020-12-03 This monograph examines the reemergence of site-specific contemporary art in the American West and beyond, as seen through the oeuvre of Black Cube, a nomadic contemporary art museum. A Nomadic Art Museum: Black Cube 2015 - 2020 surveys groundbreaking, site-specific art projects produced by Black Cube during its first five years, which span across the United States and Europe. Through a visual compendium of ambitious, experimental, and momentary artworks, this book explores art in the public realm outside of conventional gallery spaces. The extensive chapters feature over eighty artists and highlight documentation of thirty-five situational art projects that materialize in unusual places like abandoned bus terminals, gold mining towns, iconic modernist chapels, and even cars. This book encompasses five years of the roving museum's collaborative ethos and driving mission—the commitment to venturing into the unknown, realizing artists' bold ideas, and reaching new audiences. In addition to contributions from the institution's Founder, Laura Merage, and Chief Curator, Cortney Lane Stell, A Nomadic Art Museum includes key texts by writers Angella d'Avignon and Paddy Johnson that assess Black Cube's formative years and the significance of site-specific contemporary art in today's world.

Dressed for Thrills Mark Alice Durant, 2002-10 A Whimsical array of ghosts and goblins, spooks and skeletons, animals and nursery-room characters parade through this unparalleled collection of more than one hundred years of American Halloween costumes and masquerade. Photographer Phyllis Galembo approaches her subjects with the delight and wonder of one who has discovered an entire cast of characters backstage in an abandoned theater. Through her lens, the costumes rise from the dead to once again dance, play, and amuse. Ranging from handmade to store-bought, satin to polyester, the masks, wigs, and costumes, whether recognizable figures or obscure, pique our childhood memories. In her celebration of Halloween revelry, Galembo never settles for the ordinary; instead she creates evocative scenes of dressed-to-scare young trick-or-treaters modeling their disguises and of undead spirits haunting their surroundings. The costumes, which span over a century, take on magical qualities through fanciful sets and specialized lighting effects. Accompanying the costumes is a history of this always-popular holiday and essays discussing Galembo's inspirations and techniques. Through her art, Galembo allows us to act out our youthful fantasies of transformation -- to become, or at least observe, what we most want to be: free of inhibitions, of fixed notions of identity. Her images make us laugh and dream and maybe even believe in ghosts. Book jacket.

Shut Up About Your Perfect Kid Gina Gallagher, Patricia Konjoian, 2010-08-03 **AUTHORS' DISCLAIMER:** We are not in any way experts on parenting children with disabilities. Our goal is simply to share strategies that have worked for each of us in the event it may help those in a similar situation. If you're different from us (i.e., you are bright or of the perfect persuasion), we advise you not to try the following at home. On a "perfection-preoccupied planet," sisters Gina and Patty dare to speak up about the frustrations, sadness, and stigmas they face as parents of children with disabilities (one with Asperger's syndrome, the other with bipolar disorder). This refreshingly frank book, which will alternately make you want to tear your hair out and laugh your head off, should be required reading for parents of disabled children. *Shut Up About Your Perfect Kid* provides wise and funny advice about how to: • Find a support group—either online or in your community • Ensure that your child gets the right in-school support • Deal with people—be they friends, family members, or strangers—who say or do insensitive things to you or your child • Find fun, safe, and inclusive extracurricular activities for your child • Battle your own grief and seek professional help if you need it • Keep the rest of the family intact in moments of crisis

Inheritance of Tears Jessalyn Hutto, 2015-03-01 When a woman becomes pregnant, miscarriage is usually the furthest thing from her mind. Such was the case for Jessalyn Hutto when she became pregnant with her first baby. But as is all too common in our post-fall world, the life she carried came to an abrupt end. Death had visited her womb, and the horrors of miscarriage had become a part of her life's story. ••• Ultimately, she would lose two children in the womb, at 6 and 15 weeks gestation. Through these painful losses, a whole new world of suffering opened up to her. It seemed that everywhere she looked women were quietly mourning the loss of their unborn children. Yet this particular type of loss has been grossly overlooked by the church. ••• Couples navigating the unique sorrow of losing a child are often left with little biblical counsel to draw upon. Well-meaning friends and family often offer empty platitudes and Christian clichés. But what these couples truly need is the hope of the gospel. ••• Short, sensitive, and theologically robust, *Inheritance of Tears* offers hope and comfort to those who are called to walk through the painful trial of miscarriage, and shows pastors and church members how to effectively minister to these parents in their time of need.

Mummy Portraits of Roman Egypt Marie Svoboda, Caroline Cartwright, 2020-08-25 This publication presents fascinating new findings on ancient Romano-Egyptian funerary portraits preserved in international collections. Once interred with mummified remains, nearly a thousand funerary portraits from Roman Egypt survive today in museums around the world, bringing viewers face-to-face with people who lived two thousand years ago. Until recently, few of these paintings had undergone in-depth study to determine by whom they were made and how. An international collaboration known as APPEAR (Ancient Panel Paintings: Examination, Analysis, and Research) was launched in 2013 to promote the study of these objects and to gather scientific and historical findings into a shared database. The first phase of the project was marked with a two-day conference at the Getty Villa. Conservators, scientists, and curators presented new research on topics such as provenance and collecting, comparisons of works across institutions, and scientific studies of pigments, binders, and supports. The papers and posters from the conference are collected in this publication, which offers the most up-to-date information available about these fascinating remnants of the ancient world. The free online edition of this open-access publication is available at www.getty.edu/publications/mummyportraits/ and includes zoomable illustrations and graphs. Also available are free PDF, EPUB, and Kindle/MOBI downloads of the book.

The book’s narrative approach makes arts integration accessible and understandable to novice and experts alike. Readers of this new edition will come away with a deeper understanding of why and how to use the arts every day, in every school, to reach every child. Book Features: Explains how arts integration across the K–8 curriculum contributes to student learning.
