Jaguar E-type Factory and Private Competition Cars Peter Griffiths, 2018-08-21 The racing E-type Jaguar emerged from the ambition of both the racing fraternity and Jaguar enthusiasts who wanted to take this iconic British sports car onto the track to see what it would do. With official (and sometimes unofficial) help from the factory, the E-type was continually developed and modified from almost the first week that the first production car left the factory. Recognized the world over, this beautiful aerodynamic car remains as popular today as it was in the 1960s. *Jaguar E-type in Competition* features period photographs and stories from the E-type's early racing days, describes how the cars evolved, and gives details of the lightweights, semi-lightweights and factory specials, the Le Mans cars, the Modsports era, and the replica lightweight racing phenomena. The detailed appendices include lists of cars and drivers, book and magazine references. As the only book in its field to cover every aspect of the E-type's competitive history from 1961 until the present day, the author redresses the balance to detail the 95% of cars usually overlooked. The reader will find hundreds of previously unseen photographs and new information, providing an invaluable source of material for anyone interested in this incredible sports car.

Saving Jaguar John Egan, 2018-07-10 This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

Radar at Sea Derek Howse, 1993-02-09 This book tells in non-technical language how the British Navy contributed to the development of naval radar in World War 2. Addressed to the general reader, it tells not only the technical story in simple terms, but also of the operational use of shipborne radar

at sea - for warning, for fire control, for fighter direction, for navigation, in all theatres of war - and particularly about the people who designed and fitted the equipment, and those who used it at sea.

Streamlined Malte Jürgens,2014 In 2009, the Automuseum 'Prototyp' in Hamburg, Germany, organized a special exhibit in Germany or anywhere else in the world: For two months, 23 streamlined automobiles, the body of a record-setting car, and a revolutionary model wind tunnel, all had their aerodynamic rendezvous there. . . . Naturally, so many streamlined cars together were electrifying. Patricia Scholten, daughter of Paul Pietsch, and the Stuttgart Motorbuch-Verlag which she runs, commissioned the Zurich photographer Michel Zumbrunn, who specializes in classic cars, to photograph this unique exhibition of never-before-shown-together streamlined works of art in his own unique style. . . . This history of the streamlined automobile is not illustrated with the black and white photos of former times, used in the relevant books again and again due to the lack of new images; it is illustrated with a portfolio of photographic art by Zumbrunn and his co-photographer Urs Schmid.--Pages 14-15.

Beyond Temptation Kit Rocha,2014-06-01 Hacker Noah Lennox lives in the shadows, fighting a one-man war against the corrupt leader of Sector Five. The only weak spot in his armor is his best friend's sweet younger sister--the girl he swore to save, even from himself. With her brother dead and a target on their backs, getting her out of the sector--and out of danger--meant giving her up for good. Or so he thought. Emma Cibulski has made her own home in Sector Four, as a full member of the O'Kane gang and apprentice to their infamous tattoo artist. When Noah--the first man she ever loved--stumbles back into her life, it's her chance to have it all. The spark between them burns hotter than ever, and this time her fantasies are far from innocent. But can they handle the heat...or will Noah's dark secrets drive them apart forever?

The Watery Maze Bernard Fergusson,1961 During Britain's darkest hour, in 1940, extraordinary measures were necessary for survival. This bleak period of defense against the Axis led to the formation of Combined Operations, a semi-independent unit composed of admirals, generals, and air marshals. It became Britain's offensive team which, in the end, was instrumental in the successful invasions of North Africa, Sicily, and Normandy. Here

is the complete story of the creation of that unit, beginning with a series of daring raids on the coasts of Norway, France, Africa, and Madagascar. These raids often resulted in great loss of life, but the lessons they taught the command led to dramatic successes. Combined Operations grew up with the war and played a part in the ultimate Allied victory in Europe and also in the Suez campaign of 1956--Taken from the book jacket flap.
