Lotus 18 Mark Whitelock,2016-08-01 In 1960, Colin Chapman sought to identify the most straightforward and uncomplicated way of building a Formula 1 car. The result was his first rear-engined design, the trendsetting Lotus 18. This book charts the 18's competition history, from its inception, up to 1966 – via sensational victories over Ferrari at Monaco and the Nürburgring.

Lotus 18 Ian Wagstaff,2017-11-07 This is the full biography of Stirling Moss' Lotus 18, chassis number 912. It is the car that drove him to two famous Grand Prix victories, first in Monaco and later at the Nurburgring. You'll get the full story on both of these incredible victories. The accounts include Moss' own recollections of the win, and what it was like racing against the likes of Rob Walker. Moss also retells his experience in the German Grand Prix at the Nurburgring, a victory that would mark his last World Championship Formula 1 victory. 912's entire 1961 season, including seven other World Championship F1 races, is cover in immaculate detail, and is presented with over 300 period photographs (many of which have never been published), and a full portfolio of studio photography of this amazing Lotus 18.

Recreational Vehicles Andrew Woodmansey,2022-04-06 Has there ever been a stranger idea in the vehicle world than putting a house on wheels and taking it on holiday? However odd it may seem, it's an idea that has caught on. Today there are 15 million recreational vehicles, or 'RVs', on the roads of Europe, the USA and Australasia. So how did this fascinating family of vehicles come about? Who were the first recreational nomads, what made them want to take to the road just for pleasure and what did the first RVs look like? The wild ideas of RV pioneers around the world led to both streamlined

successes and spectacular failures. This history beautifully illustrates the vehicles and exploits of the early RV mavericks with over 250 period photos of the vehicles, their builders and their owners. It explores the evolution of the RV from its horse-drawn roots through the steam era to the golden age of 1930s caravans and motorhomes. Many rare photos of early RVs were uncovered during the research for this book and are being published for the first time. These photos shed new light on the history of the RV. The RV family is a global one, with six countries in particular having a strong RV heritage - the UK, USA, France, Germany, Australia and New Zealand. In a world first, this history compares the early evolution of RV design and usage in each country. Also featured is an international gallery of RVs adapted for non-recreational purposes. By portraying not just the vehicles but also the trends, people and fashions of the period, this unique RV history reveals the remarkable early days of transport-based tourism and leisure. Andrew Woodmansey's engaging account of the early days of the RV will appeal not only to RV enthusiasts but also to anyone with an interest in how vehicles set us free to roam the world.

Mid-Atlantic American Sports Car Races 1953-1962, 1 Terry O'Neil, 2015-01-24 In 1977, precisely 20 years after the last unforgettable high speed Mille Miglia in 1957, the great race came back to relive its history all over again with the commemorative Mille Miglia, attracting once more to Brescia's Piazza della Vittoria the cars of the greatest, most prestigious race in the world that took place between the end of the 20s and the second half of the 50s. Since then, the Mille Miglia has gone back to being an event not to be missed, first every two years and then yearly for all motoring and motor racing enthusiasts. A book tells the story of this great sporting and

cultural event, the 2014 edition of which opens with a historical section that recalls the 1934 race, won by Achille Varzi, and the 1954, with the magnificent victory of Alberto Ascari. After that, the book concentrates on the race that took place last May and its protagonists? competitors, crew after crew, car after car, in a long and fully-illustrated section. 2014 Mille Miglia starting grid was full of exceptional protagonists too: actors Luke Evans, Adrien Brody and Jeremy Irons, American Tv personality Jay Leno, French stylist Paloma Picasso and industrial designer Mark Newson. Many musicians were also there: Brian Johnson, AC/DC frontman, British rapper Example, Scottish singer Amy Macdonald and Belgian singer Milow. Many racing drivers took the start, first and foremost Eros Crivellari, the only one with an original Mille Miglia to his credit, Andy Wallace, Jochen Mass, Teo Fabi, Bernd Schneider, Jacky Ickx, Martin Brundle e Bruno Senna, with the very evocative helmet of his late uncle Ayrton. This is indispensable publication for all those who were there, and for all vintage car enthusiasts.

A Record of Grand Prix and Voiturette Racing,2011

Grand Prix Cars Denis Jenkinson,2015-10-02 “ In compiling this brief history of Grand Prix racing, along with descriptions of the more

successful cars, I have limited myself to the period since World War II as the present day Grand Prix cars are mostly derived from the development and design of the early post war years. Although many ideas were taking shape in the period of the mid-thirties — such as the use of De Dion rear axle layouts, independent front suspension systems and hydraulic brakes — the main interest lay in engine design under a free ruling on capacity. It was not until about 1950 that a renaissance began in chassis design for Grand Prix cars and from then on a great deal of knowledge was gained; enough in fact, to enable roadholding to become a very exact science rather than a hit-and-miss affair. This development in the chassis and the search for improved road holding and higher cornering power was accentuated by the beginning of the era of unsupercharged racing, when power outputs were severely curtailed and speed had to be found by other means ...” (1959 - Denis Jenkinson)

Jaguar C-type Philip Porter, Chas Parker, 2017-10-03 This glorious book tells the story of the celebrated lightweight Jaguar C-type, chassis number XKC 051, that Duncan Hamilton and Tony Rolt drove to victory in the 1953 Le Mans 24 Hours. The car went on to have a busy post-works racing career, first with Ecurie Ecosse, then with privateer drivers Bill Smith and Geoffrey Allison. Among its small number of collector custodians in later years, the names Briggs Cunningham in America and Adrian Hamilton (son of Duncan) in the UK stand out. The development of the C-type is described, focusing on the three lightweights of 1953 with thinner-gauge aluminum bodies, pioneering disc brakes, and aircraft-style fuel tanks. All this is covered in fascinating detail, supported by interviews with drivers and mechanics, a fine collection of period images and studio photographs.

Alfa Romeo Monza Mick Walsh, 2018-04-17 This book tells the remarkable history of an Alfa Romeo Monza and its characterful drivers and owners, some with life stories worthy of a movie script. Built in 1933, '221130' was raced that year by the Hon. Brian Lewis and won its debut at Brooklands and the arduous Mannin Moar race on the Isle of Man. The car continued to be raced until the war by John Cobb (1934) who later was a land speed record holder, Luis Fontes (1935) who was also an aeroplane racer, Anthony Powys-Lybbe (1936–37) and Fay Tylour (1938) who was interned during the Second World War for her Fascist links, at venues as diverse as Vila Real (Portugal) and Phoenix Park (Ireland). Post-war, a

succession of notable owners included Peter Hampton, the Hon. Patrick Lindsay and Hubert Fabri, all passionate collectors, to arrive at its status today as one of the more important surviving Monzas, and a car with so much charisma and historic interest that it is a most worthy addition to the acclaimed 'Great Cars' series
