Electing Hong Kong's Chief Executive Simon N.M. Young 簡錫堦,Richard Cullen 理查德·库伦,2010-06-01 In 2007, the Hong Kong Special Administrative Region held its first-ever contested election for Chief Executive, selected by 800 members of an Election Committee drawn from roughly 7% of the population. The outcome was a foregone conclusion, but the process allowed a pro-democracy legislator to obtain enough nominations to contest the election. The office of Chief Executive is as unique as the system used to fill the office, distinct from colonial governors and other leaders a Chinese provinces and municipalities. The head of the HKSAR enjoys greater autonomous powers, such as powers to nominate principal officials for Chinese appointment, pardon offenders and appoint judges. Despite its many anti-democratic features, the Election Committee has generated behavior typically associated with elections in leading capitalist democracies and has also gained prominence on the mainland as the vehicle for returning Hong Kong deputies to the National People's Congress. This book reviews the history and development of the Election Committee (and its predecessor), discusses its ties to legislative assemblies in Hong Kong and Mainland China, and reflects on the future of the system.

Kinky's Celebrity Pet Files Kinky Friedman,2011-05-31 Kinky Friedman is not only a man of the people, he's a man of the animal kingdom. Kinky is a man who wears many hats -- not just a Stetson. Aside from being a politico, folksinger, and mystery author, he's also a longtime animal advocate and feels as passionately about his pets as he does about legislative reform. But rather than simply write about his own experiences, why shouldn't he include a few friends? Of course, Kinky's address book is unique, and he's taken full advantage. In his new collection, Kinky's Celebrity Pet Files, the Kinkster writes about his famous friends and their pets you've never met, each with a story as delightful and offbeat as the author himself. Kinky has gathered together an eclectic and extraordinary group of talented celebrity pals to talk about the subject nearest and dearest to their hearts: their pets. With candid, personal photos of the stars and their beloved animals and insider stories to match, the book is like a party only Kinky could throw, and the results are both entertaining and endearing. It's not your average celebrity pet book, because Kinky's not your average celebrity. He's got musicians, like Johnny Cash and his pig, Brian Wilson with his dog, and Willie Nelson doing his best horse whisperer impersonation; actors and comedians ranging from Phyllis Diller with Miss Kitty to Richard Pryor on a pygmy pony; and a lineup of writers, politicians, and some heroes of the past -- Bill Clinton, Joseph Heller, and Mark Twain, to name a few. Hilarious, oddball, heartwarming, and edgy all at once, Kinky's Celebrity Pet Files is a book for animal lovers, celebrity junkies, and anyone who just likes a good story. It's a little weird, it's completely charming, and it's 100 percent Kinky.

This is Hong Kong Miroslav Sasek,2007-02-13 Like the other Sasek classics, this is a facsimile edition of the original book. The brilliant, vibrant illustrations have been meticulously preserved, remaining true to his vision more than 40 years later. Facts have been updated for the 21st-century, appearing on a This is . . . Today page at the back of the book. These charming illustrations, coupled with Sasek's witty, playful narrative, make for a perfect souvenir that will delight both children and their parents, many of whom will remember the series from their own childhoods. This is Hong Kong, first published in 1965, captures the enchantment and the contrasts of Hong Kong in the sixties. Roaring jets bring in the tourists; bamboo rickshaws taxi them through exotic streets fragrant with incense, roasting chestnuts, and honey-glazed Peking duck. Sasek shows you the sweeping panorama of gleaming Kowloon Bay framed by misty mountain ridges, then moves in for close-ups of laborers and hawkers, refugees from the mainland, and sailors

of flame-red junks, and the strange water people who, it is said, never set foot on dry land.

Biometric Security and Privacy Richard Jiang,Somaya Al-maadeed,Ahmed Bouridane,Prof. Danny Crookes,Azeddine Beghdadi,2016-12-21 This book highlights recent research advances on biometrics using new methods such as deep learning, nonlinear graph embedding, fuzzy approaches, and ensemble learning. Included are special biometric technologies related to privacy and security issues, such as cancellable biometrics and soft biometrics. The book also focuses on several emerging topics such as big data issues, internet of things, medical biometrics, healthcare, and robot-human interactions. The authors show how these new applications have triggered a number of new biometric approaches. They show, as an example, how fuzzy extractor has become a useful tool for key generation in biometric banking, and vein/heart rates from medical records can also be used to identify patients. The contributors cover the topics, their methods, and their applications in depth.

Dying to Be Me Anita Moorjani,2022-03-08 THE NEW YORK TIMES BESTSELLER! I had the choice to come back ... or not. I chose to return when I realized that 'heaven' is a state, not a place In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within this enhanced e-book, Anita recounts—in words and on video—stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. In *Dying to Be Me*, Anita Freely shares all she has learned about illness, healing, fear, being love, and the true magnificence of each and every human being!

Natural Processes and Human Impacts Sergey M. Govorushko, 2011-10-13 This highly topical book comes at a time when the two-way relationship between humankind and the environment is moving inexorably to the top of the agenda. It covers both sides of this delicate balancing act, explaining how various natural processes influence humanity, including its economic activities and engineering structures, while also illuminating the ways in which human activity puts pressure on the natural environment. Chapters analyze a varied selection of phenomena that directly affect people's lives, from geological processes such as earthquakes and tsunamis to cosmic events such as magnetic storms. The author moves on to consider the effect we have on nature, ranging from the impact of heavy industry to the environmental consequences of sport and recreational pastimes. Complete with maps, photographs and detailed case studies, this book provides a comprehensive overview of the biggest issue we face as a species—the way we relate to the natural world around us. This book includes more than 100 maps showing the global distribution of different natural processes/human activities and more than 450 photographs from many countries and all oceans. It will provide a valuable resource for both graduate students and researchers in many fields of knowledge.
