McLaren MP4/4 Owners' Workshop Manual Steve Rendle, 2018-06-19 The McLaren MP4/4 is the iconic Honda V6 turbo-powered F1 car built by McLaren for the 1988 grand prix season, driven by Ayrton Senna and Alain Prost. Remarkably, the car won all but one race during 1988, and took McLaren's then-new recruit Senna to his first Drivers' World Championship after a season-long battle with team-mate Prost. McLaren achieved an astonishing 10 one-two finishes with the car, and suffered only two car-related retirements during the season. The MP4/4 is still statistically the most dominant F1 car ever built. Ironically, the fact that McLaren was already an enormously successful and well-resourced team prior to 1988 has led to the assumption that producing another winning car in the form of the MP4/4 was simply business as usual. The truth is rather different, with many challenges along the way, mistakes to resolve and, as ever in motor racing, an element of luck, all playing a part in the MP4/4's extraordinary success. A wealth of previously unpublished archive material, including original technical drawings and team documentation, provides fascinating new insight into the design and build of the MP4/4. Produced with the full cooperation of McLaren, and unique access to a race-winning MP4/4 chassis, this manual tells for the first time the accurate story of the design, engineering and operation of one of F1's most iconic cars, featuring extensive and often candid input from the designers, engineers and drivers involved. The McLaren story: Brief history of McLaren prior to the MP4/4 and subsequent history to the present day. Design and build of the MP4/4: The full story of how a completely new car, along with a one-off Honda engine, were designed and built for the 1988 season. The MP4/4 in action: A race-by-race account of the MP4/4's performance in the 1988 World Championship. The anatomy of the MP4/4: Chassis, aerodynamics, suspension, steering, brakes, Honda engine, transmission, wheels and tyres, cockpit and electrics. The drivers: Insight from Alain Prost and test-driver Emanuele Pirro, plus a profile of Ayrton Senna with thoughts from his former teammates. Appendices: Specifications, race results and statistics and full chassis histories.

Colossal Paper Machines Phil Conigliaro, 2015-04-21 What a big idea! And what big fun: A whopping oversize book of interactive paper models to appeal to every kid who loves big machines—which pretty much covers all of them. These are the coolest big machines that kids love—each re-created in an oversize paper model that, once built, really moves. The book has everything the reader needs to pop out, fold, and create a full-color model of ten big machines: a dump truck, space shuttle, excavator, ladder truck, front loader, concrete mixer, steam locomotive, steamboat, dirigible, Chinook helicopter. Created by Phil Conigliaro, a gifted paper engineer and artist, the models are printed on sturdy card stock; perforated to pop out and fold; require only gluing (no tape or pins); and come with complete, easy-to-follow step-by-step instructions. And, worth repeating, each one moves: Wheels roll and the mixer turns, helicopter blades spin, and the excavator's boom and bucket raises and lowers. Additionally there's the story of each machine—how it works, who invented it, what it's used for. Kids will learn the history of the steam shovel—the smoking, hissing monster that dug the Panama Canal, the largest engineering feat of the 20th century; how astronauts in a space shuttle could withstand the 3,000 degrees of heat created when it returned to Earth; how the world's largest dump truck can haul a million pounds. It's big stuff!

Niki Lauda Jon Saltinstall,2020-02-11 This is the story of Niki Luada's racing career. Climbing the ladder: starting against his family's wishes with a Mini in 1968, Niki Lauda drove a Formula Vee Kaimann in 1969 and had a disastrous Formula 3 season with McNamara in 1970 before switching to a Porsche sports car; with progress stalling, he took out a loan to buy a Formula 2 seat at March in 1971. Faltering in Formula 1: he debuted with March at the 1971 Austrian Grand Prix, then stayed with the team in 1972; he moved to BRM for 1973, still paying his way with further borrowing and some income from racing touring cars – but in all this time he had only one points-scoring Formula 1 finish. The Ferrari years: finally Lauda fulfilled his promise after receiving the call to Maranello, winning the World Championship twice in his four years there, in 1975 and 1977, but he left after tensions with the team arose in his final season. The Brabham years: Lauda famously won the 1978 Swedish Grand Prix in Brabham's 'fan car.' but thereafter the team's competitiveness declined and he retired at the end of 1979, tired of driving round in circles' and focused instead on his new airline, Lauda Air. The McLaren years: tempted by a salary of unprecedented size, Lauda returned in 1982 after a two-year absence, silenced doubters by winning his third race, and in 1984 secured his third World Championship; at the end of 1985, with a career tally of 25 Grand Prix victories, he hung up his helmet for good.
