Forbidden Scrollery, Vol. 1 ZUN,2017-11-21 Where else would a girl with the power to translate any tome she sets in her lap reside except a library? Sure, some books may be more dangerous than others, but that's far from discouragement for a true bibliophile like Kosuzu Motoori!

A Feast of Lanterns L. Cranmer-Byng,2020-04-25 Theoretically Ch'eng Shao Yiin passed all her hours within her own apartments and in the flowery courtyard, as a Chinese woman of high caste should. Actually she went daily here, there and everywhere about her vast domain, her journeyings limited only by her whim, and her face and voice as familiar to every coolie on the place as the trees and the red roofs of the houses were. At first the house had been built about two courtyards, as a Chinese home should be built, but the many marriages, and the lush influx of baby-life had first crammed and cramped it, and then burst through it quite; and that many of her children should not be roofless, Yim had caused a grove of additional home- quarters to jut out again and again from every wall, and from them others, like red-topped mushrooms, quarters leading all into the others, strung together by doors and courtyards, and that were houses in themselves except in name, and independent homes but for the vigorous over-ruling of Ch'eng Shao Yiin, and that in their irregular, straggling, sloping red-roofed mass spread over several acres. But so wide were the gardens in which they lay, and so vast the fields and groves and hilly vineyards and quarries circling the gardens about, that the great congerie of linked buildings looked snug and homelike. at They were all of but one story. In Pekin it was against the law--and in China law is obeyed--to erect a dwelling of more than one story--because Chinese ladies spend their lives within home-walls, and depend upon the courtyards of the flowery quarters for fresh air and sunshine.

Protectors and Predators Bernard Faure,2015-12-31 Written by one of the leading scholars of Japanese religion, Protectors and Predators is the second installment of a multivolume project that promises to be a milestone in our understanding of the mythico-ritual system of esoteric

Buddhism—specifically the nature and roles of deities in the religious world of medieval Japan and beyond. Bernard Faure introduces readers to medieval Japanese religiosity and shows the centrality of the gods in religious discourse and ritual. Throughout he engages theoretical insights drawn from structuralism, post-structuralism, and Actor-Network Theory to retrieve the “implicit pantheon” (as opposed to the “explicit orthodox pantheon”) of esoteric Japanese Buddhism (Mikkyō). His work is particularly significant given its focus on the deities’ multiple and shifting representations, overlappings, and modes of actions rather than on individual characters and functions. In *Protectors and Predators* Faure argues that the “wild” gods of Japan were at the center of the medieval religious landscape and came together in complex webs of association not divisible into the categories of “Buddhist,” “indigenous,” or “Shinto.” Furthermore, among the most important medieval gods, certain ones had roots in Hinduism, others in Daoism and Yin-Yang thought. He displays vast knowledge of his subject and presents his research—much of it in largely unstudied material—with theoretical sophistication. His arguments and analyses assume the centrality of the iconographic record as a complement to the textual record, and so he has brought together a rich and rare collection of more than 170 color and black-and-white images. This emphasis on iconography and the ways in which it complements, supplements, or deconstructs textual orthodoxy is critical to a fuller comprehension of a set of medieval Japanese beliefs and practices and offers a corrective to the traditional division of the field into religious studies, which typically ignores the images, and art history, which oftentimes overlooks their ritual and religious meaning. *Protectors and Predators* and its companion volumes should persuade readers that the gods constituted a central part of medieval Japanese religion and that the latter cannot be reduced to a simplistic confrontation, parallelism, or complementarity between some monolithic teachings known as “Buddhism” and “Shinto.” Once these reductionist labels and categories are discarded, a new and fascinating religious landscape begins to unfold.

At risk is the delicate balance between humans and demons...Are dark days ahead for Gensokyo, or will hope come over the horizon? It's no laughing matter when the very meaning of truth is in danger!

In Those Days Justine Dowley-Wise, 2005-10 It was my first experience of an earthquake and I was petrified as the house shook and strange rumblings could be heard sounding like a train rushing through a tunnel. As we hurried through the lounge, the furniture was sliding about and things were falling from shelves and smashing onto the floor. As we tried to hurry down the stairs it was like being on a ship in a rough sea. When we reached the garden the sound changed to a strange rhythmic 'brrum-brrum-brrum- brrum.' Out in the streets we could hear people screaming as they rushed about in panic. Father was so worried about us that somehow he managed to drive from his office through all the chaos, to see if we were alright. Fortunately the house had been well built so withstood the violent shaking. When we returned to the apartment, it was a scene of devastation with smashed china and everything strewn all over the place and even the heavy furniture had moved across the room. Father discovered that the earthquake had been so severe that it registered 7.6 on the Richter scale and had lasted for about eight minutes, but it seemed much longer.

Design and Violence Paola Antonelli, Jamer Hunt, Michelle Millar Fisher, 2015 Born first as an online platform, and then as a series of public debates, 'Design and Violence' organized by Paola Antonelli and Jamer Hunt, examines the ways in which violence manifests in the post-2001 landscape and asks what makes these manifestations unique to their era. 'Design and Violence' is not a gallery-based exhibition simply translated online. From our earliest conversations, we conceived it as a platform for multiple projects--a series of public debates, a set of academic course materials, a symposium and this book, for instance--with the website as anchor. This book brings together controversial, provocative, and compelling design projects with leading voices from the fields of art and design, science, law, criminal justice, ethics, finance, journalism, and social justice. Each author responds to one object--ranging from an AK-47 to a Euthanasia Rollercoaster, from plastic handcuffs to the Stuxnet digital virus--sparking dialogue, reflection, and debate. These experimental and wide-ranging conversations make Design and Violence an invaluable resource for lively discussions and classroom curricula.
