Tartine Bread Chad Robertson,2013-10-29 The Tartine Way – Not all bread is created equal The Bread Book ...the most beautiful bread book yet published... -- The New York Times, December 7, 2010 Tartine – A bread bible for the home or professional bread-maker, this is the book! It comes from Chad Robertson, a man many consider to be the best bread baker in the United States, and co-owner of San Francisco's Tartine Bakery. At 5 P.M., Chad Robertson's rugged, magnificent Tartine loaves are drawn from the oven. The bread at San Francisco's legendary Tartine Bakery sells out within an hour almost every day. Only a handful of bakers have learned the techniques Chad Robertson has developed: To Chad Robertson, bread is the foundation of a meal, the center of daily life, and each loaf tells the story of the baker who shaped it. Chad Robertson developed his unique bread over two decades of apprenticeship with the finest artisan bakers in France and the United States, as well as experimentation in his own ovens. Readers will be astonished at how elemental it is. Bread making the Tartine Way: Now it's your turn to make this bread with your own hands. Clear instructions and hundreds of step-by-step photos put you by Chad's side as he shows you how to make exceptional and elemental bread using just flour, water, and salt. If you liked Tartine All Day by Elisabeth Prueitt and Flour Water Salt Yeast by Ken Forkish, you'll love Tartine Bread!

The Rome Zoo Pascal Janovjak,2021-08-03 Rome, too, wants the sound of roaring as evening falls ... The Rome Zoo: a place born of fantasy and driven by a nation's aspirations. It has witnessed – and reflected in its tarnished mirror – the great follies of the twentieth century. Now, in an ongoing battle that has seen it survive world wars and epidemics, the zoo must once again reinvent itself, and assert its relevance in the Eternal City. Caught up in these machinations is a cast of characters worthy of this baroque backdrop: a man desperate to find meaning in his own life, a woman tasked with halting the zoo's decline and a rare animal, the last of its species, who bewitches the world. Drifting between past and present, The Rome Zoo weaves together these and many other stories, forming a colourful and evocative tapestry of life at this strange place. It is both a love story and a poignant juxtaposition of the human need to classify, to subdue, with the untameable nature of our dramas and anxieties. Spellbinding and disturbing, precise and dreamy, this award-winning novel, translated by Stephanie Smee, is unlike any other. Winner of the Swiss Literature Award, the Prix Michel-Dentan and the Prix du public de la RTS "Like all truly great literary allegories, The Rome Zoo is both innocent and wise, filled equally with tenderness and darkness. A gorgeous, dream-like fable of Italy's past and present." –Ceridwen Dovey

The Roman Villa in the Mediterranean Basin Annalisa Marzano,Guy P. R. Métraux,2018-04-30 This volume offers a comprehensive survey of Roman villas in Italy and the Mediterranean provinces of the Roman Empire, from their origins to the collapse of the Empire. The architecture of villas could be humble or grand, and sometimes luxurious. Villas were most often farms where wine, olive oil, cereals, and manufactured goods, among other products, were produced. They were also venues for hospitality, conversation, and thinking on pagan, and ultimately Christian, themes. Villas spread as the Empire grew. Like towns and cities, they became the means of power and assimilation, just as infrastructure, such as aqueducts and bridges, was transforming the Mediterranean into a Roman sea. The distinctive Roman/Italian villa type was transferred to the provinces, resulting in Mediterranean-wide culture of rural dwelling and work that further unified the Empire.

From Memory to Marble Elizabeth Rankin,Rolf Michael Schneider,2020-02-10 For the first time, the 92-metre frieze of the Voortrekker Monument in Pretoria, one of the largest historical narratives in marble, has been made the subject of a book. The pictorial narrative of the Boer pioneers who conquered South Africa's interior during the 'Great Trek' (1835-52) represents a crucial period of South Africa's past. Conceptualising the frieze both reflected on and contributed to the country's socio-political debates in the 1930s and 1940s when it was made. The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid, as well as its place in post-apartheid heritage. The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument. Based on unpublished documents, drawings and models, these processes are unfolded step by step, from the earliest discussions of the purpose and content of the frieze, through all the stages of its design, to its shipping to post-war Italy to be copied into marble from Monte Altissimo, up to its final installation in the Monument. The book examines how visual representation transforms historical memory in what it chooses to recount, and the forms in which it is depicted. The second volume expands on the first, by investigating each of the twenty-seven scenes of the frieze in depth, providing new insights into not only the frieze, but also South Africa's history. François van Schalkwyk of African Minds, co-publisher with De Gruyter writes: From Memory to Marble is an open access monograph in the true sense of the word. Both volumes of the digital version of the book are available in full and free of charge from the date of publication. This approach to publishing democratises access to the latest scholarly publications across the globe. At the same time, a book such as From Memory to Marble, with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials, demands reception of a more traditional kind, that is, on the

printed page. For this reason, the book is likewise available in print as two separate volumes. The printed and digital books should not be seen as separate incarnations; each brings its own advantages, working together to extend the reach and utility of From Memory to Marble to a range of interested readers. For more material you can browse at Stanford's database Voortrekker Monumentality: a digital archive.

Pliny the Elder and the Emergence of Renaissance Architecture Peter Fane-Saunders, 2016-07-12 The *Naturalis historia* by Pliny the Elder provided Renaissance scholars, artists and architects with details of ancient architectural practice and long-lost architectural wonders - material that was often unavailable elsewhere in classical literature. Pliny's descriptions frequently included the dimensions of these buildings, as well as details of their unusual construction materials and ornament. This book describes, for the first time, how the passages were interpreted from around 1430 to 1580, that is, from Alberti to Palladio. Chapters are arranged chronologically within three interrelated sections - antiquarianism; architectural writings; drawings and built monuments - thereby making it possible for the reader to follow the changing attitudes to Pliny over the period. The resulting study establishes the *Naturalis historia* as the single most important literary source after Vitruvius's *De architectura*.

Alternatively, print copies can be purchased for just GB£7 / US\$10 here. ***** To celebrate Antipode's 50th anniversary, we've brought together 50 short keyword essays by a range of scholars at varying career stages who all, in some way, have some kind of affinity with Antipode's radical geographical project. The entries in this volume are diverse, eclectic, and to an extent random, however they all speak to our discipline's past, present and future in exciting and suggestive ways Contributors have taken unusual or novel terms, concepts or sets of ideas important to their research, and their essays discuss them in relation to radical and critical geography's histories, current condition and possible future directions This fractal, playful and provocative intervention in the field stands as a fitting testimony to the role that Antipode has played in the generation of radical geographical engagement with the world
