The Zero-Waste Chef Anne-Marie Bonneau,2021-04-13 \*SHORTLISTED for the 2021 Gourmand World Cookbook Award\* \*SHORTLISTED for the 2022 Taste Canada Award for Single-Subject Cookbooks\* A sustainable lifestyle starts in the kitchen with these use-what-you-have, spend-less-money recipes and tips, from the friendly voice behind @ZeroWasteChef. In her decade of living with as little plastic, food waste, and stuff as possible, Anne-Marie Bonneau, who blogs under the moniker Zero-Waste Chef, has preached that zero-waste is above all an intention, not a hard-and-fast rule. Because, sure, one person eliminating all their waste is great, but thousands of people doing 20 percent better will have a much bigger impact. And you likely already have all the tools you need to begin. In her debut book, Bonneau gives readers the facts to motivate them to do better, the simple (and usually free) fixes to ease them into wasting less, and finally, the recipes and strategies to turn them into self-reliant, money-saving cooks and makers. Rescue a hunk of bread from being sent to the landfill by making Mexican Hot Chocolate Bread Pudding, or revive some sad greens to make a pesto. Save 10 dollars (and the plastic tub) at the supermarket with Yes Whey, You Can Make Ricotta Cheese, then use the cheese in a galette and the leftover whey to make sourdough tortillas. With 75 vegan and vegetarian recipes for cooking with scraps, creating fermented staples, and using up all your groceries before they go bad--including end-of-recipe notes on what to do with your ingredients next--Bonneau lays out an attainable vision for a zero-waste kitchen.

Annette Kelm Nicolaus Schafhausen,2020-03-31 A comprehensive look at the unique artistic work of Annette Kelm, with rich color illustrations of emblematic pieces from her oeuvre. Tomato Target takes a comprehensive look at the unique artistic work of Annette Kelm and the visual idiom she has developed over the course of her career. The book contextualizes Kelm's practice, which deftly probes the medium of photography and uses heterogeneous subjects decisively, to signify and act as telling abstractions within her visually opulent object worlds. Kelm's work is at once intellectually astute, concise and enigmatic. Her photographs quote the genres of still life, studio, or architectural photography without fully complying with the conventions that govern them. Tomato Target offers essays, installation views from the artist's solo Tomato Target exhibition at Kunsthalle Wien, and rich color illustrations of emblematic pieces from her oeuvre. The texts unravel the puzzles in Kelm's work, touching on the history of photography, design, and display as well as scientific elements that continue to reappear within Kelm's work. Contributors Vanessa Joan Müller, Anna Voswinckel; conversation between Nicolaus Schafhausen and Brigitte Kölle

**Transforming the Workforce for Children Birth Through Age 8** National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success,2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to

nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Human Targets Victor M. Rios,2017-03-08 Victor Rios has a vibrant reputation as America s leading ethnographer of Latino youth. His personal storygoing from drug pusher (selling heroin on the streets as a teenager) to a hard worker at a mechanic shop within a matter of weeksshow how he stands in the place of the Latino youths he studies. His story underscores the degree to which delinquent urban youths can become adaptable, fluid, amenable individuals, able to shift their views of the world as well as their actions. Rios rejects the old storyline that said gangs are bad and they do bad things because they are bad people. Kids on the street, he argues, can drift between different identities, indeed, they can shift seamlessly between responsible and deviant displays within a few hours time. The key to understanding gang-associated youth lies in analysis of the way authority figures (teachers and police officers) interact with young people. The kids need caring adults who offer tangible resources. Story and characters are always front-and-center in Rios s narrative: Jorge, Mark, Wilson, and others, are boys we get to know as they negotiate day-to-day life on the streets and across institutional settings. We learn a great deal about Cholo subculture, the clothing and

hairstyles, and the argot that are adopted by Latino youth in response to the forces that seek to marginalize or punish them. The crisis of a perceived epidemic of police brutality in our post-Ferguson era is a product of culture in Rios's view: contested symbols, negative interactions, and day-to-day encounters that freeze youth identities as gang-associated, and that freeze authority identities as negative shapers of youth attitudes and actions are the dynamic. Fear of young males of color leads to police misreading and dehumanizing of young black and Latino men. Rios raises our awareness of how this dynamic operates by studying his subjects whole: following young gang members into their schools, their homes, their community organizations, their detention facilities, and watching them interact with police, watching them grow up to become fathers, get jobs, get rap sheets. Get killed. This book will be a landmark contribution to the social psychology of poverty and crime.
