The contributions are drawn from a distinguished group of international experts from across numerous disciplines, including literary scholars, theologians, historians, biblical scholars, sociologists, anthropologists, art historians, and legal experts. The volume provides authoritative treatments of a range of topics, from the origins of Christmas to the present; decorating trees to eating plum pudding; from the Bible to contemporary worship; from carols to cinema; from the Nativity Story to Santa Claus; from Bethlehem to Japan; from Catholics to Baptists; from secularism to consumerism. Christmas is the biggest celebration on the planet. Every year, a significant percentage of the world's population is drawn to this holiday—from Cape Cod to Cape Town, from South America to South Korea, and on and on across the globe. The Christmas season takes up a significant part of the entire year. For many countries, the holiday is a major force in their national economy. Moreover, Christmas is not just a modern holiday, but has been an important feast for most Christians since the fourth century and a

dominant event in many cultures and countries for over a millennium. The Oxford Handbook of Christmas provides an invaluable reference point for anyone interested in this global phenomenon.

About Christmas Nicolae Sfetcu, 2014-05-01 Christmas characters and food, Christmas-linked holidays and music, Santa Claus and traditions. Related to Annunciation, Incarnation; Crucifixion; Advent, the four weeks preceding Christmas; and the period between the day after Thanksgiving and the Sunday after New Year's Day, the American holiday season. Christmas or Christmas Day is a holiday celebrating the birth of Jesus, the central figure of Christianity. Aspects of celebration may include gift-giving, Christmas trees, display of Nativity sets, church attendance, the Father Christmas/Santa Claus myth, and family gatherings. Users of the Gregorian calendar observe the holiday on December 25. Some Eastern Orthodox Churches celebrate on December 25 by the Julian calendar, which currently corresponds to January 7 on the Gregorian calendar. These dates are merely traditional; the great majority of scholars agree that the actual birthdate of Jesus is unknown. In Western culture, the holiday is characterized by the exchange of gifts among friends and family members, some of the gifts being attributed to Santa Claus (also known as Father Christmas, Saint Nicholas, Saint Basil and Father Frost). However, various local and regional Christmas traditions are still practiced, despite the widespread influence of American, British and Australian Christmas motifs disseminated by film, popular literature, television, and other media.

The Living Church , 2002-06

Metamorphosis Sarah Travis, 2019-07-30 Post-Christendom, Christian leaders and preachers in North America struggle to respond to anxiety and despair about the future of the church. Declining participation, fewer resources, decreased influence, and confusion about pastoral and ecclesial identity lead to fear for the survival of the institutional church. Preaching must speak to

the despair and confusion faced by congregations today, as well as cast a hopeful vision for an uncertain future. This book argues that preachers can change the narrative of the church post-Christendom, by urging an exit from Christendom ecclesiology and promoting the construction of an identity that embraces vulnerability and incarnation instead of power and permanence. Counterintuitively, failure, decrease, and marginalization constitute good news for the church. Through wide-ranging conversation partners including postcolonial theory and theology, social science, systematic theology, and homiletic literature, this book engages preachers and scholars who seek to reimagine both gospel and ecclesial identity in order to bring new life to communities in despair. Preachers participate in a process of metamorphosis, in which the church's self-understanding is transformed into a vulnerable, incarnate community that leaves behind the character of Christendom.

Mediterranean Art and Education John Baldacchino, Raphael Vella, 2013-11-19 The Mediterranean is a multifaceted conglomeration of parts that cannot be assembled into a whole. Its various histories characterised by imperial and

nationalistic aspirations, imbalances of power and economies, political struggles, diverse cultural, religious and linguistic realities as well as the countless myths spawned by people over the ages all contribute to the world's fascination with this region and simultaneously make it difficult for anyone to speak sensibly about it without resorting to the plural form – the Mediterraneans. So, can we speak of a Mediterranean pedagogy of the arts? The authors in this volume argue in different ways that the answer to this question cannot be carved out of a singular, monolithic interpretation of the region. Instead, we need to look for provisional answers in the region's dynamic developments, historic and contemporary exchanges of ideas and cultural codes and in the shifting nature of a sea that invites journeying, inquisitive people to discover new routes. The cover image, "La fenêtre intérieure", is by the French photographer Sébastien Cailleux and shows a multiple exposure portrait of a child and her drawing created during a workshop called "Dessine-moi la Méditerranée", organised by L'École d'Art au Village (Edaav) at the Museum of Illumination, Miniatures and Calligraphy at the Casbah in Algiers.

The Routledge Handbook of Material Religion Pooyan Tamimi Arab, Jennifer Scheper Hughes, S. Brent Rodríguez-Plata, 2023-09-01 The Routledge Handbook of Material Religion places objects and bodies at the center of scholarly studies of religious life and practice. Propelling forward the study of material religion, the Handbook first reveals the deep philosophical roots of its key categories and then advances new critical analytics, such as queer materialities, inescapable material entanglements, and hyperobjects that explode the small-scale personal view on religions. The Handbook comprises thirty chapters, written by an international team of contributors who offer a global perspective of religious pasts and presents, divided into four thematic parts: Genealogies of Material Religion Materializing the Terms of the Study of Religion Entanglements, Entrapment, Escaping Hyperobjects, or How Ginormous Things Affect Religions In these four parts, the study of material religion is redirected towards systematic, critical interrogations of the imbrication of religious structures of power with racial, economic, political, and gendered forms of domination. From Spinoza's political theology to African philosophies of ubuntu; from the queer materialities of Mesoamerican religion to the Satanic Temple of the United States; from Islamic love and sacrifice in human-animal entanglements to Shia militants' attachment to weaponry; from epidemic cataclysm in Latin America to vast infrastructures and the gathering of millions in India's Kumbh Mela, the

study of material religion proves to be the study par excellence of the human condition. The Handbook is essential reading for students and researchers in religious studies, anthropology, history, and media studies, and will also be of interest to those in related fields such as archeology, sociology, and philosophy.
