A Russian Jew of Bloomsbury Galya Diment, 2011-10-17 Samuel Koteliensky (1880-1955) fled the pogroms of Russia in 1911 and established himself as a friend of many of Britain's literati and intellectuals, who were fascinated by his homeland's more civilized side: the Ballets Russes, Tolstoy, Dostoevsky, and Chekhov. Kot, as he was known, soon became an indispensable guide to Russian culture for England's leading writers, artists, and intellectuals, who in turn helped introduce English audiences to Russian works. *A Russian Jew of Bloomsbury* looks at the remarkable life and influence that an outsider had on the tightly knit circle of Britain's cultural elite. Among Koteliensky's friends were Katherine Mansfield, Leonard and Virginia Woolf - for whose Hogarth Press he translated many Russian classics - Mark Gertler, Lady Ottoline Morrell, H.G. Wells, and Dilys Powell. But it was his close and turbulent friendship with D.H. Lawrence, with whom he had copious correspondence, that proved to be Koteliensky's lasting legacy. In a lively and vibrant narrative, Galya Diment shows how, despite Kot's determination, he could never shake off the dark aspects of his past or overcome the streak of anti-Semitism that ran through British society and could be found in many of his famous literary friends. A stirring account of the early-twentieth century, Jewish émigré life, and English and Russian letters, *A Russian Jew of Bloomsbury* casts new light - and shadows - on the giants of English modernism.

The Artemis Lunar Program Manfred "Dutch" von Ehrenfried, 2020-05-12 This book describes the future of the Artemis Lunar Program from the years 2017 to about 2030. Despite the uncertainty of the times and the present state of space exploration, it is likely that what is presented in this book will actually happen, to one degree or another. As history has taught us, predictions are often difficult, but one can see enough into the future to be somewhat accurate. As the Bible says, "We see thru the glass, but darkly." All of the elements of the proposed program are described from several perspectives: NASA's, the commercial space industry and our International partners. Also included are descriptions of the many vehicles, habitats, landers, payloads and experiments. The book tells the story of the buildup of a very small space station in a strange new lunar orbit and the descent of payloads and humans, including the first woman and next man, to the lunar surface with the intent to evolve a sustained presence over time.
