Deanna Lund

Valerie in Giantland Deanna Lund, 2018-02-20 *Valerie in Giantland* takes place ten years after our heroes crashed on the Land of the Giants. Without losing the feel and character of the original story this novel shows us a more mature group of seven and relates what has happened to them since the last episode was shown on TV. Written as a diary by Valerie, we see her more in depth as well as the other characters and how the years have made them relate to each other and their environment. There are adventures not just in the main Giant city, but at sea, in the depths of the jungle, and in a lost civilization of little people that will remind one of tales by Edgar Rice Burroughs and H. R. Haggard. They are not alone among the Giants as what happened to them happened to others and in this novel there is discovery of colonies of other little people. You will finally learn what this land is really all about and how it relates closely to our own Earth. The reader will be reunited with Giants who made appearances in the series and will see how they tie in together in surprising ways for a major climactic ending. Actually a beginning as this book sets the scene for new adventures to come. The Sci Fi Guy, Forry Ackerman himself praises the book as being as fast moving and exciting as an Indiana Jones adventure. Forry has been the agent for hundreds of successful authors as well as a critic and collector with an international reputation. He compares *Valerie in Giantland* with the young adult fiction by Andre Norton and Robert Heinlein. Reviews I think what we have here is a novel in the genre that would appeal to young adults like the early work of Robert A. Heinlein and Andre Norton. I was really surprised at the professionalism of it. - Forest J. Ackerman, Famous Monsters of Filmland Editor, Book Reviewer, and former agent for 460 science fiction authors. It has a fast moving pace with the kind of strong characters favored by Heinlein and Norton. The book emphasizes a most powerful idea: the struggle to be free. At this period in our history it holds a powerful message at a time when it is needed. - Ron Rogers, Author and Reviewer. A rollicking good action adventure yarn from start to finish. When do we see a sequel? When do we see a movie? The original series and Irwin Allen have been truly honored by this. - Robert Nichols, English Department Chair and Author.

Irwin Allen Television Productions, 1964-1970 Jon Abbott, 2015-06-14 Before establishing himself as the "master of disaster" with the 1970s films *The Poseidon Adventure* and *The Towering Inferno*, Irwin Allen created four of television's most exciting and enduring science-fiction series: *Voyage to the Bottom of the Sea*, *Lost in Space*, *The Time Tunnel* and *Land of the Giants*. These 1960s series were full of Allen's favorite tricks, techniques and characteristic touches, and influenced other productions from the original *Star Trek* forward. Every science-fiction show owes something to Allen, yet none has equaled his series' pace, excitement, or originality. This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode—and demonstrates that when Irwin Allen's television episodes were good, they were great, and when they were bad, they were still terrific fun.

Every Grain of Sand Justin Scribner,2020-10-31 Spanning decades of writing, Justin Scribner's every grain of sand feels more expansive than a debut collection. A beautifully woven hybrid work, every grain of sand offers a mix of narrative poems, poetic stories, and modern haiku in which profound moments interlace with poignant humor. Scribner's writing is deeply rooted in contemporary experience, forward-thinking in its understanding of human nature, and unpredictable in its form. The collection builds momentum through small truths which reveal a poet wrestling with deep emotions around the trivial and sometimes perilous wrong turns we make. Through many voices, Scribner maintains an uncanny ability to weave genuine light through each new speaker, allowing us to traverse many lives by the close of the collection. The poems and short stories in every grain of sand remind us to be present to little moments of stillness while lifting our eyes to the awareness of how those moments knit together into the greater picture.

Boy @ the Window Donald Earl Collins,2013-11 As a preteen Black male growing up in Mount Vernon, New York, there were a series of moments, incidents and wounds that caused me to retreat inward in despair and escape into a world of imagination. For five years I protected my family secrets from authority figures, affluent Whites and middle class Blacks while attending an unforgiving gifted-track magnet school program that itself was embroiled in suburban drama. It was my imagination that shielded me from the slights of others, that enabled my survival and academic success. It took everything I had to get myself into college and out to Pittsburgh, but more was in store before I could finally begin to break from my past. *Boy @ The Window* is a coming-of-age story about the universal search for understanding on how any one of us becomes the person they are despite-or because of-the odds. It's a memoir intertwined with my own search for redemption, trust, love, success-for a life worth living. *Boy @ The*

Window is about one of the most important lessons of all: what it takes to overcome inhumanity in order to become whole and human again.

The Sound of Music Family Scrapbook Fred Bronson, Angela Cartwright, 2019 For anyone thrilled by the sight of Julie Andrews spinning joyfully on a mountaintop, or who spontaneously bursts out singing Do-Re-Mi, this captivating behind-the-scenes story is a must-read. The summer of 1965 saw the release of one of the best-loved musicals of all time: The Sound of Music. This scrapbook celebrates that classic film, and the seven young actors who played the Von Trapp children and became long-lasting friends. Fans will love glimpsing photographs of rare memorabilia the performers have cherished, including letters to their families, an edited page from the script, and a ticket to the world premiere. The actors share their memories of working with director Robert Wise and stars Julie Andrews and Christopher Plummer, the impact the film had on their lives, and what they have done since. The Sound of Music Family Scrapbook is an intriguing look at the magic of moviemaking.

TV's Biggest Hits Jon Burlingame, 1996 Everybody loves TV themes – from the silly Mr. Ed and The Addams Family to the intense Mission: Impossible and Peter Gunn to the atmospheric Hill Street Blues and The X-Files. But few people know how this music is made, or the stories of the men and women who have worked tirelessly (and often anonymously) to create it. This book offers the complete story of this important musical style, giving it the serious, and colorfully anecdotal, history it deserves. Divided into chapters on each genre, Burlingame provides the real stories of the composers who worked behind the scenes to create the memorable music we all love. Among those who have written and performed for television include many famous musicians – like jazz pianists Dave Brubeck and Duke Ellington, arranger/producer Quincy Jones, film music giant John Williams, Broadway composer Richard Rodgers, and classical composer Morton Gould. Illustrated throughout with rare photos of the composers at work, this is a fascinating story of how a new genre of musical artistry was created.
