Whitfield East

A Historical Review and Analysis of Army Physical Readiness Training and Assessment Whitfield East, 2013-12 The Drillmaster of Valley Forge-Baron Von Steuben-correctly noted in his Blue Book how physical conditioning and health (which he found woefully missing when he joined Washington's camp) would always be directly linked to individual and unit discipline, courage in the fight, and victory on the battlefield. That remains true today. Even an amateur historian, choosing any study on the performance of units in combat, quickly discovers how the levels of conditioning and physical performance of Soldiers is directly proportional to success or failure in the field. In this monograph, Dr. Whitfield Chip East provides a pragmatic history of physical readiness training in our Army. He tells us we initially mirrored the professional Armies of Europe as they prepared their forces for war on the continent. Then he introduces us to some master trainers, and shows us how they initiated an American brand of physical conditioning when our forces were found lacking in the early wars of the last century. Finally, he shows us how we have and must incorporate science (even when there exists considerable debate!) to contribute to what we do-and how we do it-in shaping today's Army. Dr. East provides the history, the analysis, and the pragmatism, and all of it is geared to understanding how our Army has and must train Soldiers for the physical demands of combat. Our culture is becoming increasingly "unfit, due to poor nutrition, a lack of adequate and formal exercise, and too much technology. Still, the Soldiers who come to our Army from our society will be asked to fight in increasingly complex and demanding conflicts, and they must be prepared through new, unique, and scientifically based techniques. So while Dr. East's monograph is a fascinating history, it is also a

required call for all leaders to better understand the science and the art of physical preparation for the battlefield. It was and is important for us to get this area of training right, because getting it right means a better chance for success in combat.

Over The Seawall: U.S. Marines At Inchon [Illustrated Edition]
Brigadier General Edwin H. Simmons, 2015-11-06 Includes more than 40 maps, plans and illustrations. This volume in the official History of the Marine Corps chronicles the invasion by United States Marines at Inchon in the initial stages of the Korean War. The Battle of Inchon was an amphibious invasion and battle of the Korean War that resulted in a decisive victory and strategic reversal in favor of the United Nations. The operation involved some 75,000 troops and 261 naval vessels, and led to the recapture of the South Korea capital Seoul two weeks later. The code name for the operation was Operation Chromite. The battle began on 15 September 1950 and ended on 19 September. Through a surprise amphibious assault far from the Pusan Perimeter that UN and South Korean forces were desperately defending, the largely undefended city of Incheon was secured after being bombed by UN forces. The battle ended a string of victories by the invading North Korean People's Army (NKPA). The subsequent UN recapture of Seoul partially severed NKPA's supply lines in South Korea. The majority of United Nations ground forces involved were U.S. Marines, commanded by General of the Army Douglas MacArthur of the United States Army. MacArthur was the driving force behind the operation, overcoming the strong misgivings of more cautious generals to a risky assault over extremely unfavorable terrain.

The Renaissance in Italy Guido Ruggiero, 2015 This book offers a

rich and exciting new way of thinking about the Italian Renaissance as both a historical period and a historical movement. Guido Ruggiero's work is based on archival research and new insights of social and cultural history and literary criticism, with a special emphasis on everyday culture, gender, violence, and sexuality. The book offers a vibrant and relevant critical study of a period too long burdened by anachronistic and outdated ways of thinking about the past. Familiar, yet alien; pre-modern, but suggestively post-modern; attractive and troubling, this book returns the Italian Renaissance to center stage in our past and in our historical analysis.

THE NEW ZEALANDERS AT GALLIPOLI - An Account of the New Zealand Forces during the Gallipoli Campaign Major Fred Waite, 2018-10-06 The New Zealanders at Gallipoli, was researched and compiled by Major Fred Waite (21 August 1885 – 29 August 1952), D.S.O., N.Z.E., C.M.G., V.D., who served with the main body and the N.Z. & A. Division as a Staff Officer of Engineers during the Great War. During the Second World War, Waite was overseas commissioner for the National Patriotic Fund Board and was appointed an Officer of the Order of the British Empire for his services in this role. In the introduction he wrote “These popular histories of New Zealand's share in the Great War are designed to present to the people of New Zealand the inspiring record of the work of our sons and daughters overseas.” The movements of the ANZACs are traced from their various points of departure around New Zealand, via Australia to Colombo, Aden and through the Red Sea and the Suez Canal to eventual disembarkation at Alexandria, Egypt. After a spell of training in Egypt, the Anzacs were shipped across the Mediterranean to the Gallipoli peninsula in the Dardanelles in Northwest Turkey with an objective to capturing the peninsula as a prelude to invading Turkey

and capturing Istanbul. Waite details the landing of the ANZACs on 25 April 1915, the many skirmishes and drives to get the “upper hand” and the eventual evacuation in December 1915. Also included are many photographs of the terrain, encampments and maps to put the images into context, all of which give the reader a good feel for layout and the conditions being experienced by the troops. To this day, 25 April is celebrated in New Zealand and Australia as Anzac Day. The Dardanelles were known in Classical Antiquity as the Hellespont, and in effect forms the continental boundary between Europe and Asia. Their importance was recognised as far back as 482BC. Herodotus tells us that at this time Xerxes I of Persia (the son of Darius the Great) had two pontoon bridges built across the width of the Hellespont at Abydos, in order that his huge army could cross from Persia into Greece. History also tells us they were vital to the defence of Constantinople during the Byzantine period of History (330AD – 1453AD). Their importance was also recognised by the Ottoman Empire (1354AD – 1922AD) which was allied to Germany during the Great War, hence the attempt by the Allies to wrest control of the Dardanelles from Turkey in 1915.

The Greene Papers Wallace Martin Greene (Jr.), 2016-03-24
General Wallace M. Greene Jr. was the 23d Commandant of the Marine Corps, serving from 1964 to 1967, a period in which American involvement in Vietnam increased dramatically. *The Greene Papers: General Wallace M. Greene Jr. and the Escalation of the Vietnam War, January 1964-March 1965* contains more than 100 documents from the personal papers of General Greene and is the first edited volume of personal papers to be published by the Marine Corps History Division as a monograph. Produced by a member of the Joint Chiefs of Staff, General Greene's notes provide readers with a

firsthand account from one of the main participants in the decision-making process that led to the commitment of a large-scale American expeditionary force in Southeast Asia. Because of President Lyndon B. Johnson's reticence to regularly consult the Joint Chiefs on military matters, however, the notes also give readers a second point of view: that of a frustrated advisor kept on the outside and forced to look in, observe, and reflect on major military decisions often made without his input or support. Also apparent are the tensions between Greene and President Johnson's aggressive and domineering Secretary of Defense, Robert S. McNamara. This volume begins in January 1964 and ends just before the landing of the 9th Marine Expeditionary Brigade at Da Nang on 8 March 1965, a pivotal moment that marked the official transition from the United States' advisory mission to a more active combat mission. In doing so, it traces Greene's growing frustration with McNamara's and Johnson's equivocation and uncertainty about Southeast Asia. Along with a series of commemorative pamphlets, this book is part of the Marine Corps History Division's effort to mark the fiftieth anniversary of the Vietnam War. In this book, we propose a model, inspired by the Semantics of Fiction and Possible Worlds, which is oriented to the analysis of video games as integrated systems.

Virtue Politics James Hankins, 2019-12-17 Winner of the Helen and Howard Marraro Prize A Times Literary Supplement Book of the Year “Perhaps the greatest study ever written of Renaissance political thought.” —Jeffrey Collins, Times Literary Supplement “Magisterial...Hankins shows that the humanists’ obsession with character explains their surprising indifference to particular forms of government. If rulers lacked authentic virtue, they believed, it did not matter what institutions framed their power.” —Wall Street Journal “Puts the politics back into humanism in an extraordinarily deep and far-reaching way...For generations to come, all who write about the political thought of Italian humanism will have to refer to it; its influence will be...nothing less than transformative.” —Noel Malcolm, American Affairs “[A] masterpiece...It is only Hankins’s tireless exploration of forgotten documents...and extraordinary endeavors of editing, translation, and exposition that allow us to

reconstruct—almost for the first time in 550 years—[the humanists’] three compelling arguments for why a strong moral character and habits of truth are vital for governing well. Yet they are as relevant to contemporary democracy in Britain, and in the United States, as to Machiavelli.” —Rory Stewart, *Times Literary Supplement* “The lessons for today are clear and profound.” —Robert D. Kaplan

Convulsed by a civilizational crisis, the great thinkers of the Renaissance set out to reconceive the nature of society. Everywhere they saw problems. Corrupt and reckless tyrants sowing discord and ruling through fear; elites who prized wealth and status over the common good; religious leaders preoccupied with self-advancement while feuding armies waged endless wars. Their solution was at once simple and radical. “Men, not walls, make a city,” as Thucydides so memorably said. They would rebuild the fabric of society by transforming the moral character of its citizens. Soulcraft, they believed, was a precondition of successful statecraft. A landmark reappraisal of Renaissance political thought, *Virtue Politics* challenges the traditional narrative that looks to the Renaissance as the seedbed of modern republicanism and sees Machiavelli as its exemplary thinker. James Hankins reveals that what most concerned the humanists was not reforming institutions so much as shaping citizens. If character mattered more than laws, it would have to be nurtured through a new program of education they called the *studia humanitatis*: the precursor to our embattled humanities.

Missing Reels Farran Smith Nehme, 2014-11-12 New York in the late 1980s. Ceinwen Reilly has just moved from Yazoo City, Mississippi, and she’s never going back, minimum wage job (vintage store salesgirl) and shabby apartment (Avenue C walkup) be damned. Who cares about earthly matters when Ceinwen can spend her days

and her nights at fading movie houses—and most of the time that’s left trying to look like Jean Harlow? One day, Ceinwen discovers that her downstairs neighbor may have—just possibly—starred in a forgotten silent film that hasn’t been seen for ages. So naturally, it’s time for a quest. She will track down the film, she will impress her neighbor, and she will become a part of movie history: the archivist as ingénue. As she embarks on her grand mission, Ceinwen meets a somewhat bumbling, very charming, 100% English math professor named Matthew, who is as rational as she is dreamy. Together, they will or will not discover the missing reels, will or will not fall in love, and will or will not encounter the obsessives that make up the New York silent film nut underworld. A novel as winning and energetic as the grand Hollywood films that inspired it, *Missing Reels* is an irresistible, alchemical mix of Nora Ephron and David Nicholls that will charm and delight.

Miernik Dossier Charles McCarry, 2007-10-30 A circle of spies travels by Cadillac from Switzerland to the Sudan in this critically acclaimed novel: “arguably the finest modern American spy story” (The New York Times). Paul Christopher is cool, urbane, clear-sighted—a perfect American agent in deep cover in the twilight world of international intrigue. But now even he does not know which side is good or bad in a maze of double- and triplecross. When a small group of international agents embarks on a road trip from Switzerland to the Sudan, Christopher is among them. Along for the ride are a comical Polish exile, a beautiful Hungarian seductress, and a North African prince with an appetite for women and a lust for power. Christopher only knows that he has to find whose finger is on the trigger of a terrorist threat that could turn the Cold War uncomfortably hot—and God help everyone if he makes a mistake.

Related as a collection of dossier notes on the mission, The Miernik Dossier reveals a complicated web in which each character spins his or her own deception.

Love My Rifle More than You: Young and Female in the U.S. Army Kayla Williams, Michael E. Staub, 2006-09-17 “Brave, honest, and necessary.”—Nancy Pearl, NPR Seattle Kayla Williams is one of the 15 percent of the U.S. Army that is female, and she is a great storyteller. With a voice that is “funny, frank and full of gritty details” (New York Daily News), she tells of enlisting under Clinton; of learning Arabic; of the sense of duty that fractured her relationships; of being surrounded by bravery and bigotry, sexism and fear; of seeing 9/11 on Al-Jazeera; and of knowing she would be going to war. With a passion that makes her memoir “nearly impossible to put down” (Buffalo News) Williams shares the powerful gamut of her experiences in Iraq, from caring for a wounded civilian to aiming a rifle at a child. Angry at the bureaucracy and the conflicting messages of today’s military, Williams offers us “a raw, unadulterated look at war” (San Antonio Express News) and at the U.S. Army. And she gives us a woman’s story of empowerment and self-discovery.

Killing Love Rebecca Poulson, 2015-09-01 This powerful, unforgettable and uplifting story is one part wrenching family memoir, and one part inspirational journey towards healing and forgiveness – but most of all, it’s an unputdownable journey through one family’s tragedy and how they refused to let it define them. On the day of Rebecca Poulson’s 33rd birthday, her father, niece and nephew were murdered. The murderer had been part of her family; her brother-in-law, Neung, the father of the children. Killing Love is Rebecca’s journey through homicide; grief, the police investigations, the media interest, the court cases, the moments of great despair – and

the healing. It is a story of individual tragedy and a family's strength, but it is also a story of a community's attitude to family violence. As a reluctant warrior for those who cannot speak for themselves, Rebecca talked to the NSW State Premier and politicians, on multiple TV shows and to print journalists in the hope that the mistakes made by the police force, DOCS, the legal system and solicitors will never be made again. Rebecca's contact with policy makers has been nothing short of history-making, and her story has directly influenced domestic violence laws in the state. Neung left a note for Rebecca's family; he hoped that he would destroy them. This is the story of how he didn't.
