Aston Martin Ulster Stephen Archer,2018-10-16 CMC 614 is the registration number of an historic Aston Martin Ulster which has, without doubt, competed in more races than any other Aston. Built in 1935 to the same specification as the factory team cars, it took part in the Le Mans 24 Hour race, the Mille Miglia, and the Tourist Trophy in 1935. Eddie Hall and Count Johnny Lurani were among the celebrated drivers who raced it in its first season. The 1.5 litre Ulster model marked the peak of Aston's pre-war achievements and marque enthusiasts recognize CMC 614 as one of the finest examples of the 28 made – as well as the most raced Aston of all time.

Porsche & Mille Miglia Andrea Curami,2002-07-01 Porsche and the Mille Miglia. Two legends, two names from the history of motor racing that came together from 1952 to 1957, the years in which the Stuttgart manufacturer competed in the classic Brescian marathon, first with the 356 A and B models and, in a second phase, with the 550 RS barchette. The most prestigious drivers of their time took to the narrow roads of Sicily in those cars, often winning their class or category: from Hans Herrmann to Giovanni Bracco, Wolfgang von Trips to Umberto Maglioli. This book covers their brief but intense and fascinating story, which has never been told before with such precise text in reconstructing the facts, and which is supported by hundreds of unpublished photographs provided by Porsche themselves, plus rare documents and designs of the period.

Classic Cars Review Michael Görmann,2018 For decades, a passion for vintage motors was regarded as an eccentric hobby, particularly prevalent among the wealthy of an older generation. Today, classic cars have an ever larger, younger fan base. Events such as the Mille Miglia in Italy, the Festival of Speed at Goodwood in England, and Pebble Beach in the U.S. enjoy increasing popularity and booming visitor numbers, year after year. In an opulent coffee table book, Classic Cars Review celebrates the classic car phenomenon by presenting the most beautiful, exciting, and exclusive vintage vehicles, until now only visible in museums or behind the locked doors of private collections. It's a Concours d' l gance in book form, showcasing such icons as the Mercedes-Benz 300 SL Gullwing, Aston Martin DB5, and Rolls-Royce Phantom III, as well as a multitude of extraordinary cars with remarkable histories--whether owned by well-known personalities or ushered in extraordinary successes on the racetrack. Many of these cars were produced in minimal runs or are one of few surviving models. In addition to the vehicles themselves, this must-have classic car book also shows the institutions and key players behind the exclusive vintage car scene. With large, never-before-seen collections and their collectors, Classic Cars Review provides exclusive insights into the world of the largest classic car auction houses, the most innovative classic car dealers, and all the key vintage car events.

Mad for Speed Elsa A. Nystrom,2013-06-06 This book covers Joan Newton Cuneo's life, and her roles (from 1905 to 1915) as the premier female racer in the United States and spokeswoman for women drivers and good roads. Beginning with her family history and marriage to Andrew Cuneo, it traces her life in New York society, the birth of her children, and Joan's growing interest in automobile touring and racing and partnership with Louis Disbrow, her racing mechanic. The book covers Joan's experiences in three Glidden Tours, including her notes on the 1907 tour, her first races, and her rivals. It also looks at the growth and change of automobile culture and the battles for control of racing among the American Automobile Association, the Automobile Club of America, and the American Automobile Manufacturers Association—which ended in banishing women racers shortly after Joan's greatest racing victories at New Orleans (in 1909). The book then follows Joan's attempts to continue racing, the end of her marriage, her move to the Upper Peninsula, and her remarriage and death. The book also includes a chapter on her female rivals in racing and touring.

Healey: The Men and the Machines John Nikas, 2020-01-21 Written in collaboration with Gerry Coker, the designer responsible for the iconic Austin-Healey 100 and Sprite, this extraordinary volume represents the most accurate and complete account of the sports cars built at Warwick, Longbridge, Abingdon and West Bromwich. The author had unprecedented access to Donald and Geoffrey Healey's private papers, diaries, scrapbooks and photo albums, corporate and financial records from BMC, Donald Healey Motor Company and Healey Automobile Consultants, the files of Jensen Motors and Nash-Kelvinator, dozens of personal interviews and exhaustive research into previously unavailable primary source material. As a result, Healey: The Men and the Machines offers a compelling examination of the true story behind these incredible automobiles and the individuals who created them. From his early childhood and heroic service as an aviator in the Royal Flying Corps during the First World War, this book provides a comprehensive account of Donald Healey's motoring career, including competition outings and his involvement with Invicta, Riley and Triumph. The story of the Healey marque's birth during the darkest days of the Second World War is told through the words of the men involved, revealing the myriad obstacles that faced the small team during a period of strict rationing, limited resources and government meddling. Fast, elegant and endowed with excellent handling, the early Healey sports cars were among the fastest in the world, acquitting themselves admirably at events such as the Alpine Rally, Mille Miglia and the 24 Hours of Le Mans, but Warwick's survival was constantly in doubt until the landmark agreement that resulted in the Nash-Healey erased many of small firm's financial struggles. With access to Nash-Kelvinator's internal correspondence for the first time, the authors are able to set the record straight about this crucial period in the marque's history, including the controversial machinations behind the development of the Healey Hundred that made a smash debut at the 1952 London Motor Show. Lavishly illustrated with previously unpublished photographs, Austin-Healey competition and record-breaking efforts are covered in exquisite fashion, seen through the eyes of legendary names like Rauno Aaltonen, Clive Baker, Paddy Hopkirk, Count Johnny Lurani, Lance Macklin, Timo Mäkinen, Roger Menadue, Don and Erle Morley, Pat and Stirling Moss, Carroll Shelby, John Sprinzel, and Ann and Tommy Wisdom. Equally fascinating are the stories behind the troubled Jensen-Healey and Donald Healey's attempts to continue building sports cars well into the 1980s, refusing to enter a sedate retirement that would have been so richly deserved. Destined to become the definitive reference on the subject, Healey: The Men and the Machines includes over 200,000 words, more than 700 detailed footnotes, and eight appendices that cover the competition and record breaking activities of the various models, specifications for every model produced, including the limited production variants, and Donald Healey's personal musings on racing and sports car design. An instant classic, this is a work certain to inform and entertain enthusiasts of the men and machines that brought the world to its feet at a time when Britain was down on its knees.

My Life Full of Cars Paul Frere, 2000 Paul Frere is one of the most respected automotive journalists in the world today and the only person to have successfully pursued simultaneous careers as a professional driver and motorsport journalist. In this fascinating autobiography, Frere draws on his archives of extraordinary notes to relate technical details of the cars he has driven and personal anecdotes from his careers. Key content includes: the family's first car, a Fiat 501, and perilous journeys on French roads ravaged by World War I; his first car, a 2LTS Ballot; his race debut at Spa 24 Hours; experiences driving Formula 1 cars for HW Motors, Equipe Gordini, and Ferrari in the 1950s; his second-place finish in the 1956 Belgian Grand Prix after only ten practice laps in a car he had never driven; winning Le Mans in 1960; and helping Japanese manufacturers design and test cars to suit European tastes.

BMW Racing Cars Karl Ludvigsen, 2007-09-27 Success of the 315 roadster in the 1934 Alpine Trial put BMW on the road to sporting success, spawning the creation of the high-performance 328 in 1936 and its racing achievements before and after the war. Further achievements featured in this Ludvigsen Library photo book include: winning the 1940 Mille Miglia with a 328 coupe; its post-war influence on Veritas; hillclimb championships with the 700 Spyder and 507; Ludwig Apfelbeck's radial 16-valve engine for record-breaking and Formula 2; a turbo four for touring-car racing and twin-cam fours for Formula 2 success; the ultimate turbo four for Grand Prix racing that produced 1,000 bhp and won the 1983 world championship; racing winged 6-Series coupes and winning Le Mans with V12 engines, first with McLaren and later with BMW's own Spyder; entering Formula 1 with Williams in 2000 and buying the Sauber team to compete as BMW in 2006. Karl Ludvigsen's informative introduction emphasizes the great engines that have powered BMW to success on the world's circuits.

Formula 1: Car by Car 1950-59 Peter Higham, 2020-07-14 The formative years of the 1950s are explored in this fourth installment of Evro's decade-by-decade series covering all Formula 1 cars and teams. When the World Championship was first held in 1950, red Italian cars predominated, from Alfa Romeo, Ferrari and Maserati, and continued to do so for much of the period. But by the time the decade closed, green British cars were in their ascendancy, first Vanwall and then rear-engined Cooper playing the starring roles, and BRM and Lotus having walk-on parts. As for drivers, one stood out above the others, Argentine Juan Manuel Fangio, becoming World

Champion five times. Much of the fascination of this era also lies in its numerous privateers and also-rans, all of which receive their due coverage in this complete work. Year-by-year treatment covers each season in fascinating depth, running through the teams -- and their various cars -- in order of importance. Alfa Romeo's supercharged 11002-litre cars dominated the first two years, with titles won by Giuseppe Farina (1950) and Fangio (1951). The new marque of Ferrari steamrolled the opposition in two seasons run to Formula 2 rules (1952-53), Alberto Ascari becoming champion both times, and the same manufacturer took two more crowns with Fangio (1956) and Mike Hawthorn (1958). Maserati's fabulous 250F, the decade's most significant racing car, propelled Fangio to two more of his five championships (1954 and 1957). German manufacturer Mercedes-Benz stepped briefly into Formula 1 (1954-55) and won almost everything with Fangio and up-and-coming Stirling Moss. Green finally beat red when the Vanwalls, driven by Moss and Tony Brooks, won the inaugural constructors' title (1958). Then along came Cooper, rear-engine pioneers, to signpost Formula 1's future when Jack Brabham became World Champion (1959).

The Little Red Racing Car ,2013 A vintage racing car, walled off in an old barn, is discovered by a boy and rebuilt with his father. Along the way, they discover that the car has a very special history and was once raced by the great Sir Stirling Moss.
