Three Shadows Cyril Pedrosa, 2008-04-01 Can you ever escape your fate? Three shadows stand outside

the house - and Louis and Lise know why the spectral figures are there. The shadows have come for Louis and Lise's son, and nothing anyone can do will stop them. Louis cannot let his son die without trying to prevent it, so the family embarks on a journey to the ends of the earth, fleeing death. Poignant and suspenseful, *Three Shadows* is a haunting story of love and grief, told in moving text and sweeping black and white artwork by Cyril Pedrosa.

Pablo & Jane and the Hot Air Contraption Jose Domingo, 2015-10-20 A strange green glow is coming from the old house up on the hill, and when Pablo and Jane decide to inquire they make an unexpected discovery! Zapped into the Monster Dimension by the evil cat, Dr. Felinibus, they must now find a way home in the broken Hot Air Time Machine, with a little help from their friend Dr. Jules (a nineteenth century scientist trapped inside the body of a rat). Help Pablo, Jane, and Dr. Jules as they race for their lives through Lopsided London, Terrifying Transylvania, Horrid Hawaii to find the missing parts of their machine and avoid the terrors of the Monster Dimension.

Music Scenes Andy Bennett, Richard A. Peterson, 2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive

lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hiphop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

Wandering Luminations: The Art of Tara McPherson
Tara McPherson, 2019-06-18 Tara McPherson returns with another stunning art book! The chaotic wonders of science, mythology and the power of the feminine form are at the core of this stunning art

collection. *Wandering Luminations: The Art of Tara McPherson* showcases the artist's most recent and ambitious creations from that solo exhibition, as well as works from her *I Know It By Heart* and *Supernova* series of paintings.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

If You Go, All the Plants Will Die Fred Mitchell, 2021-03-30 Like a country song but without the country part, *If You Go, All the Plants Will Die* explores failed relationships through dead plants. While living in Las Vegas and suffering through the stages of a deteriorating relationship, Fred Mitchell became hyper-aware of

dying plants all around, mirroring and mocking his private life. He decided to embrace the absurdity and began documenting the haunting flora both in nature and in the studio. The book has a hand-crafted feel - the pages are semi-transparent to allow color fields to come through and impact the imagery, and the book is saddle-stitched with a silk-screened cover.

Star Wars Origami , 2012-08-07 Kids love origami—and what could be cooler than transforming a piece of paper into Boba Fett, Princess Leia, Yoda, or R2-D2? And not just any paper, but custom-designed paper illustrated with art from the movies. Star Wars® Origami marries the fun of paper folding with the obsession of Star Wars. Like *The Joy of Origami* and *Origami on the Go*, this book puts an original spin on an ancient art. And like *Star Wars® Scanimation®* and *Star Wars® Fandex®*, it's a fresh take on Star Wars mania. Chris Alexander is a master folder and founder of the popular website *StarWarsOrigami.com*, and here are 36 models, clearly explained, that range in difficulty from Youngling (easy) to Padawan (medium), Jedi Knight (difficult), and Jedi Master (tricky!). A front section introduces origami definitions and basic folds. Bound in the back is the book's unique folding paper, two sheets for each figure. Illustrated with original art, it makes each creation—the essential lightsabers, the Death Star, and much more—true to the movies. *Star Wars Origami* includes a foreword by Tom

Angleberger, author of the New York Times bestsellers *The Strange Case of Origami Yoda* and *Darth Paper Strikes Back*, and is scheduled to be published at the same time as Angleberger's upcoming book, *The Secret of the Fortune Wookiee*.

Vera Susan Seid,2010-09-01 Legendary designer and artist Vera Neumann (1907-1993) believed in art's ability to inspire and enrich lives. An innovator and one of the most successful female entrepreneurs of her time, Vera built her company on a radical philosophy: fine art should be accessible to everyone, not just a select few. Known for her iconic images of cheerful flowers, trendy geometrics, and vibrant ladybugs, she believed people should surround themselves with beauty. For the first time, *Vera: The Art and Life of an Icon*, tells her inspiring story through the art and designs she created. In this volume, richly illustrated with Vera's original sketches, paintings, and photographs of her worldwide travels, readers are introduced to the amazing woman behind the dynamic designs that continue to inspire and influence art, design, and fashion.

Alice Chrissy Merton, 2007 Chrissy lives in Camberwell. This dramatic memoir of her experience of pregnancy and motherhood will touch the heart of anyone, male or female, who has ventured along the path to parenthood. It is a brave and compelling story of adversity but also of how exceptionally challenging life experiences can shape our view of the world and those around us in a positive way. When she was six months pregnant Chrissy was told that her baby had a 50/50 chance of survival. From this point on pain and uncertainty are constants of every waking hour but so too is the unswerving support of her husband and family and the larger than life Professor Kypros Nicolaides at King's College Hospital. This is an emotional and painful book but it will also leave you with increased faith in human compassion, fortitude and spirit.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for

German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
