Sheepwagon Nancy Weidel,2001 Sheepwagon: A Home on wheels with an intriguing history, designed to house a shepherd as he follows his flocks across the grasslands and mountains. A marvel of practicality and efficiency. But on a rare occasion, as I zoom down a highway, I spot the white top of a sheepwagon -- a lonely sentinel on the endless horizon -- and it fills my imagination. This photo-intensive book gives the history of the sheepwagon and the surrounding sheep business. Here are chapters on the early days of Western sheep-raising; the origins and manufacturing of sheepwagons; traditional shepherders: their superstitions, customs and pastimes; women and families who lived in sheepwagons; the Basque influence; and modern-day herders, sheepwagons, and restorers. Author Weidel spent years interviewing sheepmen and women, shepherders, wagon builders, and experts for this, the only book on the fascinating first mobile home. The oblong book format complements the many photographs, most never before published.

The Butterfield Overland Mail Waterman L. Ormsby,2018-12-05 This is the classic firsthand account by Waterman L. Ormsby, a reporter who in 1858 crossed the western states as the sole through passenger of the Butterfield Overland Mail stage on its first trip from St. Louis to San Francisco. Ormsby's reports, which soon appeared in the New York Herald, are lively and exciting. He describes the journey in close detail, giving full accounts of the accommodations, the other passengers, the country through which they passed, the dangers to which they were exposed, and the constant necessity for speed. "A most interesting account of the first westbound trip of an overland mail stage."--Southern California Historical Society Quarterly "The best narrative of the trip and one of the best accounts of western travel by stage."--Pacific Historical Review "If other travelers had been as careful and observant as Ormsby we should know vastly more about our country and the ways of our fathers than we do...The book is fascinating. It will prove interesting to all who care for travelogues, the history of the West, and particularly to those interested in our economic history."--Journal of Economic History

Ship Modeling Simplified: Tips and Techniques for Model Construction from Kits Frank Mastini,1990-03-22 In Ship Modeling Simplified, master model builder Frank Mastini puts to paper the methods he's developed over 30 years at the workbench to help novices take their first steps in an exciting pastime. You don't need the deftness of a surgeon or the vocabulary of an old salt to build a model. What you need is an understanding coach. Mastini leads readers from the mysteries of choosing a kit and setting up a workshop through deciphering complicated instructions and on to painting, decorating, and displaying finished models--with patience and clarity, not condescension. He reveals dozens of shortcuts: How to plank a hull egg-shell tight; how to build and rig complicated mast assemblies without profanity; how to create sails that look like sails. . . . And along the way he points out things that beginners usually do wrong--beforehand, not after they've taken hammers to their

projects. Ship Modeling Simplified even includes an Italian-English dictionary of nautical terms, the key to assembling the many high-quality Italian kits on the American market. Model building is fun, and not nearly as difficult as some experts would have you believe. Here is everything you'll ever need to get started in a hobby that will last a lifetime.

The Man and the Statesman édéric Bastiat, 2011 Liberty Fund's new six-volume The Collected Works of Frederic Bastiat series, of which The Man and the Statesman is the first volume, may be considered the most complete

edition of Bastiat's works published to date, in any country, and in any language. The main source for this translation is the seven-volume *Oeuvres completes de Frederic Bastiat*, published in the 1850s and 1860s. The present volume, most of which has never before been translated into English, includes Bastiat's complete correspondence: 207 letters Bastiat wrote between 1819, when he was only 18 years old, until just a few days before his untimely death in 1850 at the age of 49. For contemporary classical liberals, Bastiat's correspondence will provide a unique window into a long-forgotten world where opposition to war and colonialism went hand-in-hand with support for free trade and deregulation. Bastiat's numerous letters to Richard Cobden, a Member of Parliament and best known today as the leader of the British Anti-Corn Law League, chronicle the profound effect the Anti-Corn League had on Bastiat. The League's success in mobilizing a popular movement in England to pressure the British government into abolishing the very protectionist corn laws, in 1846, inspired Bastiat to emulate the League's success in France by starting his own free-trade movement. The *Man and the Statesman* also includes articles and other writings on politics and current events that showcase Bastiat's talent as a theoretician, a pamphleteer, a journalist, and a deputy (Member of Parliament) of the nascent French Second Republic. Together with the correspondence, the writings in this volume fill an important gap in our understanding of the lesser-known Bastiat, who, in just a few short years, made a profound impact on French intellectual and political life in Paris. Forthcoming titles in The Collected Works of Frederic Bastiat series include: *The Law, The State, and Other Political Writings, 1843-1850 Economic Sophisms and What is Seen and What is Not Seen Miscellaneous Works on Economics: From Jacques-Bonhomme to Le Journal des economistes Economic Harmonies The Struggle Against Protectionism: The English and French Free-Trade Movements Frederic Bastiat (1801-1850)* was born in the French port city of Bayonne and became one of the leading advocates of free markets and free trade in the mid-nineteenth century. A theorist of classical liberal political economy and an elected member of various French political bodies, he opposed both protectionism and the rise of socialist ideas. Jacques de Guenin is president of the Cercle Frederic Bastiat. He is a graduate of the *ecole des Mines* in Paris and holds a Master of Sciences from the University of California, Berkeley. Jean-Claude Paul-Dejean is a historian from the University of Bordeaux and a Bastiat scholar. Dennis O'Keefe is Professor of Social Science at the University of Buckingham, Buckingham, England, and is Senior Research Fellow in Education at the Institute of Economic Affairs, London. David M. Hart received a Ph.D. in history from King's College, Cambridge, and is the Director of Liberty Fund's Online Library of Liberty Project.
