Doctor Dealer Mark Bowden, 2007-12-01 From the # 1 New York Times–bestselling author of *Black Hawk Down: The “shocking” story of the country’s unlikely drug kingpin* (The Baltimore Sun). By the early 1980s, Larry Lavin had everything going for him. He was a bright, charismatic young man who rose from working-class roots to become a dentist with an Ivy League education and a thriving practice, and a beloved father with a well-respected family in one of Philadelphia’s most exclusive suburbs. But behind the façade of his success was a dark secret: Lavin was also the mastermind behind a cocaine empire that spread from Miami to Boston to New Mexico, catering to lawyers, stockbrokers, and other professionals, and generating an annual income of \$60 million for the good doctor. Now, Mark Bowden, a “master of narrative journalism” (The New York Times Book Review) tells the harrowing saga of Lavin’s rise and fall in “a shocking American tragedy . . . [that] shoots straight from the hip” (Pittsburgh Post-Gazette). “An engrossing crime story and a compelling morality tale.” —The Arizona Republic “Has all the elements of a chilling suspense thriller . . . A smoothly crafted, exciting, can’t-put-it-down book.” —The New Voice (Louisville)

Wheelwright and best-selling author Bernd Heinrich teach nature lovers of all ages what to look for outdoors no matter where you live, using Heinrich’s classic illustrations as inspiration. Poetics of Children's Literature Zohar Shavit, 2009-11-01 Since its emergence in the seventeenth century as a distinctive cultural system, children's literature has had a culturally inferior status resulting from its existence in a netherworld between the literary system and the educational system. In addition

to its official readership—children—it has to be approved of by adults. Writers for children, explains Zohar Shavit, are constrained to respond to these multiple systems of often mutually contradictory demands. Most writers do not try to bypass these constraints, but accept them as a framework for their work. In the most extreme cases an author may ignore one segment of the readership. If the adult reader is ignored, the writer risks rejection, as is the case of popular literature. If the writer utilizes the child as a pseudo addressee in order to appeal to an adult audience, the result can be what Shavit terms an ambivalent work. Shavit analyzes the conventions and the moral aims that have structured children's literature, from the fairy tales collected and reworked by Charles Perrault and the Brothers Grimm—in particular, “Little Red Riding Hood”—through the complex manipulations of Lewis Carroll in *Alice's Adventures in Wonderland*, to the subversion of the genre's canonical requirements in the chapbooks of the eighteenth century, and in the formulaic Nancy Drew books of the twentieth century. Throughout her study Shavit, explores not only how society has shaped children's literature, but also how society has been reflected in the literary works it produces for its children.

A Hedonist Manifesto Michel Onfray, 2015-11-10 Michael Onfray passionately defends the potential of hedonism to resolve the dislocations and disconnections of our melancholy age. In a sweeping survey of history's engagement with and rejection of the body, he exposes the sterile conventions that prevent us from realizing a more immediate, ethical, and embodied life. He then lays the groundwork for both a radical and constructive politics of the body that adds to debates over morality, equality, sexual relations, and social engagement, demonstrating how philosophy, and not just modern scientism, can contribute to a humanistic ethics. Onfray attacks Platonic idealism and its manifestation in Judaic, Christian, and Islamic belief. He warns of the lure of attachment to the purportedly eternal, immutable truths of idealism, which detracts from the immediacy of the world and our bodily existence. Insisting that philosophy is a practice that operates in a real, material space, Onfray enlists Epicurus and Democritus to undermine idealist and theological metaphysics; Nietzsche, Bentham, and Mill to dismantle idealist ethics; and Palante and Bourdieu to collapse crypto-fascist neoliberalism. In their place, he constructs a positive, hedonistic ethics that enlarges on the work of the New Atheists to promote a joyful approach to our lives in this, our only, world.

The Dynamics of the Breakthrough in Eastern Europe Jadwiga Staniszkis, 2023-11-10 Understanding the dramatic political, social, and economic changes that have taken place in Poland in the mid-1980s is one key to predicting the future of the communist bloc. Jadwiga Staniszkis, an influential, internationally known expert on contemporary trends in Eastern Europe, provides an insider's analysis that deserves the attention of all scholars interested in the region. Staniszkis presents the breakthrough of 1989 as a consequence not only of systemic contradictions within socialism but also of a series of chance events. These events include unique historical circumstances such as the emergence of the globalist faction in Moscow, with its new, world-system perception of crisis, and the discovery of the round-table technique as a productive ritual of communication, imitated all over Eastern Europe. After describing the development, collapse,

and reorganization of a new center in Poland in 1989-1990, she discusses the first attempt at privatizing the economy. Her analysis of the dilemmas accompanying breakthrough and transition is an invaluable guide to the challenges that face both capitalism and democracy in Eastern Europe.
