**One Damn Thing After Another** Nicolas Freeling,2014-10-16 Since setting up shop in Strasbourg with her new husband, Arlette, widow to the notorious Van der Valk, has garnered something of a name for herself. Getting shot at, kidnapped and blackmailed seem to have simply become a part of daily life. Being taken under the wing of the local police commissioner has come in handy – especially when it came to the gun license – but being connected to the police can be dangerous. When Arlette returns from a relaxing holiday, she finds that her cases have not stalled in her absence, but piled up one on top of the other. Dealing with the different issues of her clients is one thing, but when one particularly nasty case arises, Arlette must decide if she will break the police commissioner's cardinal rule, and stick her nose into police business. *One Damn Thing After Another*, first published in 1981, sees Arlette plunging into danger, and acting the part of a private eye once again.

**Fifty Years of Causes of Delinquency, Volume 25** James C. Oleson, Barbara J. Costello, 2019-11-20 This volume marks the 50th anniversary of the publication of Travis Hirschi's seminal work *Causes of Delinquency*. The influence of Hirschi's book, and the theory of social control it described, can scarcely be overstated. Social control theory has been empirically tested or commented on by hundreds of scholars and is generally regarded as one of the three dominant theories of crime. The current work highlights the impact that social control theory has had on criminological theory and research to date. Agnew's contribution highlights the role that Hirschi's tests of control versus strain theory had in contributing to the near demise of classic strain theories, and to the subsequent development of general strain theory. Serrano-Maillo relates control to drift, and Tedor and Hope compare the human nature assumptions of control theory to the current psychological literature. Other contributions return to Hirschi's original Richmond Youth Survey (RYS) data and demonstrate the robustness of Hirschi's major findings. Costello and Anderson find strong support for Hirschi's predictions in an analysis of a diverse group of youths in Fayetteville, Arkansas, in 1999; Nofziger similarly finds support for Hirschi's predictions with an analysis of the girls in the RYS, and explores the criticisms of social control theory that were the result of Hirschi's failure to analyze the data from the girls in the sample. Kempf-Leonard revisits her seminal 1993 survey of control theory and reviews the current empirical status of control theory. Other contributions explore new directions for both social control theory and self-control theory. The contribution by Cullen, Lee, and Butler

holds that one element of the social bond, commitment, was under-theorized by Hirschi, and the authors present a more in-depth development of the concept. Quist explores the possibility of expanding social control theory to explicitly incorporate exchange theory concepts; Ueda and Tsutomi apply control theory cross-culturally to a sample of Japanese students; and Felson uses control theory to organize criminological ideas. Vazsonyi and Javakhishvili's contribution is an empirical analysis of the connections between social control in early childhood and self-control later in life; Chapple and McQuillan's contribution suggests that the gender gap in delinquency is better explained by increased controls in girls than by gendered pathways to offending. Oleson traces the evolution of Hirschi's control theory, and suggests that, given the relationships between fact and theory, a biosocial model of control might be a promising line of inquiry. *Fifty Years of Causes of Delinquency: The Criminology of Travis Hirschi* describes the current state of control theory and suggests its future directions, as well as demonstrates its enduring importance for criminological theory and research. The volume will be of interest to scholars working in the control theory tradition as well as those critical of the perspective, and is suitable for use in graduate courses in criminological theory.

*FORTRAN Programming, a Spiral Approach* Charles B. Kreitzberg, Ben Shneiderman, 1982

*Children, Women, Men* Sundara Ramaswamy, 2013-05-24 This intricately woven narrative is one of the landmark novels of Indian modernism. This ambitious novel, teeming with characters, focuses on the family of Srinivasa Aiyar or SRS, who moves from his ancestral house in Alapuzhai in Kerala, to the more

modern Kottayam, before returning to his wife Lakshmi's home in Nagercoil in Tamil Nadu. Set in the late 1930s and reflecting the political and social turmoil of the pre-war years, it chronicles the psychological conflict between SRS and his nine-year-old son, Balu; the moral struggle of a young widow, Anandam, as she considers remarriage; and the political journey of Sridaran, who chooses to break off his studies in England in order to join nationalist activities at home.
