Illustrated Guide to Home Biology Experiments Robert Thompson,Barbara Fritchman Thompson,2012-04-19 Perfect for middle- and high-school students and DIY enthusiasts, this full-color guide teaches you the basics of biology lab work and shows you how to set up a safe lab at home. Features more than 30 educational (and fun) experiments.

Concepts of Biology Samantha Fowler,Rebecca Roush,James Wise,2018-01-07 Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary

basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

Sheep in a Jeep Nancy E. Shaw, 1986 Beep Beep Sheep in a jeep on a hill that s steep. Sheep in a Jeep is well-loved by the preschool and early-reader sets for its slapstick story of five sheep (in a jeep) and silly sound effects especially when the jeep goes splash and thud in the mud Nancy Shaw s rollicking rhymes are Seuss-snappy, and Margot Apple s appealing pencil illustrations are expressive and hilarious. Shear delight. Don t miss Shaw and Apple s other sheep-heaped titles: Sheep in a Shop, Sheep on a Ship, Sheep Out to Eat, Sheep Trick or Treat, Sheep Blast Off, and Sheep Take a Hike.

Art Lab for Kids Susan Schwake, 2012-02 A refreshing source of ideas for creating fine art with children, Art Lab for Kids encourages the artist's own voice, marks, and style.

Bartholomew and the Oobleck Dr. Seuss,2013-11-05 Join Bartholomew Cubbins in Dr. Seuss's Caldecott Honor-winning picture book about a king's magical mishap! Bored with rain, sunshine, fog, and snow, King Derwin of Didd summons his royal magicians to create something new and exciting to fall from the sky. What he gets is a storm of sticky green goo called Oobleck—which soon wreaks havoc all over his kingdom! But with the assistance of the wise page boy Bartholomew, the king (along with young readers) learns that the simplest words can sometimes solve the stickiest problems.

My Body Emily Ratajkowski,2022-09-13 INSTANT NEW YORK TIMES BESTSELLER My Body offers a lucid examination of the mirrors in which its author has seen herself, and her indoctrination into the cult of beauty as defined by powerful men. In its more transcendent passages . . . the author steps beyond the reach of any 'Pygmalion' and becomes a more dangerous kind of beautiful. She becomes a kind of god in her own right: an artist. —Melissa Febos, The New York Times Book Review A deeply honest investigation of what it means to be a woman and a commodity from Emily Ratajkowski, the archetypal, multi-hyphenate celebrity of our time Emily Ratajkowski is an acclaimed model and actress, an engaged political progressive, a formidable entrepreneur, a

global social media phenomenon, and now, a writer. Rocketing to world fame at age twenty-one, Ratajkowski sparked both praise and furor with the provocative display of her body as an unapologetic statement of feminist empowerment. The subsequent evolution in her thinking about our culture's commodification of women is the subject of this book. *My Body* is a profoundly personal exploration of feminism, sexuality, and power, of men's treatment of women and women's rationalizations for accepting that treatment. These essays chronicle moments from Ratajkowski's life while investigating the culture's fetishization of girls and female beauty, its obsession with and contempt for women's sexuality, the perverse dynamics of the fashion and film industries, and the gray area between consent and abuse. Nuanced, fierce, and incisive, *My Body* marks the debut of a writer brimming with courage and intelligence.

All the Light We Cannot See Anthony Doerr, 2014-05-06 *NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (*Stranger Things*) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by

touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times).

The Quiet Center John C. Lilly, Phillip Hansen Bailey Lilly, 2011-06-15 The Quiet Center presents the core of Dr. John Lilly's groundbreaking isolation experiments, edited into an accessible format for a new generation to embrace the revolutionary thinking of this fascinating scientist. It is a book that distills the essence of Dr. Lilly's philosophies—higher consciousness, the

varieties of isolation experience, heightened awareness—and minimizes the scientific jargon to make his theories and examples accessible to the general reader who is searching for heightened conscious experience and serene self-awareness. As a pioneer in the research of animal intelligence, altered states of consciousness and isolation tank experiments, Lilly, like his peers Timothy Leary, Alan Watts, Carlos Casteneda and Charles Tart, can and should be read by a whole new generation seeking to extend his ideas that blend science and philosophy as a means to see new truths to themselves and to seek shelter from the onslaught of external stimuli in today's society. Whether the reader can use an actual tank or devises their own isolation space, The Quiet Center is the first word in isolation therapy for the new millennium.

Balloons over Broadway Melissa Sweet, 2011-11-01 From Caldecott Honor artist Melissa Sweet comes the perfect Thanksgiving Day picture book. Let's have a parade! Meet the master puppeteer who invented the first balloons for the Macy's Thanksgiving Day Parade. Melissa Sweet brings to life the inspirational story of the puppeteer who invented the giant balloons floating in the sky during the annual parade celebrating Thanksgiving. The Caldecott Honor artist brilliantly captures the essence of Tony Sarg, a self-taught immigrant with a fascinating imagination. The collage illustrations coupled with Sweet's storytelling portray Sarg's joy in his childhood inventions and his ingenious balloon creations that still bring delight to viewers around the country. This nonfiction illustrated book will capture the hearts of all ages. "This clever marriage of information and illustration soars high." (Kirkus starred review)
