Larry Sultan, Mike Mandel

A Woman's Guide to the Wild Ruby McConnell,2016-03-15 For women who enjoy hiking, camping, backpacking, and other outdoor recreation or those inspired by Cheryl Strayed's *Wild*, this is the definitive guide to being a woman in the great outdoors. This friendly handbook covers the matters of most concern to women, from "feminine functions" in the wilderness to how to deal with condescending men, as well as the basics of wilderness survival tailored to women's unique needs. It includes gear lists in addition to advice for camp setup, fire building, food and water, safety, weather, and navigation.

Evidence Larry Sultan, Mike Mandel,2003 Larry Sultan and Mike Mandel began working collaboratively together in 1973 while graduate students at the San Francisco Art Institute. They work together on occasional projects that include artists' books, exhibitions and public art.

The Fire She Fights Tracy Moore,2021-10-07 Ruby, Dana, Brazil, and Jessie--choose the extraordinary when they join the Minneapolis Fire Department. Prepared to fight literal fires, none of them anticipates the threats lurking in the dark corners of the firehouse. Is it better to secure her own place in a flawed system or fight for a better system for everyone?

Off the Grid Phillip Vannini, Jonathan Taggart,2014-10-30 Off-grid isn't a state of mind. It isn't about someone being out of touch, about a place that is hard to get to, or about a weekend spent offline. Off-grid is the property of a building (generally a home but sometimes even a whole town) that is disconnected from the electricity and the natural gas grid. To live off-grid, therefore, means having to radically re-invent domestic life as we know it, and this is what this book is about: individuals and families who have chosen to live in that dramatically innovative, but also quite old, way of life. This ethnography explores the day-to-day lives of people in each of Canada's provinces and territories living off the grid. Vannini and Taggart demonstrate how a variety of people, all with different environmental constraints, live away from contemporary civilization. The authors also raise important questions about our social future and whether off-grid living creates an environmentally and culturally sustainable lifestyle practice. These homes are experimental labs for our collective future, an intimate look into unusual contemporary domestic lives, and a call to the rest of us leading ordinary lives to examine what we take for granted. This book is ideal for courses on the environment and sustainability as well as introduction to sociology and introduction to cultural anthropology courses.

Shovel-Truck Systems Jacek M. Czaplicki,2008-11-17 This book provides a comprehensive analysis of the exploitation process of shovel-truck systems using modelling, analysis and calculations

following specific procedures:- analyzing the reliability and accessibility of shovels- discussing the functioning of a truck-repair shop system- reliability of trucks- existence of haulers reserve- repair shop

Engineering in the Confederate Heartland Larry J. Daniel,2022-09-14 While engineers played a critical role in the performance of both the Union and Confederate armies during the Civil War, few historians have examined their experiences or impact. Larry J. Daniel's *Engineering in the Confederate Heartland* fills a gap in that historiography by analyzing the accomplishments of these individuals working for the Confederacy in the vast region between the Appalachian Mountains and the Mississippi River, commonly referred to as the Western Theater. Though few in number, the members of the western engineer corps were vital in implementing Confederate strategy and tactics. Most Confederate engineers possessed little to no military training, transitioning from the civilian tasks of water drainage, railroad construction, and land surveys to overseeing highly technical war-related projects. Their goal was simple in mission but complex in implementation: utilize their specialized skills to defeat, or at least slow, the Union juggernaut. The geographical diversity of the Heartland further complicated their charge. The expansive area featured elevations reaching over six thousand feet, sandstone bluffs cut by running valleys on the Cumberland Plateau, the Nashville basin's thick cedar glades and rolling farmland, and the wind-blown silt soil of the Loess Plains of the Mississippi Valley. Regardless of the topography, engineers encountered persistent flooding in all sectors. Daniel's study challenges the long-held thesis that the area lacked adept professionals. Engineers' expertise and labor, especially in the construction of small bridges and the laying of pontoons, often proved pivotal. Lacking sophisticated equipment and technical instruments, they nonetheless achieved numerous successes: the Union army never breached the defenses at Vicksburg or Atlanta, and by late 1864, the Army of Tennessee boasted a pontoon train sufficient to span the Tennessee River. Daniel uncovers these and other essential contributions to the war effort made by the Confederacy's western engineers.

Ruthless Carolyn Lee Adams,2016-07-12 When Ruth is kidnapped, she's determined not to become this serial-killer's next trophy. After she's able to escape, her captor begins stalking her through the wilderness--

Penpal Dathan Auerbach,2012-07

King of the Cowboys Ty Murray,2010-07-06 The most famous rodeo champion of all time tells his amazing true story -- and opens a fascinating window into the world of the professional cowboy. Ty Murray was born to be a rodeo star -- in fact, his first words were I'm a bull rider. Before he was even out of diapers, he was climbing atop his mother's Singer sewing machine case, which just so

happened to be the perfect mechanical bull for a 13-month-old. Before long, Ty was winning peewee events by the hatful, and his special talent was obvious...obvious even to a man called Larry Mahan. At the time the greatest living rodeo legend, six-time champion Mahan invited a teenaged Ty Murray to spend a summer on his ranch learning not just rodeoing but also some life lessons. Those lessons prepared Ty for a career that eventually surpassed even Mahan's own -- Ty's seven All-Around Championships. In *King of the Cowboys*, Ty Murray invites us into the daredevil world of rodeo and the life of the cowboy. Along the way, he details a life spent constantly on the road, heading to the next event; the tragic death of his friend and fellow rodeo star Lane Frost; and the years of debilitating injuries that led some to say Ty Murray was finished. He wasn't. In fact, Ty Murray has brought the world of rodeo into the twenty-first century, through his unparalleled achievements in the ring, through advancing the case for the sport as a television color-commentator, and through the Professional Bull Riders, an organization he helped to build. In the end, though, Ty Murray is first and foremost a cowboy, and now that he's retired from competition, he takes this chance to reflect on his remarkable life and career. In *King of the Cowboys*, Ty Murray opens up his world as never before.

Jazzlife William Claxton, Joachim E. Berendt, 2008-03 In 1960, photographer William Claxton and noted German musicologist Joachim Berendt traveled the United States hot on the trail of jazz music. The result of their collaboration was an amazing collection of photographs and recordings of legendary artists as well as unknown street musicians. The book *Jazzlife*, the original fruit of their labors, has become a collector's item that is highly treasured among jazz and photography fans. In 2003, TASCHEN began reassembling this important collection of material ? along with many never-before-seen color images from those trips. They are brought together in this updated volume, which includes a foreword by Claxton tracing his travels with Berendt and his love affair with jazz music in general. Utilizing the benefits of today's digital technology, a restored audio CD from Joachim Berendt's original recordings has been produced and is included in this package. Jazz fans will be delighted to be able to take a jazz-trip through time, both seeing and hearing the music as Claxton and Berendt originally experienced it. Featuring photographs of Charlie Parker, Count Basie, Duke Ellington, Muddy Waters, Gabor Szabo, Dave Brubeck, Stan Getz, Billie Holiday, Ella Fitzgerald, Miles Davis, Charlie Mingus, Thelonious Monk, John Coltrane, and many more Includes bonus CD of digitally remastered recordings of music made during Berendt and Claxton's journey (originally released in 1960 as two records)

Eating Dirt Charlotte Gill, 2012 Charlotte Gill spent twenty years working as a tree planter in

Canadian forests. In this book, she examines the environmental impact of logging and celebrates the value of forests from a perspective of someone whose work caught them between environmentalists and loggers.

Alienation Ines Estrada, 2019-04-10 Drawn in hazy gray pencil and printed in blue pantone ink, this book is about Elizabeth, an exotic dancer in cyberspace, and Carlos, who was just fired from the last human-staffed oil rig, attempting to keep their romance alive. When they realize that their bodies are full of artificial organs and they live almost entirely online, they begin to question what being human actually means. Do our ancestral, or even animal, instincts eventually kick in, or are we transcending the limits of our bodies? When an unplanned pregnancy is caused by an AI hack, Elizabeth must decide if the child is the next step in evolution or a glitch that will wipe out humanity once and for all.

Fall of Giants Ken Follett, 2011-08-30 Ken Follett's magnificent historical epic begins as five interrelated families move through the momentous dramas of the First World War, the Russian Revolution, and the struggle for women's suffrage. A thirteen-year-old Welsh boy enters a man's world in the mining pits. . . . An American law student rejected in love finds a surprising new career in Woodrow Wilson's White House. . . . A housekeeper for the aristocratic Fitzherberts takes a fateful step above her station, while Lady Maud Fitzherbert herself crosses deep into forbidden territory when she falls in love with a German spy. . . . And two orphaned Russian brothers embark on radically different paths when their plan to emigrate to America falls afoul of war, conscription, and revolution. From the dirt and danger of a coal mine to the glittering chandeliers of a palace, from the corridors of power to the bedrooms of the mighty, *Fall of Giants* takes us into the inextricably entangled fates of five families—and into a century that we thought we knew, but that now will never seem the same again. . . .

Industrial Engineering and the Engineering Digest, 1911

The Dandelion's Tale Kevin Sheehan, 2014-03-11 In this poignant story about the friendship between a dandelion and a sparrow, young readers are given a reassuring, yet emotionally powerful introduction to the natural cycle of life. One fine summer day, when Sparrow meets a dandelion with only 10 seed pods left, he asks how he can help. Dandelion laments that a short while ago, she was the brightest yellow, but now a strong wind could blow away her remaining pods and no one will remember her. Together, they decide to write Dandelion's story in the dirt, and so Dandelion tells Sparrow all the things she has seen and loved. Later that night, a storm changes everything. . . . But

the tale of Dandelion lives on.

Bringing the Shovel Down Ross Gay, 2011-01-23 Bringing the Shovel Down is a re-imagination of the violent mythologies of state and power. These poems speak out of a global consciousness as well as an individual wisdom that is bright with pity, terror, and rage, and which asks the reader to realize that she is not alone--that the grief he carries is not just his own. Gay is a poet of conscience, who echoes Tomas Tranströmer's 'We do not surrender. But want peace.' --Jean Valentine Ross Gay is some kind of brilliant latter-day troubadour whose poetry is shaped not only by yearning but also play and scrutiny, melancholy and intensity. I might be shocked by the bold, persistent love throughout Bringing the Shovel Down if I wasn't so wooed and transformed by it. --Terrance Hayes

The Things They Carried Tim O'Brien, 2009-10-13 Look for O'Brien's new book, American Fantastica, on sale October 24th A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, The Things They Carried is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. The Things They Carried depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. The Things They Carried won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Whiskey Words & a Shovel R.H. Sin, 2016-06-07 R.H. Sin's second volume continues the passion and vigor of his previous publication. His stanzas inspire strength through the pure emotional energy and the vulnerability of his poems. Relationships, love, pain, and fortitude are powerfully rendered in his poetry, and his message of perseverance in the face of emotional turmoil cuts to the heart of modern-day life. R.H. Sin's poems are often only a few lines long, and yet the emotional punch of his language gives these words an enduring power beyond the short page. He doesn't back away from the pains and struggles of life and love, and yet his determined, unapologetic voice provides a measure of comfort and a message of perseverance that is at once realistic and indomitable. This blend of determination and painful vulnerability gives his poetry a distinctive, engaging flavor.

CriCTOR Tomi Ungerer, 1983-07-14 'A highly diverting picture book about an agreeable pet boar

constrictor that earns the affection and gratitude of a French village.’ —BL. ‘Children will love it.’ —H. Notable Children's Books of 1940–1959 (ALA) 1959 Fanfare Honor List (The Horn Book) A Reading Rainbow Selection 1958 Children's Spring Book Festival Prize (NY Herald Tribune)
