Dutch Ships in Tropical Waters Robert Parthesius, 2010 The end of the 16th century saw Dutch expansion in Asia, as The Dutch East India Company (the VOC) was fast becoming an Asian power, both political and economic. By 1669, the VOC was the richest private company the world had ever seen. This landmark study looks at perhaps the most important tool in the Company's trading - its ships. In order to reconstruct the complete shipping activities of the VOC, the author created a unique database of the ships' movements, including frigates and other, hitherto ignored, smaller vessels. Parthesius's research into the routes and the types of ships in the service of the VOC proves that it was precisely the wide range of types and sizes of vessels that gave the Company the ability to sail - and continue its profitable trade - the year round. Furthermore, it appears that the VOC commanded at least twice the number of ships than earlier historians have ascertained. Combining the best of maritime and social history, this book will change our understanding of the commercial dynamics of the most successful economic organization of the period.

The Lives of the Constitution Joseph Tartakovsky, 2019-10-08 In a fascinating blend of biography and history, Joseph Tartakovsky tells the epic

and unexpected story of our Constitution through the eyes of ten extraordinary individuals—some renowned, like Alexander Hamilton and Woodrow Wilson, and some forgotten, like James Wilson and Ida B. Wells-Barnett. Tartakovsky brings to life their struggles over our supreme law from its origins in revolutionary America to the era of Obama and Trump. Sweeping from settings as diverse as Gold Rush California to the halls of Congress, and crowded with a vivid Dickensian cast, Tartakovsky shows how America's unique constitutional culture grapples with questions like democracy, racial and sexual equality, free speech, economic liberty, and the role of government. Joining the ranks of other great American storytellers, Tartakovsky chronicles how Daniel Webster sought to avert the Civil War; how Alexis de Tocqueville misunderstood America; how Robert Jackson balanced liberty and order in the battle against Nazism and Communism; and how Antonin Scalia died warning Americans about the ever-growing reach of the Supreme Court. From the 1787 Philadelphia Convention to the clash over gay marriage, this is a grand tour through two centuries of constitutional history as never told before, and an education in the principles that sustain America in the most astonishing experiment in government ever undertaken.

Moby-Duck Donovan Hohn, 2011-03-03 Selected by The New York Times Book Review as a Notable Book of the Year A revelatory tale of science, adventure, and modern myth. When the writer Donovan Hohn heard of the mysterious loss of thousands of bath toys at sea, he figured he would interview a few oceanographers, talk to a few beachcombers, and read up on Arctic science and geography. But questions can be like ocean currents: wade in too far, and they carry you away. Hohn's accidental odyssey pulls him into the secretive world of shipping conglomerates, the daring work of Arctic researchers, the lunatic risks of maverick sailors, and the shadowy world of Chinese toy factories. Moby-Duck is a journey into the heart of the sea and an adventure through science, myth, the global economy, and some of the worst weather imaginable. With each new discovery, Hohn learns of another loose thread, and with each successive chase, he comes closer to understanding where his castaway quarry comes from and where it goes.

In the grand tradition of Tony Horwitz and David Quammen, *Moby-Duck* is a compulsively readable narrative of whimsy and curiosity.

May and Amy Josceline Dimbleby, 2007-12-18 A chance encounter at a summer party sent writer Josceline Dimbleby on a quest to uncover a mystery in her family's past. After talking with Andrew Lloyd Webber about a beautiful, dark portrait in his art collection, she decided to find out more about the subject of the painting: her great-aunt Amy Gaskell. Dimbleby had always known her great-aunt's face from this haunted portrait by the well-known Pre-Raphaelite painter Sir Edward Burne-Jones, but beyond that and a family rumor that Amy had died young "of a broken heart," Dimbleby knew little of her female forebears. At the start of her search, Josceline came across a cache of unpublished letters from Burne-Jones to her great-grandmother May Gaskell, Amy's mother. These letters turned out to be part of a passionate correspondence—adoring, intimate, sometimes up to five letters a day—which continued throughout the last six years of the painter's life. As she read, more and more questions arose: Why did Burne-Jones feel he had to protect May from an overwhelming sadness? What was the deep secret she had confided to him? And what was the tragic truth behind Amy's wayward, wandering life, her strange marriage, and her unexplained early death? In piecing together the eventful life of her grandmother, Dimbleby takes us through a turbulent period in history that includes the Boer War, the Great War, and the Second World War and visits the most far-flung corners of the British Empire. The Souls—William Morris, Rudyard Kipling, and William Gladstone—all play a part in this sweeping, often funny, and sometimes tragic story. Above all, it is her infectious enthusiasm for a subject so close to home that makes *May and Amy* such a compelling and richly entertaining read.
