Triangulation Gregory Ashe, After a recent case with a treacherous client, North and Shaw are ready to go back to work building Borealis Investigations. They're also ready to go back to dodging their feelings for each other, with neither man ready to deal with the powerful emotions the Matty Fennmore case stirred up. Everything is getting back to normal when their secretary asks for help: her girlfriend's boss has gone missing. Shep Collins runs a halfway house for LGBTQ kids and is a prominent figure in St. Louis's gay community. When he disappears, however, dark truths begin to emerge about Shep's past: his string of failed relationships, a problem with disappearing money, and his work, years before, as one of the foremost proponents of conversion therapy. When Shep's body turns up at the halfway house, the search for a missing person becomes the search for a murderer. As North and Shaw probe for answers, they find that they are not the only ones who have come looking for the truth about Shep Collins. Their investigation puts them at odds with the police who are working the same case, and in that conflict, North and Shaw find threads leading back to the West End Slasher--the serial killer who almost took Shaw's life in an alley seven years before. As the web of an ancient conspiracy comes to light, Shaw is driven to find answers, and North faces what might be his last chance to tell Shaw how he really feels.

Three Steps on the Ladder of Writing Hélène Cixous,1993 Three Steps on the Ladder of Writing is a poetic, insightful, and ultimately moving exploration of 'the strange science of writing.' In a magnetic, irresistible narrative, Cixous reflects on the writing process and explores three distinct areas essential for 'great' writing: The School of the Dead--the notion that something or someone must die in order for good writing to be born; The School of Dreams--the crucial role dreams play in literary inspiration and output; and The School of Roots--the importance of depth in the 'nether realms' in all aspects of writing. Cixous's love of language and passion for the written word is evident on every page. Her emotive style draws heavily on the writers she most admires: the Brazilian novelist Clarice Lispector, the Russian poet Marina Tsvetaeva, the Austrian novelists Ingeborg Bachmann and Thomas Bernhard, Dostoyevsky and, most of all, Kafka.

Me Artsy Drew Hayden Taylor,2015-04-25 There are a few questions that professional artists get asked regularly: Where do you get your ideas? How did you get started? And be honest—are you really in it for the money? Following the highly successful *Me Funny* and *Me Sexy* anthologies, *Me Artsy* answers these eternal questions and more. With essays from fourteen First Nations artists from a variety of disciplines, the collection provides insight into the paths that led each artist to pursue and develop his or her craft. The essays explore many common themes around the role of art in First Nations communities, including the importance of art for creating social change, the role of art in representing Native culture and the fusion of traditional and contemporary techniques. On a more personal level, the essays describe the significance of art in the lives of the contributors, along with their sometimes unlikely journeys to success, stories which are often touched with humour and humility. Chef David Wolfman describes gruelling years of prep work in the kitchens of the exclusive National Club; filmmaker Zacharias Kunuk discusses leaping into his first feature film without knowing how to finance it; fashion designer Kim Picard describes making a dress inspired by coffee beans; and playwright Drew Hayden Taylor tells the story of putting a bullet through his first play and burying it in his yard. Other contributors include actor/playwright Monique Mojica, painter Marianne Nicolson, painter Maxine Noel, blues pianist Murray Porter, scholar Karyn Recollet, dancer/choreographer Santee Smith, director/actor Rose Stella, drummer Steve Teekens, writer Richard Van Camp and manga artist Michael Nicholl Yahgulanaas.

An Intimate Chronicle William Clayton,1995 William Clayton is best remembered today for his hymns, especially *Come, Come Ye Saints*. But as one of the earliest Latter-day Saint scribes, he made intellectual as well as artistic contributions to his church, and his records have been silently incorporated into official Mormon scripture and history. Of equal significance are his personal impressions of day-to-day activities, which describe a social and religious world largely unfamiliar to modern readers. In ministering to the sick, for instance, Clayton anointed with perfumed oil and rum. He performed baptisms to heal the sick. Church services, held irregularly, were referred to as going to meeting and seemed to be elective. He testifies of people speaking in tongues and of others almost speaking in tongues. When introduced to plural marriage, he was reluctant but eventually became one of its most enthusiastic proponents, marrying ten women and fathering forty-two children. Since polygamy was initially secret, Clayton spent much of his time putting out the fires of innuendo and discontent. He caught his first plural wife rendezvousing with her former fiancé; later, when she became pregnant, her mother-his unaware mother-in-law was so overwrought that she attempted suicide. Joseph Smith reassured him: Just keep her at home and brook it and if they raise trouble about it and bring you before me I will give you an awful scourging and probably cut you off from the church and then I will set you ahead as good as ever. Clayton was also the object of Emma Smith's attentions, allegedly part of a jealous wife's plan to make a cuckold of her errant husband.

Crowns in Egyptian Funerary Literature Katja Goebs,2008 This book presents a new approach to analysing the image of ancient Egyptian kings and gods. The author studies textual evidence rather than the often stereotyped iconography, focusing on mentions of the king's White and Red Crowns and demonstrating that they possess a wide-ranging symbolism that transcends the terrestrial sphere to encompass the divine and the cosmos, death and rebirth. In funerary texts of the Old and Middle Kingdoms (ca. 2300-1700 BC), crowns play a part in the deceased king's ascent to the sky and transfiguration, enabling him to assume the form and powers of a celestial god. Crowns express such attributes as the legitimate rule of gods or of the deceased, as well as radiance; they are also metaphors for cosmic events. Personified as goddesses, they are the deceased's mothers and nurses. These symbolic functions are integrated into richly metaphorical texts that combine the explicit with the allusive and the concrete with the evanescent. The book discusses occurrences of the White, Red, and Double Crowns in the Pyramid and Coffin Texts, as well as other selected examples. A major section reinterprets the famous Cannibal Spell as a description of sunrise that fits seamlessly with the themes of other texts. This study will be of great interest not just to Egyptologists but also for the parallels it offers for styles of royal and divine symbolism that are found in many civilisations.
