Birds of a Feather Susan L. Roth,2019-05-14 One makes colorful paper collages; the other, intricate environments out of found objects. And yet Susan L. Roth and the remarkable bowerbird are truly birds of a feather. Sibert Medalist Susan L. Roth is like a bowerbird, a small black bird found in Australia and New Guinea that builds elaborate structures from various materials they find near their habitats. Though Susan creates books to attract readers and bowerbirds build bowers to attract a mate, both get their ideas from the world around them and the materials they find. Both love colors. No two of their respective creations are alike. And most importantly, both Susan and the bowerbirds aspire for their finished works to be greater than the sum of their parts. Complete with engaging backmatter and dazzling artwork crammed full of so much to look at, this visually delightful picture book from award-winning author and artist Susan L. Roth is a fascinating comparison of art we create and art we find in nature. A Bank Street Best Book of the Year - Outstanding Merit

Survival of the Beautiful David Rothenberg,2013-01-01 'The peacock's tail makes me sick!' said Charles Darwin. That's because the theory of evolution as adaptation can't explain why nature is so beautiful. It took the concept of sexual selection for Darwin to explain that, a process that has more to do with aesthetic taste than adaptive fitness. Survival of the Beautiful is a revolutionary new examination of the interplay of beauty, art, and culture in evolution. Taking inspiration from Darwin's observation that animals have a natural aesthetic sense, philosopher and musician David Rothenberg probes why animals, humans included, have an innate appreciation for beauty - and why nature is, indeed, beautiful.
