*Racing for the Gold* ,

The Great Air Races Don Vorderman,1969

Air Racing Today Philip Handleman,2001 Philip Handleman captures the action of the National Championship Air Races at Reno, Nevada. The book concentrates on the T-6 and Unlimited classes, and features the daring pilots and crew along with the intriguing aircraft. The nose art of the machines is highlighted in special sections.

**American Aviation Historical Society Journal** American Aviation Historical Society,1973

**AAHS Journal** American Aviation Historical Society,1981

**American Racing Planes and Historic Air Races** ,1952 Describes a variety of air trophy and cup races with a discussion of how the race was flown and what planes were used. An appendix in back gives lists of top finishers with their airplane specifications and finishing times.

Fly Low Fly Fast Robert Gandt,2023-06-23 This first-ever insider foray into the world's fastest and most dangerous aviation sport is as thrilling as Ernest Gann's classic *Fate Is the Hunter* or Tom Wolfe's *The Right Stuff* In *Fly Low, Fly Fast*, Robert Gandt takes us into the high-risk world of the Reno Air Races, attended every year by more than 100,000 spectators and featured on scores of web sites. Flying wingtip to wingtip around pylons at 500 mph, just feet above the sagebrush, Reno's killing machines are piloted by an adrenaline-addicted, type-A elite whose big talent and big egos spawn a hundred stories. With the same vivid reportage of his *Bogeys and Bandits* -- about as close as you can get (to the cockpit) without arming the ejection seat, said the San Diego Union-Tribune--Gandt traces the history of this exhilarating but often deadly sport. He follows the evolution of competition planes from the 1930s custom exotics to today's big, throaty warbirds like the Mustang and Bearcat, still the fastest piston-engine planes ever built. Gandt also looks at the evolution of the pilots from famous laconic old-time air cowboys to the younger, slicker hot shots, the jet-fighter-trained top guns. *Fly Low, Fly Fast* ignites with fierce rivalries, the struggles to keep the vintage warbirds flying, the heart-stopping drama of the races themselves...with winners, losers, close calls, spectacular crashes, and glorious victories. It's a book for aviation buffs, armchair adventurers and anyone fascinated by the passions that drive men and women to test their limits--and risk their lives--in the quest for speed.

**Air Racing Over Reno** Philip Handleman,2007 This incredibly photo-rich book takes a close look at the excitement of the Reno Air Races, with all six racing classes shown in detail. Photographer Philip Handleman shows the races from an angle that only someone with behind-the-scenes access can deliver: aircraft turning the pylons at nearly 500 mph and racers being fine-tuned in the pits for the next race.

The Golden Age of Air Racing: 1934-1939 Sylvester H. Schmid,Truman C. Weaver,1983

*Fly Low, Fly Fast* Robert L. Gandt,1999 This foray into the world's fastest and most dangerous aviation sport is as thrilling as Ernest Gann's classic *Fate Is the Hunter* or Tom Wolfe's *The Right Stuff*.

**Flight** ,1938-07

**The Great Air Races** Don Vorderman,1991-07-01

**Thompson Trophy Racers** Roger Huntington,1989

**Airplane Racing** Don Berliner,2010-04-22 This is the history of air racing from its beginnings in 1909 at Reims, France, to the end of the 2008 racing season at Reno, Nevada. The history of air racing is very much the history of

aviation, with glamorous pilots, some of military fame (e.g., Jimmy Doolittle), and builders (e.g., Glenn Curtiss), machines that captivated the national imagination, and many relatively unknown tinkerers and designers.

**Racing Planes & Pilots** Joe Christy, 1982

**The Risk Takers** Hugh Cowin, 1999-10-01 This book focuses upon two distinct but complementary and in certain cases overlapping aspects of aviation. At the Reims Air Show in 1909, the American Glenn Curtiss and Frenchman Louis Bleriot vied with each other for the speed record and Henry Farman won the distance prize. The first official air races were held in 1911. Why 'The Risk Takers'? There were a staggering 32 aviation fatalities in 1910; CS Rolls (co-founder of Rolls-Royce) was the first to perform a non-stop return crossing of the English Channel; but his Wright Flyer would break up in mid-air a month later. This book illustrates and analyses all such pioneering achievements in precise technical detail.
