Smart Bodyweight Training Matthew Schifferle, 2018-05-08 This book has potential to improve every workout you do for the rest of your life. Smart Bodyweight Training is more than a book about how to achieve superior results through bodyweight training. It's about using the discipline of calisthenics as a tool to learn how to use every muscle in your body in a smarter and more effective way. Author Matt Schifferle first discovered bodyweight training after years of struggling with classic weight and cardio workouts. Within a few months, of using little more than a pull-up bar, Matt found new levels of strength and health through using techniques that required a fraction of the time and effort of costly gym-based workouts. Unsatisfied with classic step-by-step calisthenics routines, Matt has created an infinitely customizable approach that delivers fast, proven results for anyone from the rank beginner to the elite athlete. No matter where you are in your fitness journey, your best workouts are still yet to come not just by working harder, but through working smarter than ever before.

Locke and the Sacramento Delta Chinatowns Lawrence Tom, Brian Tom, Chinese American Museum of Northern California, 2013 Chinese pioneers in the Sacramento River Delta were the vital factor in reclaiming land and made significant contributions to California's agricultural industry from farming to canning. Since the 1860s, Chinese were already settled in the delta and created Chinatowns in and between the two towns of Freeport in the north and Rio Vista in the south. One of the towns, Locke, was unique in that it was built by the Chinese and was inhabited almost exclusively by the Chinese during the first half of the 1900s. The town of Locke represents the last remaining legacy of the Chinese pioneers who settled in the delta.

Juliet Tango November Gustavo Marón, 2023-09-25 On 18 July 1981, a Canadian CL-44D Swingtail cargo aircraft of the Argentine company Transporte Aéreo Rioplatense mysteriously disappeared over the Soviet Republic of Armenia

while on a flight from Iran via Turkey in the direction of Cyprus. Four days later, on 22 July 1981, the Vremya TV broadcast in Moscow forwarded a report from the Soviet TASS news agency which stated that an aircraft of unidentified origin had entered Soviet territory in the vicinity of the Armenian city of Yerevan. According to the same release, the aircraft had ignored all calls from air traffic control and ended up crashing and burning after colliding with another Soviet aircraft. With this cryptic information began one of the most impressive and least known stories of Argentine civil aviation: the shooting down of the freighter registered as LV-JTN by the Soviet Air Defense Force (V-PV0). The episode, heavily covered up by Moscow, was part of a much larger geopolitical scenario: the clandestine transport of US-made weapons and spare parts that was taking place between Tel Aviv and Tehran by virtue of a secret agreement between the Iranian and Israeli governments. All this at a time when the former was subjected to an arms embargo in revenge for the hostage-taking that occurred in 1979 at the US Embassy in Tehran. The Islamic Republic of Iran, formed as a result of the Islamic Revolution that had broken out that same year, was an avowed enemy of Israel, whom it considered a mere Zionist regime that imposed itself in the occupation of Palestine. The Iranian religious leader Ruhollah Khomeini did not recognize the State of Israel, which he referred to simply as "Little Satan". However, the Iranians desperately needed supplies of US weapons as a few months earlier, on 22 September 1980, they had been invaded by Iraq. The

Israelis saw the possibility of carrying out a sideline business and thus embarked on a clandestine supply operation. The intelligence services of the Soviet Union soon became aware of the secret arms trafficking and decided to divert one of the involved aircraft into their airspace then force it to land in their territory with the aim of exposing the operation and all its protagonists. By interfering with radio communications and manipulating navigational aids, the KGB managed to divert the Argentine CL-44D from its route, with it ending up inside Soviet airspace. However, the Sukhoi Su-15TM interceptors of the V-PVO failed in their mission, and thus their ground control ordered the destruction of the target. The Soviet conspiracy of silence began after discovering that its Air Defense Force had destroyed an Argentine-flagged civil plane, with an Argentine crew, which was flying empty. Juliet Tango November explores this incident in detail and is richly illustrated with color images and previously unseen photographs.

Marysville's Chinatown Brian Tom, Lawrence Tom, 2008 Marysville's Chinatown was once one of the most important Chinatowns in America. The early Chinese settlers called Marysville Sanfow, or the third city, meaning the third city by river to the goldfields. Two of the first four Chinese American judges in California were from Marysville as was the first Chinese American elected to the San Francisco Board of Education. The Marysville Chinatown was among the first Chinatowns built in California's Gold Country and is the only one to survive to this day. Because of this, it is possible to view the full panorama of Chinese-American history through the viewpoint of this one Chinatown.

Can't Slow Down Michaelangelo Matos, 2020-12-08 A Rolling Stone-Kirkus Best Music Book of 2020 The definitive account of pop music in the mid-eighties, from Prince and Madonna to the underground hip-hop, indie rock, and club

scenes Everybody knows the hits of 1984 - pop music's greatest year. From Thriller to Purple Rain, Hello to Against All Odds, What's Love Got to Do with It to Wake Me Up Before You Go-Go, these iconic songs continue to dominate advertising, karaoke nights, and the soundtracks for film classics (Boogie Nights) and TV hits (Stranger Things). But the story of that thrilling, turbulent time, an era when Top 40 radio was both the leading edge of popular culture and a moral battleground, has never been told with the full detail it deserves - until now. Can't Slow Down is the definitive portrait of the exploding world of mid-eighties pop and the time it defined, from Cold War anxiety to the home-computer revolution. Big acts like Michael Jackson (Thriller), Prince (Purple Rain), Madonna (Like a Virgin), Bruce Springsteen (Born in the U.S.A.), and George Michael (Wham!'s Make It Big) rubbed shoulders with the stars of the fermenting scenes of hip-hop, indie rock, and club music. Rigorously researched, mapping the entire terrain of American pop, with crucial side trips to the UK and Jamaica, from the biz to the stars to the upstarts and beyond, Can't Slow Down is a vivid journey to the very moment when pop was remaking itself, and the culture at large - one hit at a time.

Escaping the Delta Elijah Wald, 2012-04-24 The life of blues legend Robert Johnson becomes the centerpiece for this innovative look at what many consider to be America's deepest and most influential music genre. Pivotal are the questions surrounding why Johnson was ignored by the core black

audience of his time yet now celebrated as the greatest figure in blues history. Trying to separate myth from reality, biographer Elijah Wald studies the blues from the inside -- not only examining recordings but also the recollections of the musicians themselves, the African-American press, as well as examining original research. What emerges is a new appreciation for the blues and the movement of its artists from the shadows of the 1930s Mississippi Delta to the mainstream venues frequented by today's loyal blues fans.

Pappyland Wright Thompson, 2020-11-10 The New York Times bestseller! "A warm and loving reflection that, like good bourbon, will stand the test of time." --Eric Asimov, The New York Times The story of how Julian Van Winkle III, the caretaker of the most coveted cult Kentucky Bourbon whiskey in the world, fought to protect his family's heritage and preserve the taste of his forebears, in a world where authenticity, like his product, is in very short supply. Following his father's death decades ago, Julian Van Winkle stepped in to try to save the bourbon business his grandfather had founded on the mission statement: "We make fine bourbon--at a profit if we can, at a loss if we must, but always fine bourbon." With the company in its wilderness years, Julian committed to safeguarding his namesake's legacy or going down with the ship. Then he discovered that hundreds of barrels from the family distillery had survived their sale to a multinational conglomerate. The whiskey that Julian produced after recovering those barrels would immediately be hailed as

the greatest in the world—and soon would be the hardest to find. Once they had been used up, a fresh challenge began: preserving the taste of Pappy in a new age. Wright Thompson was invited to ride along as Julian undertook the task. From the Van Winkle family, Wright learned not only about great bourbon but about complicated legacies and the rewards of honoring your people and your craft—lessons that he couldn't help but apply to his own work and life. May we all be lucky enough to find some of ourselves, as Wright Thompson did, in Pappyland.

Mississippi Floods Anuradha Mathur, Dilip da Cunha, Professor Dilip Da Cunha, 2001-01-01 Each time the waters of the mighty Mississippi River overflow their banks, questions arise anew about the battle between man and river. How can we prevent floods and the damage they inflict while maintaining navigational potential and protecting the river's ecology? The design of the Mississippi and how it should proceed has long been a subject of controversy. What is missing from the discussion, say the authors of this book, is an understanding of the representations of the Mississippi River. Landscape architect Anuradha Mathur and architect/planner Dilip da Cunha draw together an array of perspectives on the river and show how these different images have played a role in the process of designing and containing the river landscape. Analyzing maps, hydrographs, working models, drawings, photographs, government and media reports, painting, and even folklore, Mathur and da Cunha consider what these representations of the river portray,

what they leave out, and why that might be. With original silk screen prints and a selection of maps, the book joins historic, scientific, engineering, and natural views of the river to create an entirely new portrait of the great Mississippi.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Delta Lady Rita Coolidge,Michael Walker,2016-04-05 The two-time Grammy Award-winning singer and songwriter bares her heart and soul in this intimate memoir, a story of music, stardom, love, family, heritage, and resilience. She inspired songs—Leon Russell wrote “A Song for You” and “Delta Lady” for her, Stephen Stills wrote “Cherokee.” She co-wrote songs—“Superstar” and the piano coda to “Layla,” uncredited. She sang backup for Eric Clapton, Joe Cocker, and Stills, before finding fame as a solo artist with such hits as “We're All Alone” and “(Your Love Has Lifted Me) Higher and Higher.”

Following her story from Lafayette, Tennessee to becoming one of the most sought after rock vocalists in LA in the 1970s, Delta Lady chronicles Rita Coolidge's fascinating journey throughout the '60s-'70s pop/rock universe. A muse to some of the twentieth century's most influential rock musicians, she broke hearts, and broke up bands. Her relationship with drummer Jim Gordon took a violent turn during the legendary 1970 Mad Dogs & Englishmen tour; David Crosby maintained that her triangle with Stills and Graham Nash was the last straw for the group. Her volatile six-year marriage to Kris Kristofferson yielded two Grammys, a daughter, and one of the Baby Boom generation's epic love stories. Throughout it all, her strength, resilience, and inner and outer beauty—along with her strong sense of heritage and devotion to her family—helped her to not only survive, but thrive. Co-written with best-selling author Michael Walker, Delta Lady is a rich, deeply personal memoir that offers a front row seat to an iconic era, and illuminates the life of an artist whose career has helped shape modern American culture.

Territory ETH Studio Basel, Contemporary City Institute, Roger Diener, Liisa Gunnarsson, Mathias Gunz, Vesna Jovanović, Marcel Meili, Christian Mueller Inderbitzin, Christian Schmid, 2016 Between 2008 and 2014, ETH Studio Basel, under the guidance of Roger Diener and Marcel Meili, has been investigating the process of urbanisation taking place outside cities. Territory - in the context of this investigation denotes both: the surroundings that a city

subsumes into its own structure and the core city itself, which is the centre of this process of urbanisation, or confiscation. Investigated were six regions on six continents: The Nile Valley with the dense corset of natural landscape surrounding a linear city; Rome-Adria, where territorial cells have formed within the territory, spawning an urban type of tremendous dynamism; Florida, presenting highly complex patterns of territorial organisation; Vietnam's Red River Delta, where recent reform exposed traditional settlement and cultivation of the delta to freer forces; Oman, where urbanisation of a territory essentially means reclaiming the desert with the immediate necessity to develop a system for water distribution; and Belo Horizonte, where natural conditions likewise play a major role in organising the territory as surface mining entails huge transformations of the natural terrain. The new book features two introductory essays on ETH Studio Basel's research approach and on terminology, concise illustrated reports on the six regions, and four concluding topical essays.
